Almost Ran Over Deer.

Forced to apply his emergency brake in order to avoid a deer is an unusual experience for a motorist in this day and age. And yet that is just what Charles Conn, of Mimico, well known to many Guelphites, did about six o'clock one evening recently. As he was motoring along the Guelph-Hamilton highway, about two miles north of Preston, he was startled by the appearance of two deer on the road ahead of him. They emerged from the heavy swamp land on the east of the road and ran along the road for some distance. He speeded up and as his car approached the two animals one fell to the roadway so close before his front wheels that he had to apply his brakes quickly to prevent the machine from hitting it. It was quickly on its feet again and both deer disappeared in the bush west of the highway.—Mercury.

It seems hardly fair

Fathers and mothers used to look forward bravely, but not always happily, to the time when the boys and girls would go away to school in a distant city. It so often meant a break in the habits of home life—a sore trial.

Thanks to Long Distance—the boys and girls at school or college can still be kept within the family circle.

But don't expect them to pay for Long Distance culls out of their slender allowances. That seems hardly fair. The demands upon their none too fat purses are too frequent and too insistent.

Fix a day and hour when you will call them, and you'll find them eager to talk with you and welcoming the voice that can best cheer them on their way.

"Every Bell Telephone is a Long Distance Station."

Wanted Now
