2 . Along the roadways of your district.

Each year weeds destroy Ontario's crops to the extent of millions of dollars. You must help rid your community of this menace by co-operating in every way. See that your own land is clear. Report weed growths on roadways, vacant properties or uncultivated fields to your representative on your local council or to your weed inspector.

Thus you will be doing your duty in exterminating one of the greatest enemies of successful farming—noxious weeds.

VACATION time is here again. It will be fine for the children and for tired grown people too, but what about the pets? Many people who have cared tenderly for a cat or dog all winter leave for the summer vacation without a thought or care for the little friend they have left behind. There is no sadder eight than a cat or dog, suddenly rendered homeless by it's owner, wandering about the streets hungry and homeless and homesick for its little play mates. People seem to forget that the town is a very inhospital place to the homeless pet and that unless provided for it will suffer from both exposure and hunger while they are enjoying their vacation. We can always make some provision for them, neighbors and friends will be glad to keep them, or better still, why not take the pet along and let it
