Pass It Along

Has somebody said a kindly word
About somebody else you know?
Then pass it along as soon as you can
As far as the word will go.

Has somebody given a pleasant smile
To somebody who was sad?
Then copy the smile as soon as you can
And make somebody else glad.

Has somebody given a helping hand
To somebody far adrift?
Then give one yourself as soon as you can
To someone who needs a lift.

For the word and the smile and the helping hand
Are needed along life's way
So pass them along as soon as you can
To brighten somebody's day.

Here and There

Passengers aboard the Canadian Pacific Empress of Scotland were not deprived of visiting China on the present round-the-world cruise of this ship, on account of the recent trouble in that country. Word from the cruise director is to the effect that the passengers received a warm welcome at Shanghai and that the Chinese were most friendly.

A new Canadian bird, the "turken," has made its appearance. It is a cross between a turkey and a Rhode Island hen, and was first brought to public attention at the Edmonton poultry show. George Spurgeon, who raised it, claims that it will effect a revolution in the poultry business, as it combines the best features of the hen and the turkey. It has a hen body and a turkey head.

His Majesty King George and H.R.H. the Prince of Wales have notified the British section of the World's Poultry Congress that they intend to exhibit poultry at the congress exhibition to be held in Ottawa from July 27 to August 4 next. There is also a possibility of the Queen of the Netherlands and King Alfonso of Spain sending exhibits, in which case the Canadian capital will be the first city in the world privileged to house the exhibits of several royal flocks.

The Indians of the three prairie provinces last season produced approximately 1,000,000 bushels of grain, of which about half, or 488,000 bushels was wheat, according to a recent government report. There are about 35,000 Indians in the area in question and the portions reserved for their use include some of the most fertile land of the west. They had 97,000 acres of land under cultivation in 1926 and they own about 25,000 head of cattle and 35,000 horses of a good type.

Warren Cordingly of Ashton, Idaho, won the 85-mile dog race from Calgary to Banff held recently in connection with the Banff annual Winter Carnival. The race was one of the hardest fought in the history of these events. Cordingly's lead dog broke down and was carried to the finish line on the sled. Ike Mills' team, of Banff, picked to win the race, was attacked by town dogs near Calgary. Both driver and dogs were badly bitten but stuck to the trail and finished.

Applications for permits to develop hydro power in Western Ontario and Northern Manitoba are on a scale that represents an ultimate volume of 5,000,000 horse-power, indicating the industrial growth that the territory is achieving. These range all the way from the Lake of the Woods country to the basin of the Nelson River, and relate to pulp and paper mills, mining plants, civic hydro promotion and transportation projects.

During 1927 more than 6,000 Hungarians will emigrate to Canada, according to Albert de Hayden, Hungarian Consul-General of Canada, who is here on business in connection with the 6,000 countrymen who came to Canada last year. "My investigations have shown," he said, "that on the average the newly arrived Hungarians are doing fairly well despite the fact that this is a dull time of the year in farming and to a lesser extent in industrial plants."

"If they can pitch ball as well as they can snowball, they would be some team; they sure can send some stingers," was the comment of one of the Calgary Scouts as he dug himself out of a concentrated volley of snowballs that the Westminster Scouts had plated on various parts of his body and face, when the Calgary boys tried to enfilade the choristers in a snow battle staged near the C.P.R. station. It was the culmination of a program arranged for the Scout choristers during the visit to Calgary recently of the Westminster Boys' Choir.

The World's Most Powerful Sedan of Its Size and Weight -and the Safest

NOW $1,965.00 Delivered, tax included.

TO prove the ability of this Studebaker Custom Sedan, get behind the wheel yourself. Feel the power of its quiet L-head motor—most powerful in any car of its size and weight in the world. See how slowly you can idle along in high, how smoothly it accelerates, how lightning-quick it is on the pick-up, how easily it shoots through traffic, soars up steep hills and speeds arrow-swift down the free stretches.

Then turn the wheel over to your wife. Let her learn what restful driving really means—the pleasure that comes from finger-tip response in steering—the ease of gear-shifting—the feather-light pressure on the positive-acting four-wheel brakes. And she will like the custom luxury of its roomy interior.

This smart-looking Studebaker steel body saves gasoline and tires because it's lighter than wood—safer because it permits wider visibility than wood—safer also because it has been fused by electricity into a practically indestructible unit of steel—welded, not rivetted—and longer-lived because steel wears while wood wears out.

At its new low price—including over $100 worth of extra equipment—this Studebaker Custom Sedan shatters all former standards of motor car value, thanks to Cost-Profit manufacture! See it—drive it—now.

EQUIPMENT—Custom Sedan: Front and rear bumpers; 6-inch combining windshield (automatically cleans); engine thermometer and hydrometer (makes sense on the dash); patentized form of direct-current windshield cleaner; rear-vision mirror; trunk rack; 6-ohead lights; cowl lights; tail-light button; spare and rear-lamp cases headlights, concealed from steering wheel.

for comfort buy McLaughlin-Buick

FOR solid comfort in all weather, for the comfort of luxuriously easy riding—for the very real comfort that security imparts — BUY McLAUGHLIN-BUICK.

Summer or winter—heat or cold—rain or shine—the seasons make little difference to the owner of a McLaughlin-Buick closed car with its Fisher-built body, its one-piece VV ventilating windshield, its deep upholstery and the countless detailed refinements of appointments and equipment.

Rubber Engine Mountings, an Engine Vibrationless Beyond Belief, Resilient Cantilever Rear Springs, Low Pressure Tires—are responsible for the sense of absolute ease and comfort that accompanies a ride in McLaughlin-Buick.

Add to these sources of motoring comfort the feeling of security inspired by the dependable McLaughlin-Buick engine (protected by every conceivable precaution, Oil Filter, Air Cleaner, Gas Strainer, Crankcase Ventilator, Thermostatic Water Control), by the safe, sure McLaughlin-Buick Mechanical Four-Wheel Brakes, by the convenience of the Adjustable Beam Headlights and by the knowledge that McLaughlin-Buick Service facilities cover the continent.
