—Purchase Gifts Made in Canada Applications of the Produced-in-Canada principle to the purchase of Christmas gifts is being urged on all its members by the Canadian Manufacturers' Association. A special distribution directing the organization to the desirability of purchasing articles produced in Canada for gifts, instead of imported articles, and suggesting that all employees of factories and their families, is being sent out to 2,500,000 people in Canada live on the wages paid in Canadian factories and that if all these ask for "Produced-in-Canada" goods between now and Christmas, a tremendous demand will be created.
