#### Acton

Provincial Truffic Officer Mond is making quite a stir among the motor lite who are careloss about observing the regulations of the Highway Traffic Act. He spent the first week or so in cantioning delinquent drivers. Now he is giving them a taste of the law.

The death occurred on the first September of Allan Mann at his home, near Tisdale. Bask., in his eighty-third year. Mr. Mann was n son of the late Hugh Mann, Esq. and a brother of Sir Donald Mani Mr. Munn was born on his father farm at Acton. Mrs Mann, who was Miss Sarah Hearst, was a sister of Sir William Hears. She predeceased her husband in 1016.

Mr. B. G. Arnold, sales manager of the Storey Glove Co., returned last Friday from his trip to the Prairie Provinces and the coast. Questioned as to the outlook in the West, Mr. Arnold said: "The wave of optimism of the western people that strikes one at Winnipeg seems to carry right through all the provinces. The prospects of a wheat grop surpassing all previous high records officially estimated by Ottaw authorities at 550,482,000 bushels has made the business outlook for the West exceedingly bright .- Free

#### Milton

Miss Plors Murray, of Stewart town, has succeeded Miss Marjorie MacLean as stanographer in the office of A. P. ManVannel, District Agricultural Representative, here. While in Milton, Miss MacLean, whose home is at Puslinch, made many friends.

At the track meet for solicol boys and girls at the Toronto Exhibition park last Saturday afternoon. Harold Wrigglesworth, of the Milton high school, was second in the 100 yards race for boys under 20 years, and first in the 220 yands rare for boys under 20 years. Well done, Harold.

It is stated that the Excelsior I'ro ducts Co., of Pickering, that was to have located here, has now decided to locate in Oakville, five citizens of that town, it is said, having offered to put up a building for them. That sounds rather strange after the firm publicly announcing that they had made all arrangements for locating here, going so far as to state the location of the proposed factory .- Re

Wetice is hereby given pursuant to section 51 of the Trustee Act. R. S. O. 1937, Chap. 150, that all creditors and others having claims or demands against the estate of the said Wellington Albert Barley, who died on or about the 27th day of August. 1928, at the City of Guelph in the County of Wellington, are required on or before the nineteenth day of October, 1928, to send by post prepaid, or deliver to the undersigned solicitor for Eleanor Forbes Railey, the executrix of the Last Will and Testament of the said deceased, their Christian names and surnames, addresses and descriptions, the full particulars, in writing, of their claims, a statement of their accounts, duly verified by affidavit, and the nature of the security, if any, held by them.

And Take Metice that after such tast mentioned date the said executrix will proceed to distribute the sasets of

will proceed to distribute the sasets of the said deceased among the parties enthe said deceased among the parties en-titled thereto, having regard only to those claims of which she shall then have notice, and that the said executrix will not be liable for the said executrix any part thereof to any person or per-sons of whose claim notice shall not have been received by her at the time of such distribution.

Dated at Georgetown this ninetoenth JOHN A. THOMPSON, Bolicitor for the said

executrix.

#### Here and There

The hissent dat for grain handling that the port of Montreal has experienced this wounds was reglatered on August 21st, when deliveries went well over the 2.000,000 bushel mark for the 24 hours, and receipts were recorded at nearly 1,500,000 husbels, a total handling of 3,500,000 bushels for due day.

The nimest complete absence of forest fires. with their smoke acreens marring scente effects-the brilliant clearness of the air in this region has mad the present tourist season the heat on record in Mritish Colurbia. Many touring partles travelled over the Canadian Pacific lines, some breaking the fourney to motor over the picturerque Banff-Windermere highway Among other groups may be men. tioned the Alpine Club of Canada, which held its camp at the Lake of the Hanging Glaciers, followed by the Trail Riders of the Canadian

Approximately 250 new elevators have been constructed throughout Alberta this year, it is estimated by theal grain men. The total capacity of these elevators would be about 18,000,000 bushels, it was sinted. Complete figures for elevator construction in the province were not available, but grain men stated that 'extension of facilities had been progressing rapidly in all parts of Alberta. The capacity of the elevators varied from 35.000. bushels to 140,000 bushels. The Atherts Wheat Pool alone has 110 grain elevator companies have in-1927 and practically all the public grain elevator companies have increased their storage capacity.

