True Blue Establisment Visitors

A meeting unique in the history of the Loyal True Blue Lodge No. 398 was held in the Arena building Thursday evening Sept. 9th, when the local members acted as hosts to the officers and members of York District on the occasion of their visit to our local Lodge. The visitors 176 strong were welcomed by Worshipful Mistress Sister McCreight in her very able manner on behalf of the Lodge. The distinguished members of the order who accompanied the visitors were: Most Worshipful W. G. Farley, Supreme Grand Master of British America, Most Worshipful Sisters Etherington, Manday and Connors, District Officers Sisters Sted, Perkins, Sandy, Key and Bro. Jones and Willson. A degree team under the able leadership of Sister Perkins conferred the third degree upon a large class of candidates, putting on the floor work in a manner that was an inspiration to all members present. At the close of the degree a dainty luncheon was served during which time those present listened to speeches from the Grand Lodge and District Officers. The Grand Master, in the course of his address congratulated the local Lodge on the efficient manner in which they conducted the business of their lodge, and stated that it gave him a great deal of pleasure at this time to announce to the members present the appointment of Sister Eva McNally as Associate Supreme Grand Lecturer and Bro. Earl McCreight as District Deputy Grand Master duly appointed at the recent Grand Lodge Convention held at Owen Sound, and further that he had a very pleasant duty to perform on behalf of the District of York in asking an engraved set of gavels as a memento of their visit. The remainder of the evening was spent in cards and dancing, after which the company left for home all going with the feeling that it had been a night well spent in the interest of Loyal True Blueism.

for the first time!

a completely cushioned engine

The McLaughlin-Buick Valve-in-Head engine now has "rubber heels." Here is an engine completely insulated and isolated from all metallic contact with its chassis. Thick rubber cushions, fore and aft, absorb noise, and save the engine from road shocks and strains.

Never, in all its successful years of motor car manufacture, has McLaughlin-Buick ever produced a car as far ahead of its field in performance and value as the 1927 McLaughlin-Buick.

Money can buy no finer performance, no matter how much you are prepared to spend.
