Women of Canada Pay Striking Tribute to Aluminum

— the Modern Metal

FROM Windsor, Ontario, to Hudson's Bay, from Halifax to the Rockies, RED ROSE TEA within the last few weeks has scored an extraordinary increase in sales.

It is because we have stopped using paper packages, and are again packing this finest of teas in the old, familiar Aluminum package of years ago.

The reception it has been given demonstrates beyond all doubt that housewives of Canada recognize Aluminum as the perfect container.

For more than thirty years we have been experimenting with packages—trying lead, paper and Aluminum—seeking always a material that would protect and be worthy of Red Rose quality.

But it was only after Red Rose has been offered to the public in all these packages—first lead, then Aluminum, then paper—that the great advantages of Aluminum were proven.

Aluminum keeps out moisture, preserves the flavor and protects the quality. Paper packages, on the contrary, absorb moisture which occasionally impairs the quality.

So now and in the future RED ROSE TEA will be packed in the Aluminum package, as it was in years gone by.
