they've made nae reply."

The Halton Game and Plan Prote CHILDREN'S AID SOCIETY tive Association members in the Bronte-Merton district are pleased with the number of unusually fine pheasants that abound in the neighborhood. The birds are good specimens and demonstrate that they are getting a bountiful living as they roam over the farms in the vicinity 60 of the twelve mile creek. Some of them are not at all wild, but will feed quite close to farm houses and

#### Card of Thanks

I wish to thank all the people who so kindly loaned their cars and who sent flowers and extended their sympathy in my bereavement by the death of my little daughter. - Mrs

floral tributes, and sympathy extend-Sandy ed to me in my and boreavement by

Mrs. T. N. Marcellus, Hamilton.

- a Six in the price range of the four! When you learn the full details of this sensational new automobile, you will realize that Chevrolet has provided those qualities of six-cylinder smoothness, pover, acceleration and lamely which have tofore could only be enjoyed in care costing several hundred dollars more!

The CHEVROLET Engine

The Outstanding Chevrolet is powered by a new six-cylinder valve-in-head engine of advanced

design. It develops 32% more power than the previous Chevrolet motor and affords greater speed, faster scorlaration and an economy averaging better than twenty miles to the gallon of gasoline ! A new non-detonating cylinder head provides high compression performance without special fuels. The new hot-spot manifold natures complots fuel vaporization. The new and larger carburetor incorporates an automatic acceleration pump, and an improved venturi choke for quicker winter starting.

The new heavier crankshaft is statically and dynamically balanced. The entire rocker arm mechanism is automatically lubricated. Long engine life is provided for by AC air cleaner, continuous self-purification of the crankcase oil—and improved crankcase ventilation.

Big, powerful, easily adjustable four-wheel brakes. Ball-bearing steering mechanism. And such costly car features as two-beam headlamps with toe button control for "dimming", semi-automatic spark control, theft-proof Electrolock, waterproof spark-coll construction, larger chiefded safety meeting tank in rear, im-proved differential imprication and many other

#### fastures of comparable importance. New Bodies by Fisher

In addition the New Chevrelet offers an order of beauty, distinction and etyle never before attained in any low-priced automobile! The high flattened band and the glasning chouse ium plated radiator shall furnish the hoyante of rugged masseness and grace. The rakish unbroken lines, suspicational by distinctively grouped hood louvres, are suggestive of speed and alest-mes. The divided body moulding and concern front pillars reflect the vague so videly favored by leading custom builders; while the larger, longer, lower bodies are themselves masterful examples of the craftmanship for which Plaher is internationally renowned. is internationally renormal.

The seats are vider and more restful. The driver's seat in all closed models is easily adjustable, forward or back—a feature recently introduced on a few of the high-priced care. The redesigned dash carries an attractive grouples of all control instruments indirectly lighted, including the new motor temperature indicator.
