

Dependable, Tax-Free Income

The interest rate on United Bonds is as high as can be secured, consistently with complete safety of principal.

Interest coupons are payable semi-annually in Windsor, Toronto, Detroit or New York, and in U.S. or Canadian funds at the option of the bondholder.

The normal Dominion Income Tax of 25% on interest from these bonds is refunded to the bondholder, upon demand, through us.

Write us for details of United Bonds' investing plan.

Here and There

When the internal trouble which has been devastating China for the last two years subsides, a tremendous market will open up for Canadian wheat in that country, according to J. E. Scott, representing a large British firm at Hong Kong, on his way back to London to report.

Bounties paid for bobcats in New Brunswick, the Department of Lands and Mines, have so far exceeded the figures for the corresponding period of last year, according to L. A. Gagnon, chief game warden, who states that wild cats are being killed in greater numbers each year.

Ontario buyers of milk cows have about completed the purchase of five carloads of Guernsey cows from Colchester, Cumberland and Pictou counties. The buyers are Anderson Brothers and McEwen, Graham and Calder from the Hamilton districts.

The first auction sale of horses that has taken place in Montreal for some years was opened at the East End Stock Markets, March 28. Stalling was put at 282 horses and it was stated that approximately 200 horses were sold. The demand was mostly for heavy draught horses, Percherons, Clydesdales and the like, for carting and for heavy purposes, coming chiefly from Alberta and Saskatchewan, and some from the middle west.

Consequent upon an agreement reached at a general conference of the Canadian and United States telegraph companies the Canadian Pacific Telegraphs have announced that code words will be accepted at all their offices in future for day and night letters. This departure will affect both Canadian and international lines; the companies concerned being: the Postal-Telegraph Company, the Canadian Pacific Telegraphs, the Canadian National Telegraphs and the Western Union Telegraph Company.

The development of a new industry from the propagation of muskrats and other water fur-bearing animals, in land and water areas, leased from the Province of Alberta through agreement with the Dominion Government, was indicated by Hon. George Hoodley, Minister of Agriculture, in committee discussion in the Alberta Legislature. The agreement would give the Government power to regulate and control both Canadian and international lines; the companies concerned being: the Postal-Telegraph Company, the Canadian Pacific Telegraphs, the Canadian National Telegraphs and the Western Union Telegraph Company.

A keen competitor to Betty Wiley, the Nova Scotia work champion milk and butter producer, has been discovered at Fox River, Cumberland County. Mr. Henry S. Kerr of this place, claims that he owns the champion butter producing cow in her class. This cow is a grade Ayrshire and Durham cow, which has just recently freshened. In one week she produced 392 lbs. of milk, which churned 20 1/2 lbs. of butter, after deducting approximately 12 quarts of milk and 1 1/2 quarts of cream for home consumption. Applications at the rate of several a day are being received. It is reported. Already

Following upon his recent announcement to the effect that a Toronto firm of architects would be employed in connection with the erection of the new Canadian Pacific Hotel in that city, E. W. Beatty, Chairman and President of the Canadian Pacific Railway, recently stated that Messrs. Sprout and Rolph had been appointed associated with the firm of Ross and Macdonald, of Montreal, to handle this work. Messrs. Ross and Macdonald have been employed in Canadian Pacific work for some time, the latest of their buildings being the company's new hotel at Regina. It is desired that the new hotel shall be thoroughly representative of the city in which it stands and the appointment of a firm of Toronto architects is made to further this purpose.

CLEARING AUCTION SALE!
 OF

NOTICE is hereby given that Della Elizabeth Davies, of the Town of Oakville in the County of Halton, in the District of Ontario, married woman, will apply to the Parliament of Canada at the present or next session thereof, for a Bill of Divorcement from her husband, William Henry Davies, of the City of Guelph, in the County of Wellington, in the Province of Ontario, Salesman, on the ground of adultery and desertion.

Dated at Toronto, in the Province of Ontario, this 25th day of February, A. D. 1927. James H. Ross, 56 King St. E., Toronto, Solicitor for the above named applicant.

Flourishing Immigration Prospects

Photographs showing typical examples of typical type of immigrants to Canada. No. 1 shows 7 children who arrived alone recently. No. 2, immigrant group from the West. No. 3, family of immigrants from the West. No. 4, family of immigrants from the West.

