

### The Basis of Safety

The basis of safety of any issue of First Mortgage Bonds is a conservative estimate of the value of the property that secures the issue.

Properties securing issues of United Bonds, which have obtained ownership subsequent to the issuance of such bonds, have been sold at prices ranging from 10 to 25 per cent. higher than our appraisal upon which the issue was based.

No issue of United Bonds is ever made for more than 40% of our own conservative appraisal of the value of the property.

Will you ask me without attention—for details of issues we are "offering" at this time?

### An Optimist's Complaint

When you're feeling kinder lonesome,  
When you're feeling kinder blue,  
When the whole world seems against you,  
And you don't know what to do,  
If you just take time to figure,  
With a pencil and a pad,  
You can always find a fellow  
Up against it twice as bad.

If your folks have gone and left you,  
And you're feeling down and out;  
If the kids have got the measles,  
Or you're 'troubled with the goat,  
It really doesn't matter  
What it is that makes you sad,  
You can always find a fellow  
Up against it twice as bad.

So listen, Mr. Reader,  
Don't worry any more,  
And never trouble trouble  
Till he's knocking at your door.

For when we're not contented  
With the good things that we get,  
Something's sure to happen  
And we get it in the neck.

So now you've heard my story  
And I'm sure you think it's true,  
You can always find a fellow  
Up against it worse than you.

### Here and There

Alberta is now the largest producer of oil and gas in Canada. In 1925 the production of gas amounted to approximately 9,000,000 thousand cubic feet, and the production of oil 185,000 barrels.

Louis Kon, trade delegate to the Union of Soviet Socialist Republics, confirms the report that an order for \$1,000,000 worth of binder twine has been placed with a Bradford firm. Other large orders for Canada are pending.

During the season of 1925 over 35,000 square miles of mineralized areas in the Dominion were mapped out by means of aerial photography, according to the Department of Natural Resources at Ottawa. This is one of the most important uses to which aerial photography has been adapted.

A bill to establish a fish, game and wild life sanctuary in the interior of Nova Scotia has been passed in the Legislature. The sanctuary is to be located at the intersection of the counties of Annapolis, Digby, Yarmouth and Shelburne-Queens. Others may follow in other parts of the province in the near future.

A large single shipment of motor oil, a single consignment of 28 cars of Marvelol, left Sarnia for various points in the west, but mostly for Vancouver. The oil is a Canadian-manufactured product which has been developed within the past year. At Port William the special train was handed over to the Canadian Pacific Railway for exhibition along its lines.

Announcement of the offer of two scholarships annually by E. W. Beatty, chairman and president of the Canadian Pacific Railway, and Chancellor of McGill University, to the first male candidate in Greek and Latin, and to the highest male candidate in mathematics entering the University, was made recently by Sir Arthur Currie, principal of McGill. A notice of \$500 is attached to each scholarship.

According to the department of Colonization and Development of the Canadian Pacific Railway, there is every indication that there will be a great increase in the number of immigrants coming to Canada this year compared with the number locating during 1925. It has been estimated that immigration figures for this year will be almost double those of the past year. Since the first of the present year Canadian Pacific liners have brought to Canada approximately 15,000 new settlers.

E. W. Beatty, chairman and president of the Canadian Pacific Railway, announced from headquarters recently that the name of the new hotel now being erected at Regina would be "Hotel Saskatchewan." The new C.P.R. hotel at this place will be a eleven story structure containing 254 bedrooms with bath and will cost in the neighborhood of \$1,500,000, the opening being scheduled for May 24. The hotel is being built on one of the finest sites in the city on Victoria Avenue, facing the park. It will be only within a few minutes' walk from the C.P.R. Station.

The Canadian Pacific Railway made an excellent showing in 1926, gross revenue for the twelve months being the best shown since 1920, while net revenue was the best shown since 1917, being nearly 4 1/2 million ahead of the fine record of 1925. In gross earnings from railway and lake steamers the year resulted in a very notable increase over the preceding fiscal year, the showing being one of the best on record, while income from special sources, including ocean steamers, held up well, being only slightly below that of 1926, and also being one of the best exhibits ever made by the company.

## The Aristocrat!

## No Safer Investment than a New Star Car!

There is no automobile at any price that can be regarded as a safer investment than the New Star Car.

There is no automobile at any price that can offer more quality per dollar.

There is no automobile at any price that has a proportionately higher re-sale value.

Here are the reasons:—

- First—because Durant Motors of Canada, Limited, is operated by Canadians along safe, sane business lines.
- Second—because Canadian workmen of the highest calibre are equipped with the most efficient machinery and supplied with the finest quality materials.
- Third—because stabilized policies mean fewer changes in price and style, while quality in workmanship and materials means more miles of service.

### Business Summary

Following is a brief business summary issued by the Bank of Montreal for the month of March in Ontario:—

Wholesale trade is in advance of last year. Retail trade with departmental and chain stores has been increasing, but small storekeepers find business moderately quiet. Collections are fair. Iron and steel industries report increased activity. Automobile manufacturers are busily engaged on Spring orders and shipyards are fully employed on repair work. Leather manufacturers find business slowly improving. Knitting mills are operating at 85 per cent. full time basis. Boot and shoe factories report improvement in demand, especially in cheaper grades. Manufacturers of pulp and paper mill machinery are well booked up with orders. Furniture factories are operating full time and look for moderately increased earnings. Unsatisfactory conditions continue in the packing and flour milling industries. The output of Ontario gold mines for 1926 amounted to \$31,180, 671. Indications point to active building operations with the opening of Spring. Mild weather has prevailed and winter roads are breaking up in the country. Fall wheat and clover have so far come through fairly well.
