Compensation Costs

Speaking of the accident experience under compensation in Ontario in the past year. R. B. Morley, General Manager, Industrial Accident Prevention Associations, cites two re cent cases, one an employee whose thumb was injured while removing nails from lumber and who developed infection from this alight wound, dying within a short time. Another case was that of a worker placing belt dressing on a belt on a drive shaft when the shaft caught his clothing, tearing it completely from his body, breaking two : ibe and giving him minor cuts and abresions.

Mr. Morley says that in 1926 there were 65,916 socklants reported to the Workmen's Compensation Board, as against 60,012 in 1925. The fatal cases increased from 845 in 1925 to 400 in 1926. An investigation of Board shows that a great many more cases have been reported involving medical aid only. From this it appears that many accidents formerly
