## Daily Daily Train No. 9—7.19 a.m. No. 1—7.86 a.m. Ford Car wins out.

The Proverbial thrill that comes once in a life time came to hundreds of Ford owners at the Western Fair London on Sept. 18th, when they saw a standard Ford romp away from Whippet and Chevrolet competitors in the Special five mile race on Queen's Park track. The Ford finished nearly six 10.00 a.m. 2.00 p.m. 7.30 p.m. hundred yards ahead of the other contestants, making the five mile grind in 7.27. The race was a special feature of the fair program, resulting ffrom a challenge issued by the Whippet representatives to all owners of light cars

The spectators saw a thrilling race despite the fact that the Ford led the whole way. For the first four miles the contest was exceptionally keen between the Whippet and the Ford but, the Chevrolet was easily lapped The Wh:ppet made good time on the corners, but on the straight the Ford comed ahead like a racing car.

OBITUARY

Mrs. John McDowell After a long and painful illness Mrs. John McDowell passed away at the residence of her son, Edgar, Mill St., Acton, on October 29th. She had been ill for months but patiently bore her sufferings. Her illness was largely the results of her loving interest in others, and her care and nursing of them. Her maiden name was Christina McLean, and she was born on December 17th, 1856. Her husband, the late John McDowell, predeceased the late John McDowell, predeceased her at their former home at Port Credit, on January 27, 1920, where the control of the sons, Lewis, passed away four days later. About six years ago Mrs. McDowell came to Acton to reside. She has two sons surviving, Edgar and Fred, both of whom reside here. The late Mrs. George Ritchle was a sister. Mrs. McDowell was a fine type of Christian wife and mothers. She was always ready to sacrifice assembled in Clayton's Hall by special invitation, as to the aims and objects of the Ku Klux Klan. This is only part of a long sad story that applies pretty well to Ontario as a whole and may be amplified in various districts according to their special countries and customs.

A problem has developed for which open fine weather is the only solution. Advice from any quarter is useless. Taking advantage of every opportunity, be it ever so unfaviting, is the only means whereby the farmer can rescue his ungathered crops and do a little plowing to lessen the burden of work accumulating for the spring.

It will mean an interruption in certain rotations, perhaps, and possessitate an altered program for 1927. Such near disasters have occurred in various districts and parts of the Province ere this, and when followed by a favorable season the memory of the past year is blotted out.
