Here and There

With concrete now up as far as the first window and steel up to the fourth, the Royal York Hotel, 1100 Front Street East, in Toronto is well up to schedule and is expected to be completed in time for the opening next May, notwithstanding the short strike of the steel and building trades.

W. M. Van Valkenburg, president of the Region Board of Trade, says that his city and province are out to capture industries. That is one reason for his visit to Montreal and the Eastern States. He figures that the mineral resources of the province should provide the base of a number of industries, as 43 per cent of the provincial area lies within the pre-Cambrian shield.

Inauguration of the new New York-Yarmouth, Nova Scotia, passenger ship service recently represented the first entrance of a vessel from New York to Yarmouth harbor for the past 20 years. This was the B.S. Evangelina, of the Eastern Steamship Line, carrying 150 passengers. She is 500 tons and her sailing connects with the Dominion Atlantic Railway and so enables tourists to reach Nova Scotia sea and holiday resorts.

This summer will witness a great amount of activity on the part of the construction of this in all. According to the president, the ship will be ready to enter on the 1st of September. The ship is the largest ever built in Canada and will be the largest in the world. It will be the largest in the world. It will be the largest in the world.

Under the leadership of Lieutenant John A. Forming the band of the Air Force, Britain's young military band, landed recently from Canadian Pacific. The band is the largest ever in the world. It will be the largest in the world. It will be the largest in the world.

"First call for dinner!" "Last call for dinner!" The old monotonous warning to the hungry traveler is a thing of the past on the Trans-Canada Limited. C. P. R. has introduced a new service of the "Biggest and Better" Chevrolet. The Chevrolet never falters in the most trying circumstances—proves its mettle on the steepest grades and in the face of the greatest obstacles.

Advised to make the trip from Montreal to London in nine days, the Canadian Pacific freight ship "Averna" actually completed the trip in eight days and twenty hours. The record time for a freight ship between the two ports. This is the first time since the service of the "Beaver" that the new fast service of the "Biggest and Better" Chevrolet has been used.

WITH the superb ease of a thoroughbred the Chevrolet takes all in its stride, the "Biggest and Better" Chevrolet never falters in the most trying circumstances—proves its mettle on the steepest grades and in the face of the greatest obstacles.

The ruggedness of Chevrolet construction alone makes these things possible. There is no part of the engine—the chassis—the body that was not designed primarily for rugged endurance—put to the test again and again on the General Motors Proving Ground.

As a result the "Biggest and Better" Chevrolet steadily climbs without a halt, the steep slopes of the Rockies, and ploughs its way through the deep mud and jumbo of fall-made prairie trails. In whatever conditions it may be placed, the splendid ruggedness of Chevrolet remains loyal in the service of its owner.

No matter what the roads—no matter what the weather—at all times the "Biggest and Better" Chevrolet stays on the job. The G.M.C. General Motors' new delivery service is the Chevrolet's new commercial service.

Circle the Globe

The Fairchild cable monoplane "City of New York" with her wings folded at Curtis Field, N.Y., prior to being loaded on a trans-Atlantic liner. The ship is the "Empress of Russia" which carried the monoplane across the Pacific with her pilot, B. D. Collier, in a day ahead of schedule.

Twice now, John Henry Meares has circled the world in record time. On each occasion the Canadian Pacific liner "Empress of Russia" has enabled him to beat all former records. Twenty-three days before his plane "The City of New York" landed at Curtis Field, L.I., Meares and his pilot, B. D. Collier, flew 700 miles out to sea and landed aboard the ship that arrived in Europe, he flew from Cherbourg to Yokohama and boarded the "Empress of Russia" bringing him in a day ahead of schedule, ready to dash across the Pacific.

"JUST AS THE TWIG IS BENT, THE TREE'S INCLINED"

BELIEVING that the individual thrift of our citizens is the backbone of Canada's prosperity, the Bank of Montreal does all in its power to encourage systematic saving on the part of youth.

At all of our Branches we welcome the savings accounts of children. Start such accounts for all the young people of your family and let them early learn the earning power of money.

"SALADA" TEA

Our experts search through thousands of tea samples to find just the right tea to go in "SALADA" blends. Ordinary teas will not do—exceptionally fine teas only are used. In this way "SALADA" maintains its unrivalled position.

Why don't you Get some Expert Advice about Your Tires?
"Air costs nothing—lack of it means miles off the life of your tires."
MORE than half your tire troubles are caused by under-inflation. There's a correct pressure for every size tire according to its load. Two or three pounds under this will take miles off its running life. Near enough won't do. Use a reliable gauge and be sure. Or, call at this depot once a week and let us look over your tires. We'll watch for bruises, rim cuts and embedded flints. At least twice a season let us remove each tire and look for inside fabric breaks. It will mean extra mileage—and dollars off your tire bills.

A Dominion Tire will give marvelous mileage if you treat it right.
