

Be Square

We may have a hundred drawbacks that a man must meet in life. We may say it is all a "battling" and a never ending "struggle". Then resolve to meet it bravely, stand the test to do and die. But the secret of true victory lies in just one word—"be square."

There is something in the twinkling of an honest fellow's eye. That can never be mistaken and can never be passed by. He has a station high or lowly, there's that dainty little upright air that convinces all beholders that the man they see is "square."

Heaven gives such men influence over those they daily meet. If they see a fellow brother they will help him to his feet. Make the "square" a bit uneasy, make the "false" not kind of fair. For the greatest rule on record will respect the man who's "square."

True Sportsmanship

There is a striking contrast in two hunting stories that have received publicity during the past week. One concerns the shooting of a dove by two women while the animal was swimming in a northern lake. The other, published yesterday, stated that hunters in Norfolk county who had taken advantage of the one open day in which to shoot black squirrels, had come back empty-handed. The reason for this did not lie in any lack of game, but in the fact that there were so many of the little animals, and so tame had they become, that the sportsmen had not the heart to shoot them. Instead of fleeing from their natural enemy, man, the squirrels ran to meet him; and in this was their salvation. Who could kill an animal under such conditions as these? It is to the credit of these hunters that they came home with empty bags. They showed themselves sportsmen in the truest and highest sense of the word in refusing to take the life of these humble creatures of the wild that trusted them.—The Globe.

a LIGHT
on your horse-drawn vehicle
at night may
SAVE YOUR LIFE!

Horse-drawn vehicles (as well as motor vehicles) on the highway at night now MUST display a light. This new law is designed to prevent accident to occupants of horse-drawn vehicles as well as of motor cars.

You will provide for your own safety by obeying this law. Drivers of fast-moving vehicles have become accustomed to looking for lights on ALL vehicles at night. The danger of accident to horse-drawn vehicles without lights therefore is greater now than it was when lights were not compulsory. At this season, when nights are darker and longer, the hazard is increased.

The light on a horse-drawn vehicle must be placed on the left side in a conspicuous position. It must show white to the front and red to the rear. It must be clearly visible at a distance of at least 200 feet. Where vehicles carry inflammable materials or are structurally unsuitable for carrying lighted lamps the Department, by regulation, may permit the use of a reflector instead of a lamp.

\$5.00 Fine

The penalty for failure to observe this law is a fine of \$5.00. Motor traffic officers or city or town police will apprehend all who fail to comply.

DOMINION OF CANADA VICTORY LOAN BONDS

MATURING 1st DECEMBER, 1927

THE BANK OF MONTREAL, at all of its Branches in Canada, is prepared to accept the above bonds for redemption at maturity.

For the convenience of owners of the bonds, the Bank of Montreal will accept the bonds at any time prior to December 1st, and will make payment in each case on December 1st, either by issuing a cheque or by placing the amount to the owner's credit in the books of the Bank, as the owner may desire.

Luxuries Once But Necessities Now

PRACTICALLY any Canadian citizen may own today an automobile possessing elements of beauty, style, comfort and efficiency which no amount of wealth could have commanded a dozen years ago.

For the automobile industry has outgrown its original function as a supplier of transportation, and has in an amazingly short time, brought about the refinements which are exemplified in the present-day General Motors car.

Since its foundations first were laid sixty years ago, this institution has believed that every Canadian has a right to the best his country produces, has a right to satisfy his sense

of beauty, his desire for comfort, his need for dependability.

General Motors has at its command the master minds of the industry. It has the finest automotive research laboratories and the greatest automobile proving grounds in the world, wherein have been pioneered and developed some of the industry's most revolutionary advances.

And General Motors has used its prosperity and success unflinchingly in improving the quality and increasing the value of its products.

It is thus that General Motors of Canada has played its part in translating once-inconceivable luxury into terms of every-day necessity.

To the Mayor, Reeve and Councillors of the Town of Georgetown,

Dear Sirs:— I submit herewith interim financial statement of the Town of Georgetown for the period from January 1st, 1927 to November 15th, 1927, showing the receipts and expenditures for that period, together with a statement of the Assets and Liabilities, as taken from the books of record. It is to be noted that the statement now presented shows a much more favorable position than for several years. Several old matters have been satisfactorily adjusted and after debentures are issued covering construction and after applying the taxes maturing, the loans should be at a comparatively low figure.

During the year 1926, the tax was increased by three mills to meet the probable increase of county rates, but after making provision, the county rates were increased \$5000, instead of the estimated \$3000, but it has been possible to provide for this additional expense incurred in 1926 and to make provision for the increased amount of county rates for the current year and reduce the tax rate for 1927 by one mill.

The assessment for the current year was increased, but the revenue from this has been offset by the loss of revenue from income tax, owing to the increased exemp- tions allowed during last session of Parliament.

Respectfully submitted,
H. R. MINNIE,
Auditor

Over 30 years the same good tea.

DURO-IZE Your Country Home

Duro Water System capacities are greater—pressures are lower. Duro gives you more water at a lower price. Long-life, care-free service guaranteed.

A kitchen sink with running water under strong pressure—a modern bathroom—an up-to-date laundry—plenty of faucets in convenient places—all available with a Duro Water System. Think what this means in comfort and convenience in your suburban or farm home.

Duro systems can be used with deep wells, shallow wells, cisterns or springs. They may be driven from high line current, farm light plant or gasoline engine. Installation quick and easy.

Duro-ize your country home. Let us recommend the right water system of the proper capacity for your requirements. No obligation.
