

Most Distinctive of Low Priced Cars

BUILT on a wheelbase of 107 inches—four inches longer than before... with its hood streamlining back in graceful unbroken lines to blend with contours of the fender bodies—the "Bigger and Bigger" Chevrolet is everywhere hailed as a car of outstanding distinction.

The new radiator is higher and narrower, and embellished with a large, flat, all-metal radiator cap. The hood is longer and deeper—widely interpreting the greater sturdiness, stanchness and firmness of the new chassis. Windshield posts are slender and graceful, bodies are beautifully beaded and paneled, hardware is of period pattern, and roof-lines are smoothly low.

Interiors, too, are impressively rich—with new upholstery, wide, ruffled seats, and a beautiful enclosed instrument panel—indirectly lighted. Come, see this great new car—and you'll know why thousands have acclaimed it the world's most luxurious low-priced automobile.

The G.M.A.C. General Motors and its divisions stand for the most consistent and economical way of buying your Chevrolet on time.

Leads Its Field in Style and Refinements

THE New Series Pontiac Six was designed and built in the belief that everybody admires style in a motor car.

So, in Pontiac Six, everybody can enjoy it! Beautifully-proportioned bodies that tell their Fisher craftsmanship at a glance... Long, low lines and deep, massive radiator design... Rich harmonies of color in exterior Duco and interior trim... Delightful evidence of luxury in upholstery and appointments... PLUS the smoothness of Pontiac's powerful "Six" engine... the safety of Four Wheel Brakes and the comfort of Lovejoy Hydraulic Shock Absorbers.

No wonder the New Series Pontiac Six literally leads its field in style and refinement. Prove it all for yourself by a demonstration.

Ask your dealer about the G.M.A.C. DeLuxe Pontiac Plan which makes buying easy.

Pioneer Re-Union at Winnipeg

In the foreground of her husband and she will appear at the festival. An example of Norse handicraft.

As far back as 1850, Paul Hjelm Hansen, the famous Norwegian journalist, author and social reformer, began to call attention to the fertile valley of the Red River. The river man of his nationality who traversed the territory between Fort Averroville and Fort Tarry brought back wonderful tales of the splendid settlement opportunities along its banks, with the result that a large influx of Norse settlers commenced in the early seventies.

Later, many of these hardy Norwegians moved farther west, some as far as Bella Coola and the sea. They and their descendants, who have prospered, making a great contribution to the development of the west.

This year a general reunion is planned of the pioneers from the Red River Valley, with those of the west to commemorate the beginning of Norwegian immigration into these territories. This event has been arranged to take place in Winnipeg between July 5 and 10.

The celebration will feature Norwegian national music, with many pagants descriptive of home life with participants adorned in their native costumes. Of particular interest will be the exhibition of Norse Handicraft and art. The headquarters for and art. The headquarters for this festival will be the Royal Alexandra Hotel, one of the chain of the Canadian Pacific Railway, which will co-operate by running special trains from such centers as Edmonton, Moose Jaw, Chicago, Minneapolis, St. Paul and Duluth.