The active immigration season of 1927 that has just opened will see, according to authoritative information given out by the Department of Colonization and Development of the Canadian Pacific Railway, the largest and most effective addition to Canadian population of any similar period since the outbreak of the Great War. In the opinion of authorities it is not unreasonable for the Dominion to expect over 200,000 new citizens, or about 70,000 more than during the year 1926. During this year Canada received 135,984 settlers.

Several factors tend towards this promised increase, of which one of the most potent is the trend of the evolution of systems and development of new machinery that has made the organization well nigh perfect. Further reductions in ocean and rail rates from the British Isles have induced considerable numbers to submit to the examinations for acceptance under the cheap passage. Applications at the rate of several a day are being received. It is reported. Already

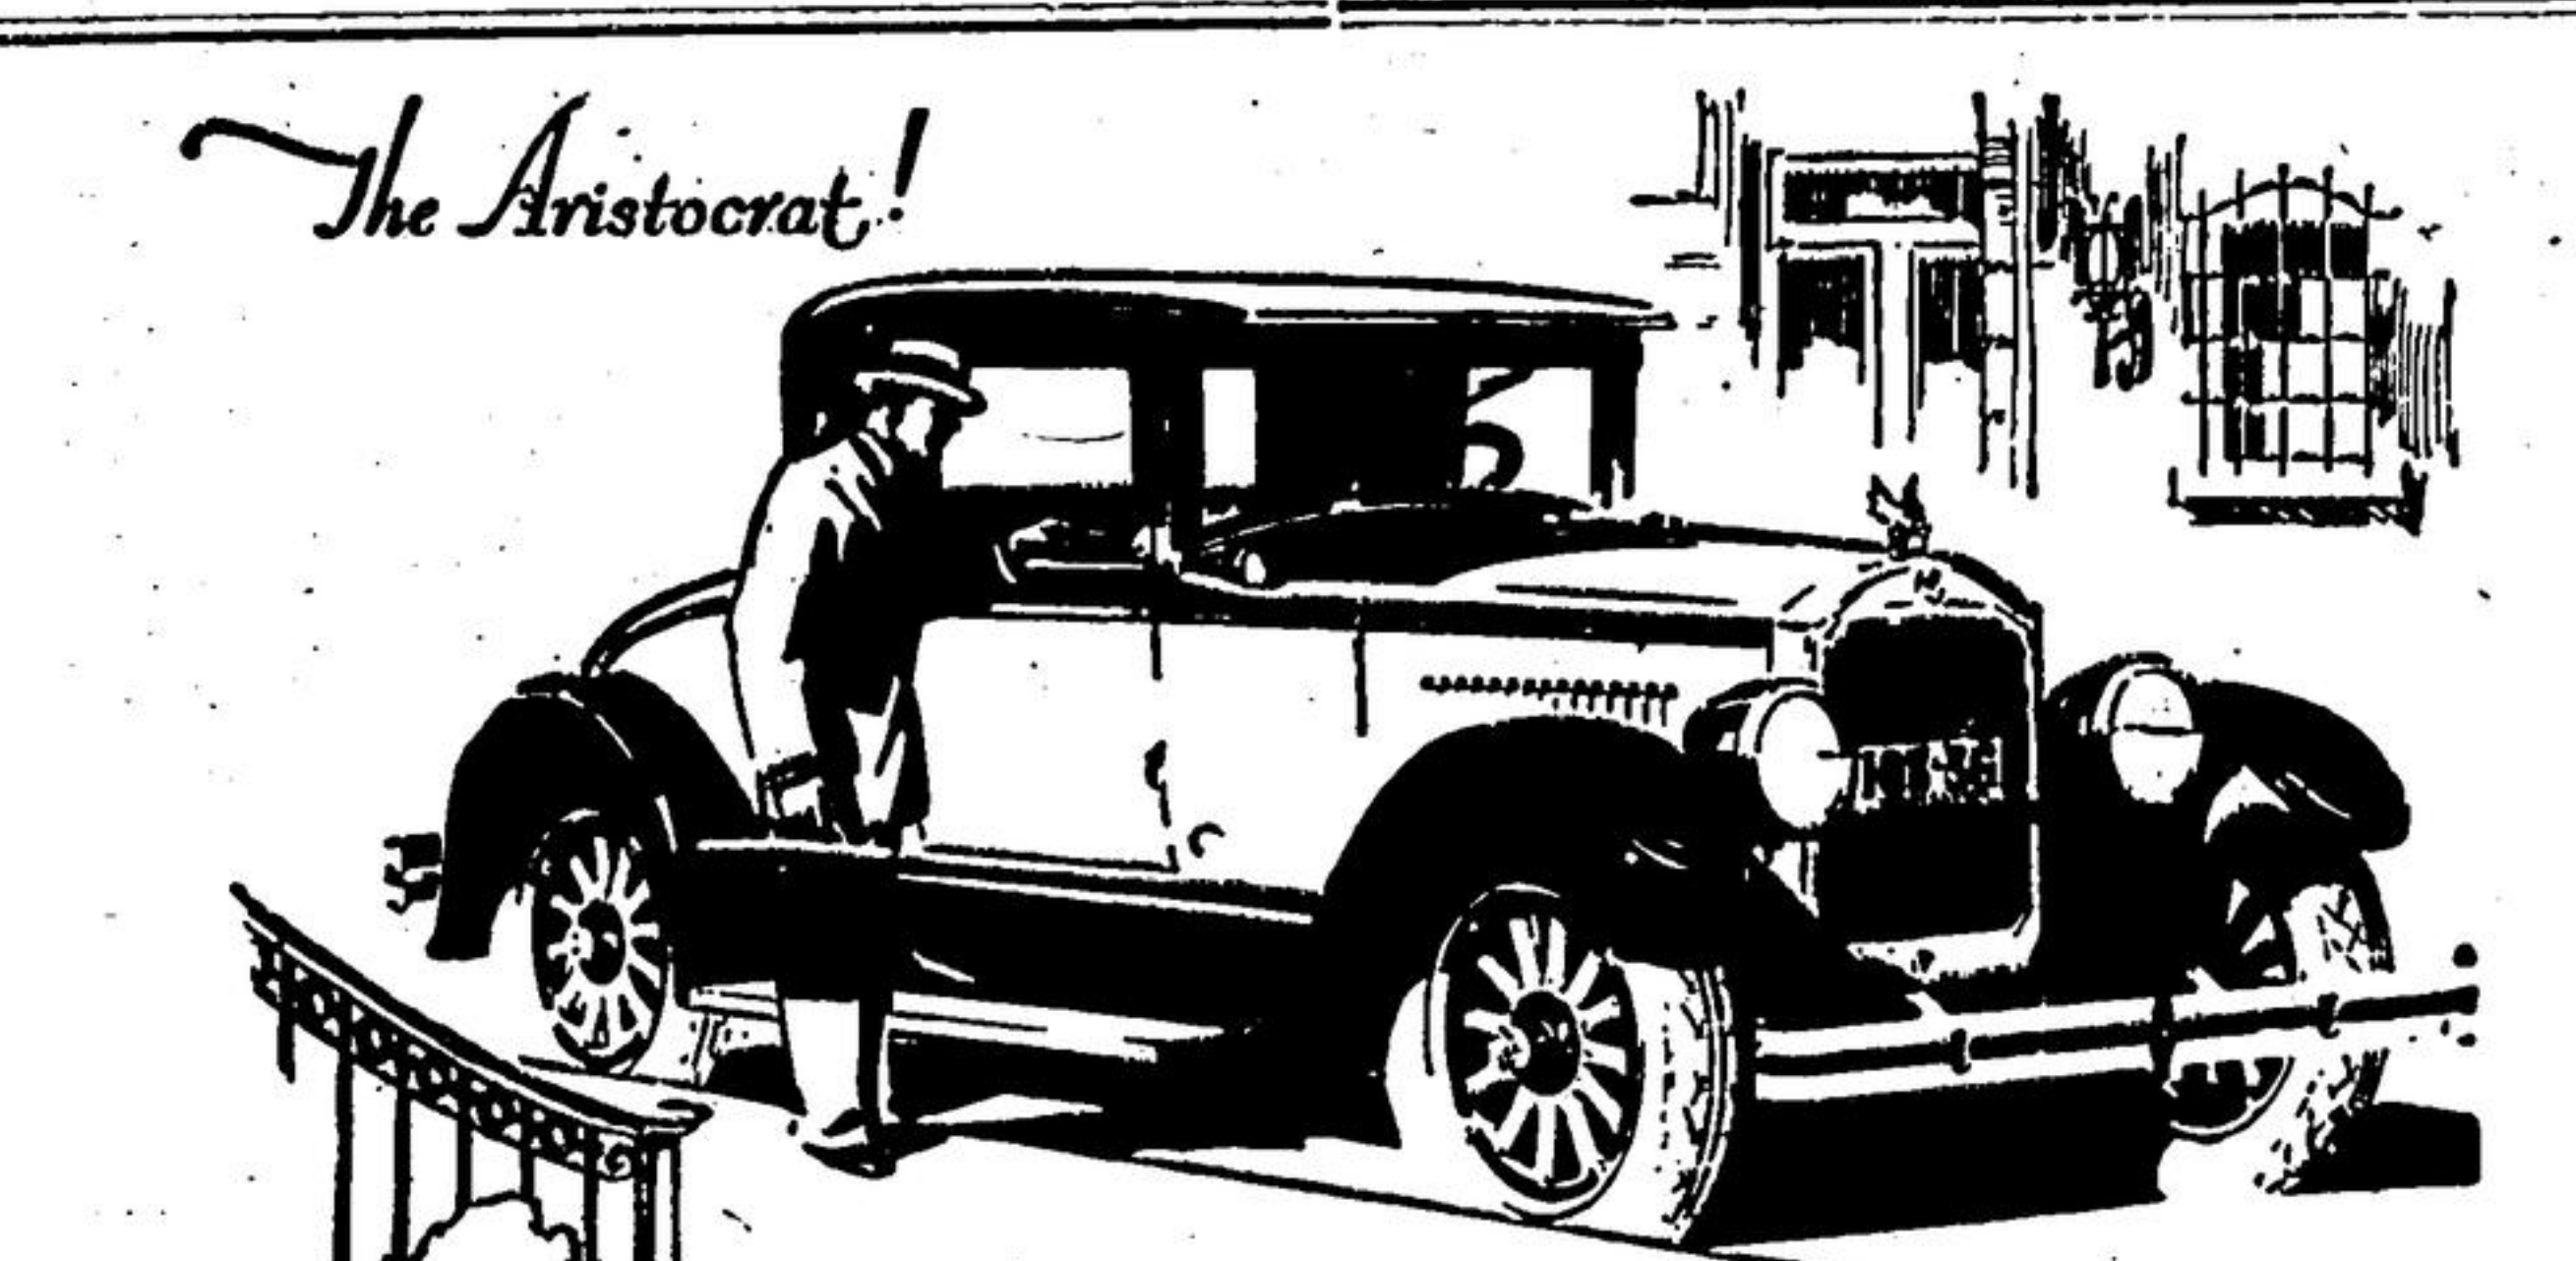

After long tests we are convinced Aluminum is the best container for tea.

The Aristocrat!

