### A True Badge of Manhood

When the Government Control law came into effect last June, the Pro 19 vince of Ontario, young men who had reached the age of twenty-one years obtained the right to purchase intoxicating liquor for their own use. in force, when a boy becomes twentyone years old he will receive the liquor permit. Up to that time he cannot enjoy this privilege. Such is the badge of manhood which the Government of the Province offers to its young citizens. A boy is forbidden to buy liquor, the day he becomes a man this restriction is

Happily there are great multitudes of young men all over the Province. as there are in the other Provinces of the Dominion, who repudiate an offer like this. They have learned in their homes and in public and I Bunday Schools something of the evils that have been wrought by the liquor traffic, and will refuse to do anything that will countenance the traffic in strong drink. A great and increasing host of young men will count it a far truer mark of manhood | to reject than to accept the liquor permit privilege offered to them, and will be all the more eager because of the new dangers threatening the cause of temperance, to enlist in the rank of those who will not cease fighting until the whole drink business has been completely and finally abolished .- The Pathfinder.
