Here and There

Kilmartin, large mouthed black bass may soon be available to Alberta sportsmen for a batch of fingerlings and yearlings from the Kootenay Lakes have been placed in Lac La Poudre by the Northern Alberta Fish and Game Protective Association.

McGill University opened her senior football season in Montreal at the Percival Molson Memorial Stadium on October 2nd, with a game against the Old Boys. One of the most enthusiastic fans of this game is E. W. Beatty, President of the Canadian Pacific Railway, who is an annual ticket holder, and who will be present at all the big games this season.

In a recent despatch from the west, W. L. Smith, former editor of the Farmer's Sun, estimates that approximately \$1,000,000,000 will be added to Canada's income this year from the products of the farms of Western Canada. Last year's crop was valued at \$1,112,691,000 to the growers and it put the west in the prosperity column. Mr. Smith believes it is a fair assumption that this year the return will not be less.

An interesting estimate of Canada's per capita wealth has been made by the League of Nations, with comparative figures of 22 years ago. In 1926 the per capita wealth in this country amounted to \$2,406, as contrasted with \$1,100 per capita in 1904. Out of the 35 nations listed, Canada ranks third, the United States showing \$2,918 and Great Britain \$2,459 per capita, respectively.

With a view to obtaining financial assistance of some kind which will aid the emigration of Austrian farmers to Canada, Dr. Heinrich Montel, an Austrian Government official, arrived in this country recently on board the Canadian Pacific S.S. "Montreal." There are 10,000 Austrian farmers who would emigrate to Canada, stated Dr. Montel, all of them practical farmers, but they do not possess sufficient funds to pay their passage to this country.

Egypt may include Canada among those countries in which she will be without representation, according to a statement made recently by Emile Shartent, acting as unofficial ambassador to Canada who arrived in Canada on the Canadian Pacific liner "Minuosa." Mr. Shartent is trying to interest Egyptian in Canadian flour and timber, and in return expects the Dominion to reciprocate by purchasing cotton, dried fruits, etc., direct from Egypt instead of through the middlemen in London or New York.

Walking about on a two-foot wide platform, 200, 300 and even 500 feet up the outer surface of huge chimneys is all in a day's work to Henry Held, expert chimney builder and climber, who was employed recently by the Canadian Pacific Railway to overhaul a 200-foot chimney in the station yard at the Windsor Street Depot in Montreal. It took eight days for Held and his assistants, Richard Boucher, of Three Rivers, to move the platform, secured by a heavy cable, up the side of the chimney, in order to begin work at the top.

Lord Clarendon, Under-Secretary of State for Dominion Affairs in the British Government, sailed for England from Quebec on the Canadian Pacific liner "Empress of France," September 29th, bringing to the attention of the Dominion government the conditions under which the 3,000-family immigrant scheme is being carried out in Canada. His Lordship, who is chairman of the Overseas Settlement Board under whose auspices this scheme is being conducted, made the statement before his departure that he was greatly satisfied with the conditions amongst Britons who have settled in Canada under this scheme. He personally visited over 180 families.

Give your Child a Grip on HEALTH

in **HURBUT** CUSHION-SOLE Shoes for Children

Buy shoes that are built by men who have spent almost a quarter of a century in the study of scientific shoe designing. These men have created a shoe that protects the health of your child—

No wrinkled linings to create callouses; no rucks, but a cushion-sole that increases the natural springiness of the foot—a shoe that can be enlarged a full size when it outgrows.

We sell and recommend them.

A New Economy-Record

CHEVROLET

UTILITY EXPRESS CHASSIS \$730
Body \$100
Spare Tires \$25
Painting \$25
Commercial Chassis \$485
Price at Factory Taxes Extra

In almost every line of business the Chevrolet Utility Express truck has established a new record of economy in operation and maintenance.

Truck owners are amazed at the low upkeep cost of this Chevrolet one-ton truck and the day-in, day-out service under which it stands up so dependably.

The smooth Chevrolet engine provides abundant power—even for considerable overloads—on hills and rough roads.

A close inspection of the utility express chassis and the records of Chevrolet truck owners will explain to you the performance and economy that have made Chevrolet the world's third largest producer of trucks and commercial cars.

Ask your Chevrolet dealer for description and prices of the type of body most suitable for your business. Any regular body style may be built on the Chevrolet utility express chassis.

The Smooth Chevrolet is Chevrolet history setting at the Lowest Price for which Chevrolet has ever been sold in Canada.

