

WRAGGETTE'S - DRUG - STORE

Announces New Developing and Printing Arrangement.

We are glad to be able to announce that we have made arrangements with the Chas. E. Weeks Co., Master Photo Finishers of America, to do all photo finishing left at our store. Master Photo Finishers use only high grade Velox printing paper, and are one of the finest on this continent, we understand who are allowed to use the word "Kodak" with regard to their work. This alone insures that you will receive the highest quality of finishing on all work you leave with us, and, by reducing our profit to a very minimum, we are able to give you this high class work at the same prices as you have been paying. As a special inducement, to introduce Master Photo Finishing, with every dollar's worth of work finished in our store, we are giving you a 5 x 7 enlargement.

How to OUIPERD your COMPETITORS

B., a merchant in Vancouver, took the first train to Toronto to secure a big order.

J., his rival in Vancouver, called the Toronto customer by Long Distance and sold him over the telephone before B's train had reached Calgary.

The safest move, always, is to get the prospect on the telephone at once. If you can't sell him over the telephone, make an appointment. Then he will wait for you before placing his order.

Many subscribers who used to think they had to make Personal Visits, now find that they reach the person they want with Station-to-Station calls. They are quicker and cheaper.

BECOME A BREEDER OF Chinchilla Rabbits FOR FUR

Chinchilla Rabbits are no more difficult to raise than ordinary tame rabbits, and are very prolific. They may be kept as a side line on any farm, or in a back yard in a city. Ladies are going in for them extensively. The initial outlay is small and the profits are extremely good.

There is no business so easy of access to the average person. It has developed into a staple industry in Great Britain and promises a big future in Canada—where climatic conditions are even more suitable.

We have a limited number for sale. Write or call for full particulars and prices.

Increasing SECURITY

The holder of long-term United Bonds is assured an increasing security behind his investment as time goes on.

No issue of United Bonds is ever for more than 60 per cent of a conservative appraisal of the property securing it.

The facts that United Bonds mature serially that they are retired promptly as due, and that the trust mortgage remains unchanged upon the property securing them means this:

There is an ever-increasing margin of security behind such of these bonds as remain outstanding.

Payment of all interest and principal is due unconditionally guaranteed.

If you are interested in one of the soundest investments ever offered, let us send you details of issues now in hand.
