Here and There

Southern holiday resorts received a setback when the Quarter Million Dollar Club of the Canada Life Assurance Company, of Toronto, decided to substitute Quebec City for Miami as the place of meeting of their Convention this winter.

Ice statures have been erected in many of the quiet old streets of Quebec. A busy dog, carved out of ice, with a stick of candy in his mouth, is one of the sights in front of a confectioner's, while another is an immense polar bear, in life-like form.

About 130,000 young apple trees will be planted in the famous Annapolis Valley, Nova Scotia, next spring, it is expected. Good commercial varieties of apples will include Genes, Baldwin, Spys, Kings, Wagners and Gravensteins.

According to the provincial apur-tat, the value of honey, wax and other products of the hive in Quebec in 1925 amounted to \$2,395,553. More than 1,100 new apiculturists were registered during the year, bringing the total to 7,729, possessing 100,155 colonies of bees.

In recognition of his heroic action when he rescued a lady from being crushed under a tramcar, Joseph Tammaro, clerk and stenographer in the Investigation Department of the Canadian Pacific Railway, has been presented with a certificate of the Royal Canadian Humane Association.

A new record was created at the port of Montreal in 1925, both in the arrival of trans Atlantic vessels and in the amount of tonnage. Last season 1,043 vessels, representing a net tonnage of 4,744,793 entered the port. In 1924 there were 988 vessels with net tonnage of 3,697,147.

A magnificent silver dish, twenty inches in diameter, presented by King Emmanuel of Portugal to the famous explorer Vasco da Gama in 1499, in recognition of the latter's discovery of the sea route to India, attracted much attention while on exhibition in the downtown offices of the Canadian Pacific Railway in Montreal.

On the night of January 14 the oldest wing of the Chateau Frontenac at Quebec was destroyed by fire, and within 24 hours a start had been made on the work of re-building. President Beatty, of the Canadian Pacific, says the new wing will still further enhance the beauty of that famous structure and that it will be 100 per cent fireproof.

Teachers and educationalists from all parts of the Old Country gathered in London recently to discuss methods of teaching and suggested improvements of bringing up youngsters the way they should go. Among those who spoke were Sir Gilbert Packer, the famous Canadian writer; Sir Sydney Low, Imperial Publicist, and Dr. Stevens, President of the Head Masters' Association.

As a tribute to over forty-six years of service with the Canadian Pacific Railway, George Rollin, who retired on New Year's Day under pension arrangements after holding the position of yard agent at the Place Viger Station since May, 1900, was presented with a purse of gold. The presentation was made at a dinner at the Windsor Station restaurant.

Mr. John Leslie has been appointed vice-president and comptroller of the Canadian Pacific Railway. The new vice-president joined the Toronto, Gray and Bruce Railway in 1877 as a junior clerk attached to the auditor's office. When the road was taken over by the C.P.R. he was made chief clerk and by 1914 had advanced to the position of comptroller. Since March, 1918, he has been in entire charge of the company's accounting departments.

Low Price-High Quality

CHEVROLET looks like an expensive car. You will find the beautiful Fisher built, closed bodies on Chevrolet—it is the lowest priced car in the world having Fisher bodies. You will see appealing Duro finish in colors on Chevrolet. You will discover luxurious upholstery—hand some saddle-stitch interior fittings—copy ruggs on the floor—dash blinds on the windows—a dome light in the roof—a robe rail and a foot rest—all in the Chevrolet sedan.

Chevrolet drives like an expensive car. The extra powerful Chevrolet engine performs with amazing smoothness. The equipped gear-shift works with ease and quietness. The dry-disk clutch engages and releases smoothly, almost without effort. Extra-large, self-equalizing brake make steering safe and secure. The knurled-grip steering wheel—with centrally mounted spark and throttle levers and horn button—handles with big car smoothness and small-car facility.

The Smoothest Chevrolet in Chevrolet history is sailing at the Lowest Price for which Chevrolet has ever been sold in Canada.

Here's The Radio You've Waited For

ROGERS

BATTERYLESS A/C

JUST PLUG IN—THEN TUNE IN!

ONE thousand Radio Dealers, when asked what the public wanted in radio this year, answered: (1) Elimination of batteries; (2) Simplicity of installation and operation, and (3) Tone quality and volume. The new 1927 Rogers Batteryless Radio is the only Radio that embodies all of these features. They combine total elimination of batteries with extreme simplicity, exquisite tone quality and volume that can be regulated from a whisper to a roar. There are fourteen distinctive points in the 1927 Rogers, many of which can be found in a few high-priced radios, a few of which can be found in many radios, but all of which can be found in no other radio in the world. Yet the prices are very modest. To buy any radio without first seeing and hearing the new Rogers is but to cheat yourself and purchase regrets.

No Batteries The Rogers operates direct from any light socket on any alternating current. No chemicals; no charger; no attachments. You "Just Plug In—Then Tune In." The Rogers uses the raw current through its super-power unit that automatically regulates all voltages for A, B and C Circuits and takes care of all variations of line voltage after once installed. Not the slightest hum nor power noise, can pass into the speaker. It costs about 4c a week to operate daily, and you get uniform, everlasting power from the day you plug in—forever more.

No Aerial In most homes the Rogers will function without any aerial whatever, either outside or built in loop—and with less disturbance than when an aerial is used. Except for occasional houses so constructed that an aerial is needed (as with ordinary radio sets), the Rogers can be installed and tuned in in 2 minutes 21 seconds.

Single Dial Control Combined with simplicity of installation is ease of operation. A single tuning dial, vernier control, with wave lengths indicated on the face of the dial, enables you to tune in station after station easily and quickly or locate any desired station at will. On August 26, 1926, in a Parkdale home in Toronto, 31 stations were tuned in and logged with one turning of the dial (never turning backwards) and without touching any other control on the set.

Exquisite Tone Quality Exceptional Volume By the addition of an A/C Power Tube the possible volume has been greatly increased and the quality of tone infinitely improved. The volume can be adjusted from a whisper to a roar by a turn of one knob, without cutting out or in any of the tubes. When you once hear the new Rogers you will marvel at its fidelity of tone reproduction on all instruments and voices.

Free Demonstration
Added to the above are a dozen other points of advantage that combine to make the Rogers the one set that can give you all you hoped for in a Radio. If you are prepared to purchase a Rogers, providing it meets your expectations in every respect, we will install one in your home free of charge. You will be the judge. If it is all we say—and you are entirely satisfied—payment can be made in cash or spread over three to twelve months for a slight charge.

The single-dial, batteryless sets are \$275.00 for table model complete except for loud speaker (loud speakers \$25 to \$40).

\$395.00 for Queen Anne Console Cabinet with built-in loud speaker.

Other Rogers A and B Batteryless Sets:
Three tube table models \$140.00 and \$150.00. (2-dial control).
Five tube table models \$210.00 and \$220.00. (3-dial control).