There's no better value than the **NEW STAR CAR**

THERE is a permanency in the policies back of the New Star Car that in part accounts for the contentment that goes with Star-Car ownership.

The New Star Car is built to a quality standard and is worth every dollar of its price. It is sold and serviced through a permanent dealer organization that is not harassed by high-pressure factory methods.

For this reason and because of its mechanical fitness for Canadian roads and weather, it is the best automobile investment—dollar for dollar—before the Canadian public today.

A. Feat Unequaled in Golf

The "Langara" course was opened last year by the C.P.R., after reconstruction at a cost of \$100,000. The all-time record for the course is held by Mr. Tanaka before this was known to fame, but now, of course, the course is well indicated by the green which show the fifth and thirteenth greens as they appeared on that day.

F. Tanaka, local Vancouver golfer, went out for a round on the Canadian Pacific Railway "Langara" golf course one fine day in February this year and created a world's record when he held his tee shot twice in one shot on the fifth and sixteenth green, a feat that has never been equalled in the history of golf. Mr. Tanaka before this was not known to fame, but now, of course, the course is well indicated by the green which show the fifth and thirteenth greens as they appeared on that day.

buy McLaughlin-Buick for power

GRADES far steeper than any found in ordinary driving offer no obstacles to the resistless power of McLaughlin-Buick's Valve-in-Head Engine. Seventy-five actual horsepower is beneath the hood of the Greatest McLaughlin-Buick—yet so flexible, so easily controlled, so responsive, so vibrationless, that you are unaware of the presence of an engine and realize only that a tireless force is working to your will.

How little the McLaughlin-Buick owner is concerned with this masterful engine may be judged by the fact that he need change the oil only once a season—that dirt, troubles due to crankcase dilution, the presence of dust, grime or water are eliminated by the Crankcase Ventilation system, the Sealed Chassis and the Triple Sealed Engine combined protection found in no other car at any price.

So, for power—abundant—untiring—dependable—flexible—smooth—