Ask about GMAC Plan of Deferred Payments.

Broadcast From War Ship Is Novel C.N.R.M. Feature

The band, under the direction of Bandmaster Herbert Wright, L.R.A.M., will commence at 8 o'clock with the march part of the Royal Marines, and after a programme of light and serious music, will conclude with a medley, "The Songs of Old England."

An added feature of this programme will be the rendition of the burf calls of the British Navy with an explanation of each.

An address will be delivered by Lieut.-Commander W. V. Fitzmaurice, R.N.R., entitled, "Our Maritime Defence."

A year ago CNRM broadcast the band of H.M.S. Calcutta in a studio programme, the first broadcast of such a character, while the coming broadcast is said to be the first ever transmitted from the deck of a British warship.

Mother looks forward to my telephone visits

said Helen to her husband—

"That was a wonderful idea of yours, Fred, that I should alternate my letters to mother with telephone calls."

"She misses me a good deal, and she was just delighted when she heard my voice. We talked over a lot of things, too—"

"I called more questions in three minutes than we could have done in twenty letters."

"And it's so much easier than writing! We were both so pleased that I've arranged to call her every Wednesday night now."

To bridge those unavoidable gaps, there is nothing like an occasional talk by Long Distance. For a few minutes the miles are rolled away and separated friends are brought face-to-face.

Buy a Radio in your own home!

KING RADIO
"Most Radio Per Dollar"

J. N. O'NEILL & SON
GEORGETOWN, ONTARIO

A Small Down Payment Puts This Radio in Your Home

WE invite you to try this King Radio at home. We will install it, then turn it over to you ready to use—and show in a few minutes how easy it is to operate a King Radio.

Then by actual trial learn what a good radio really means in your home. Hear the great orchestras, the celebrated singers, the numerous novelty numbers—the sermons of noted preachers, the wisdom of learned lecturers—truly, half the world is yours at the turn of a dial—if you own this King Radio.

Then—after you have had this King Radio three nights—after you have listened to its marvelous quality—after you have picked up stations far and near—if you don't say that your King has been "taken right into your family," we will take it back and it won't have cost you a cent.

Otherwise you can make a small payment down and settle the balance in small amounts at convenient periods while you are enjoying your King.

Come in today—get a demonstration—or phone us to send it to your home for a three nights' trial.

CLEAN POULTRY HOUSE

PRIOR SANITATION IS MOST IMPORTANT.

Formula for Whitewashing the Poultry House—All Poultry should be Carefully Cleaned.

(Contributed by Ontario Department of Agriculture, Toronto.)

Sanitation is doubly important with poultry, since domestication generally requires them to take their food from the same floors where their body waste are deposited. This practice creates a real problem in sanitation, leaving the birds exposed to an auto-infection of pathogenic bacteria and parasites, both internal and external.

Method of Cleaning a Poultry House.

1. Remove all the loose litter and dirt from the floor by means of a broom, dust box, etc. should be moved, thoroughly scrubbed with hot water, and then exposed to the sun.

With fixtures out, the ceiling and walls should be thoroughly swept. If water under pressure is at hand, the fixtures can be greatly facilitated by turning on a powerful stream of water. Should water pressure not be available a good scrubbing can be given all woodwork on walls and doors, using hot water (3 pounds of lye to 15 gallons of water). Follow the scrubbing with lye-water. A good formula for whitewash is as follows—

Unslaked lime, 2 pecks.
Spanish whiting, 1/2 pound.
Soft soap, 1/2 pound.
Grit, 1 pound.
Rice flour, 3 pounds.
Caulic carbonic acid, 2 quarts.
Water enough so that it can be applied easily and thoroughly.

It is highly desirable to alternate this with a way that they can be used for garden crops every second year. If this can not be done frequent ploughing had applications of lime in the next best way of adding the soil purification processes. Without proper care of the yards, it is only a matter of time until they become polluted with parasites, cocci, flies and pathogenic bacteria.

The dropping boards should be cleaned daily and the manure removed to a closed storage box. The practice of using sawdust on dropping boards is a good one. Failure to keep the birds safely away from manure of all kinds favors the transmission of disease and intestinal parasites. All dead birds should be destroyed by burning; burial is usually not satisfactory unless the person doing the undertaking work will bend his back enough to make a deep grave and thereby put the carcass down below harm's way.

Feeding Utensils.

