THE BRIDGE BUILDER

An old man, travelling a lone highway. Came at the evening, cold and gray.

To a chasm vast and deep and wide.

The old man crossed in the twilight The sullen stream had no fear for him But he turned when safe on the other building here.

For more than half a century the decision tells you how good the garden was: and I will try and tell you how profitable it was to me.

My garden gained me over eight dollars for vegetables sold and prises wen for them at the fairs at Milton and Trafalgay.

The vegetables were of a very fine quality, and those who knew I had won prizes with them came to me for guilding, and those who knew I had won prizes with them came to me for early summer I sold beans, and a little later my corn and cucumbers.

A fact worthy of mention, was that for all there was corn grown on the sick Children once more appeals. HEALTH HABITS

A great deal has been written and said about health habits, and about the importance of starting the child A great deal has been written and said about health habits, and about the importance of starting the child on life's adventure with proper health habits. There is no doubt that it is biust as eazy to establish right habits as wrong ones. Habits are acts which we repeat, without thinking shout them at the time we perform them. We do not eat from our knives because it is our habit to put only forks and spons into our mouths. We do this without thinking because back in our child-hood days our parents. by example and correction, established this as a habit with us.

Those who have established that most important habit of washing the hait and do not feel comfortable if they alt down to eat without washing. The same is true as regards the cleaning of the taeth. The person who cleans his teeth regularly finds that his mouth feels dirty if he misses the require cleaning.

A great deal has been with and soid about head in just and about health habits, and about health habits as one o'clock, the following:

child that will grow out of a life that is regular.

The child is not a small adult; he is not to be looked upon as such. His desire for play is natural and should be encouraged. We do not want to make him "a little man". Proper thealth habits do not interfere with his child life; they help to make him enjoy it more and to keep him well; also, to prepare him for the adult years which lie shead of him.

For several years I always had vegetables and Flower seeds from the school, and showed them at the Fair and got Prizes. So this year I decided to have the Home Garden. I had my plot on a sandy place of ground which, the year before, had been a strawberry patch and was well fertilized.

Tally Ho! For the Royal York Course

This old-time stage coach will run twice daily from the new Royal York Hotel, Toronto, to the new Royal York golf course, which is under construction in the beautiful Humber Valley area. The coach originally belonged to Major-General Sir Henry Pellatt, C.V.O., K.C.M.G., and will be used for the conveyance of guests of the Canadian Pacific hostelry, who will call after the approved fashion of a by-gone day at the Old Mill for the refreshment of man and beast. The route will be via the Lakeshore Boulevard, Sunnyside and the Humber Boulevard.
