"Give me ten minutes a week and I'll knock dollars off your tire bills"

SET a day every week—preferably any one but Saturday or Sunday—and let me look over your tires. It'll mean dollars off your tire bill. Maybe they need more air. Two or three pounds under pressure will take miles off the life of a tire. Maybe there's a nail or a flint just waiting to work through and make trouble. Maybe they're O.K. and you can drive away in comfort. Ten minutes! But isn't it worth it to feel sure of your tires?

Car owners spend many a half-hour on the side of the road because they won't take the ordinary precaution. And that's saying nothing of the extra mileage they might get and the money they might save.

Another Way to Say the Finest of Low Price

JUST as the "sterling" imprint on Silver identifies the best, so the mark of Fisher on its bodies distinguishes a car from others in its field. When you speak of Pontiac as the lowest-priced six with bodies by Fisher, you are merely finding another way to say—"the finest of low-priced sixes."

For no other six of such low price offers the score of advantages which make the Pontiac Six the value leader of its entire class. Certainly none other offers any major feature comparable to the staunch, smart coachwork that the Fisher emblem represents.

Not only in style and color—not only in roominess and luxury of interiors—but also in sturdiness and quality of construction, Pontiac Fisher bodies establish a standard never before attained in a six at Pontiac price. Like Pontiac itself, they are noted for ruggedness and long life. Like Pontiac itself they provide every element required for complete satisfaction and for justifiable owner pride.

Ask your dealer about the G.M.A.C. Deferred Payment Plan which makes buying easy.
