It Takes So Little

It takes so little to make us sad,
Just a slighting word or a doubting
And our footsteps lag, though the
goal seemed near,
And we lose the courage and hope
we had—
So little it takes to make us sad,
Just the cheering clasp of a friendly
hand,
Just a word from one who can under-
stand,
And we finish the task we long had
planned,
And we lose the doubt and the fear
we had—
So little it takes to make us glad,
—Ida Goldsmith Morris.

Milton

Dr. J. L. Sutherland who has been confined to his bed for several weeks, we are glad to say, making good progress toward recovery.

The Halton Cream and Butter Company has sold its creamery to Messrs. M. E. Nixon and George H. Dawson, who have taken possession. Rex Hume was taken to Hamilton City Hospital on Monday, where he underwent an operation for appendicitis. He is doing as well as can be expected.

While milking a cow recently Mrs. Harry Richardson, of Lowville, was badly injured. The animal kicked her and trampled on her, inflicting a deep scalp wound which required several stitches.

A branch of the great farmers' wheat pool is being organized in Halton county. This organization has already given a striking demonstration of what farmers can do if they make up their minds to do it—and have the co-operative spirit to solve their own problems.—Clampion.

Terra Cotta

Moving seems to be the general order of the day. Real estate seems to be the move again.

Mr. Hilton has sold his property here to Mr. Marlow of Limehouse. Mr. Hilton purposes moving back to Toronto shortly. We regret his removal. We kindly welcome Mr. and Mrs. Marlow and family as new citizens to our midst.

A number of our citizens are working in Mr. Roger's quarry on the 9th line at present.

Mr. Walter Leslie of Toronto, who is taking charge of Mr. F. C. Thompson's new quarry, on the 10th line, has a large gang of men in this quarry.

We are sorry to learn that Mr. W. G. Lyons is on the sick list at present, we hope soon to hear of his complete recovery.

A number of our young people attended a dance at the home of Mr. J. Edge of the mountain recently and all report a good time.

Mrs. E. Loan gave an informal party to a number of her young friends recently. The event being held in honor of her son Norman, it being his birthday. All report a splendid time.

—It's a long time since some of the have been in as bad condition as they are this spring.

Success

Success is speaking words of praise, In cheering other people's ways, In doing just the best you can With every task and every plan. It's silence when your speech would hurt.

Politeness when your neighbors out, It's deafness when the snail's slow, And sympathy with others' woes, It's loyalty when duty calls, It's courage when disaster falls, It's patience when the hours are long, It's found in laughter and in song, It's in the silent time of prayer, In happiness and in despair, In all of life and nothing less, We find the thing we call success. —The Standard.

Notes and Comments

IT IS appalling to learn that since the arrival of the white man in Canada, forest fires have destroyed 60 per cent. of her primeval forest wealth. Four or five times as much timber has been burned in this country as has been cut for the uses of man and the requirements of commerce. Disruption of our accessible timber supplies within a period of twenty-five years is forecast. To bring home to the minds of Canadians before it is too late, the tragic loss that will result to this country if our forest areas are totally destroyed, Canadian Forest Week has been set aside. In the press, in the schools, in clubs and public gatherings, the importance of Canada's forest and Canada's forest industries will be drawn to public attention. If everybody in Canada had had that thousands of families and millions of dollars of capital are dependent upon the Canadian forests, everybody would think twice before throwing away lighted matches or cigarette stubs, or lighting fires in dangerous places and leaving them to spread out or below the surface of the ground. Carelessness has destroyed 60 per cent. of our forests. If we are to save the remainder, it is up to us, the Minister of the Interior, has to do with Canada's forests, and it is encouraging to note his activity in arousing public opinion as to the situation and the imperative need for care in preventing forest fires.

The Corn Borer Wanders

Last season fieldmen of the Dept. of Entomology found the corn borer as far north as Smith's Mine and New Liskeard, also as far east as Quebec City. This sounds alarming, but need not be so, as proper methods of cultivation will keep this insect in check. C. H. Turner the local inspector is carrying on a campaign of education and this far farmers are co-operating to the fullest extent. This is as it should be, because Halton farmers realize that this campaign is of vital importance to them as even is and will continue to be a staple crop in a dairy section.