For the first season to a number said to abound. Hydro-development with accompanying fluctustions in water levels, threatened extinction of this exceptionally game fish, but the careful regulation of the past three seasons has apparently restored the world's most famous trout stream to something of its old standing. Six guests of the Bungalow Camp here brought in 125 pounds of fish yes. terday, counting a fair number of four and five-pound trout caught mostly at the entrance to Lake Polly. Pike and pickerel still abound in large numbers, so it is thought that the restoration of the water level rather than the destruction of natural enemies has brought back the Nipigon trout.

schemes involving large expendi-tures on the part of the Canadian Pacific Railway in the placement of British colonists upon the land, are to be undertaken through the Department of Colonization and Development of that company, working in co-operation with the Overseas Settlement Committee of the British Government. The details of these schemes have been negotiated during the present visit to Canada of Lord Lovat, Under Secretary of State for Dominion Affairs and chairman of the Overseas Sattlement Committee One undertaking provides for the building of one hundred cottages by the Canadian Pacific for the use of British families. They will be used to make families accustomed to Canadian conditions and farm life before being established on farms of their own.

Entirely new and important

Pat: "Have you christened your new haby yet? Mike: "We have."

"An phwat did you call it?"

Mike: "Hazel." Pat: "Sure, bad cess to ye, with to vote in the said Municipality for 223 saints to name the kid after, ye

### **Notice to Creditors**

#### 4 Composing Room Divulges Secrets

The cut above was reproduced from a collection of photographs plus a little art work, and it came shout this way. There was a need for an illustration to brighten and balance the page. So we looked brough the tylus. The photograph of the new Canadian Pacific ongine came to light first, but, while it Ulustrates the largest passenger engine in the British Empire, our readers abrundy knew all about tt. Put it on one side! Then we saw the picture of the ox which is engaged in shunting freight cars at Trieste. This we thought we could the up to the engine in some way, but when we saw the photograph of the elephant at Kandy, we thought that it would be much better and easier to write a feature on, say, "power" or "World transport"! The African Zulu with the Ricksha would have helped a story of this nature, but when we saw the beautiful curves of the Lunghwa Pagoda and the graceful lines of the Moon Arch in the garden of the Jude Tree Studio at Shanghai we thought that perhaps we could make an appeal of sorts to the cultural side of our readers. But the office boy was very keets on the locomotives, the make-up man thought he could design a better lay-out with just the animals, and our fair-haired stenographer considered the architecture more artistic

We compromised by deciding to make a three-column instead of a two-column lay-out and using them all. What then remained was to tie them up in some way, so we got out our best-looking photograph of the "Empress of France," and-there you have a complete short story. One gets aboard & Canadian Pacific train first and at New York hourds a Canadian Pacific steamship for the ports and sights of the world. The "Empress of France" doesn't really belong to the set, because this year she will not make a cruise, but, here she is last year at Rio de Janeiro. The "Empresa" is replaced in cruise service by a "Duchesa". Not that this makes a great deal of difference to your editor, but there are many, readers of this page too, who will spend Christman in the Holy Land, and cherryblossom time in Japan. They will tour the West Indies in comfort in January or February. They will spend the winter in luxury travelling round South America and South Africa, round the world or round the Mediterranean. They have shown us their booklets, and before Spring is here again they will be showing us their tan and their souvenirs.

# LOCK THE DOOR

There is a legend about a farmer who went to great expense to fortify and lock his barn after a very fine blooded horse had been etolen.

The legend has come to be a means of showing how unwise it is to wait until the horse has been stolen to lock the door.

Advertising is a form of protection againsts loss of business which is occasionally treated like the farmer treated the barn and the horse.

From a seemingly logical premise that since there is no business or since business is not quite what it should be now the merchant proceeds to the decision that there is no need to advertise.

This reasoning overlooks a great fundamental fact and that is that ndvertising is extended salesmanship; that just because a man hasn't money with which to buy to-day is no reason he will not have it to-morrow; that the man who goes after the business consistently reaps consistent rewards; that most folk shop where they are invited to shop; and- that

An Advertisement is an Invitation

#### Five Braw Highland Lassies

They came from Vencouver with a number of others, all pupils of Miss Jean Gauld (centre), to enter the lists at the Banff Highland Gathering. They all had their fling and their seann triubhas and sword dance too-to the tune of the piper.