All pans, troughs and fountains that can become contaminated, should be thoroughly cleaned and disinfected weekly with a mixture of equal parts of caustic, carbonic acid and coal oil, such practice will aid in keeping the house in check.

The establishment of conditions favorable to the health of the poultry stock may seem a lot of work, but success and profit cannot be expected if the work is not done in a thorough and practical way. The practice of letting things go from day to day or week to week will not go in the country business and has written the word failure across the efforts of many a would-be poultryman.—J. Stevenson, Dept. Extension, O. A. College.

Are You Protected?

FEEDING OF RAPE.

Good for Chickens, Lambs, Pigs and Steers.

This crop, now grown quite extensively in the counties where large numbers of steers and lambs are fed, requires some care in feeding. Very young cattle and lambs are frequently affected by too liberal use of this crop and results have not always been profitable. But properly handled this crop makes a valued addition to the autumn feed supplies of the farm, being green and palatable. It is relished by all farm animals from the chicken to the cow.

When out for soiling it should be fed at once, wilting spoils the flavor and it heats quickly if piled. Cutting has an advantage in that three crops may be obtained in a season giving a very large tonnage.

Rape cannot be fed to milking cows if the product is to be sold as milk, cheese, or butter. An undesirable cabbage flavor will stick to the dairy product. For dry cows and young stock on the dairy farm it is a very desirable feed.

For lambs, rape is excellent, but care must be taken to prevent bloat, which is very likely to follow. Have the lambs pretty well filled with dry feed before turning them on the rape patch, and give them a part time run on grass in an adjoining field if possible. Rape wet with rain or heavy dew is dangerous to a hungry animal, either sheep or cattle; pigs do not seem to be affected. Frozen rape has its dangers and rape as the sole feed is not always satisfactory. Use it rationally in that the animal is given other feeds each morning before being turned into the rape field that they may become used to it and not overeat of this bulky easily-fermented feed. Once the stock are used to rape they can remain on the field without danger, nevertheless it is good policy to watch them closely for evidences of bloat or rape poisoning.—L. Stevenson, Dept. of Extension, O. A. College.

NOTICE TO CREDITORS

In the Estate of George Christopher Campbell, Late of the County of Halton, Gentleman, Deceased.

Notice is hereby given that all persons having claims against the estate of the above named George Christopher Campbell who died on or about the twenty-eighth day of July, 1928, at the Town of Georgetown in the County of Halton, are required to send by prepaid post or otherwise to the undersigned solicitor for the Administrators of the said deceased on or before the sixteenth day of October, 1928, their names, addresses, full particulars in writing of their claims, a statement of their accounts, and the nature of their security, if any, all duly verified by statutory declaration.

And notice is further given that after the said last mentioned date the said Administrators will proceed to distribute the assets of the said deceased amongst the parties entitled thereto, having regard only to the claims of which they shall have notice, and they will not be liable for the said assets or any part thereof to any person or persons who have not notice has not been received at the time of such distribution.

Dated this twenty-second day of September, A.D. 1928.

CLARENCE H. WIGGINS,
Solicitor for the Administrators.

SHERIFF'S SALE OF REAL ESTATE

In the Village of Norval, County of Halton, to Wilt

Under and by virtue of a Writ of Execution issued out of the Supreme Court of Ontario, and to me directed, and delivered against the lands and tenements of Thomas Hewson in a certain action wherein the Hobbs Hardware Company, Limited, is Plaintiff, and Thomas Hewson is Defendant, I have seized and taken in execution and will offer for sale by public auction in Norval, Ontario, in the County of Halton, at the hour of three o'clock p.m., on Saturday the 23rd day of October, 1928, all the right, title, interest and equity (if any) in and out of the following lands and tenements, viz:

Firstly: Lot No. 1 on the south side of Green Street and having a frontage of 92 feet on Green Street and 102 feet on Adamson Street.

Secondly: Lot No. 2 on the south side of Green Street; Lot No. 2 on the north side of Isabella Street.

Thirdly: Lot No. 1 on the west side of Adamson Street and on the north side of Isabella Street.

Fourthly: Lot No. 3 and 4 on the south side of Green Street and Lots No. 3 and 4 on the north side of Isabella Street, on the said lots there is said to be a large stable.

Fifthly: Part of Lot No. 11 in the Eleventh Concession of the Township of Esquewaugh in the Village of Norval, known as Lot No. 2 on the north side of Green Street, on the said Lot there is said to be erected a two-story roughcast dwelling house.

Terms cash.
