Here and There

Of the 226,000,000 acres of land now in production the 1926-27 wheat crop of the world, Canada showed about 10 per cent.

Alberta, formerly 100 per cent. straight wheat farming country, has changed radically in this respect in the last fifteen years. The wheat yield of 1926 represented only 45 per cent. of the value of the agricultural products, which totaled \$244,000,000 for the year, the greatest in the history of the province.

The flow of settlers into western Canada for 1927 commenced in earnest recently when two special Canadian Pacific trains brought more than 400 persons to the west.

About 200 of the new arrivals were destined for Manitoba; 100 to Saskatchewan, while Alberta and British Columbia absorbed the rest about equally.

The value of building and construction contracts awarded in Canada in 1926 was \$22,547,000, compared with \$29,378,000 in 1925, an increase of 25 per cent. Last year's total was the highest for several years. Development in the mining, power and paper industries in Canada was an important factor contributing to the activity in building during the past year.

When the Canadian Pacific steamship Montreal docked recently at New York, after completing her first cruise to the West Indies of the year, she resembled a floating menagerie, for there were assembled on board over 200 love birds, parrots and monkeys. These pets were bought by passengers on the cruise. During the month's cruise the vessel touched at fourteen ocean ports and visited thirteen countries.

Sweeping reduction in the rates of electricity to all sorts of consumers has been announced by a leading electrical company in New Brunswick. The new rates are being filed with the New Brunswick Board of Public Utilities. Under the new schedule of rates the electricity will be able to secure electricity for as low as 2 cents a kilowatt hour, the same rates applying to stores and offices.

Good seed cars, under the joint directors of the Manitoba Department of Agriculture, the Dominion Seed Branch and the Manitoba Agricultural College, in conjunction with the Canadian Pacific Railway, are touring the province. The train consists of a lecture car, a baggage car with types of all modern farming mills and other machines; a horticultural car which is the first to be operated in Canada. Lectures and demonstrations are given at each stop.

Emile St. Godard, youthful Manitoba dog musher from The Pas, carried off the honors in the Eastern International 150-mile dog derby at Quebec recently. St. Godard's time for the three-day race was 11 hours and 27 minutes, over 84 minutes faster than the previous record for the same event. He rode out Leonard Sappala, hero of the Nome, Alaska, serum epic by 20 minutes and 20 seconds. George Chevrolet took third place, while "Paddy" Nolan, 15-year-old musher, maintained fourth place throughout the race.
