IN MEMORIAM
TRACY—In loving memory of Albert Tracy who died Feb. 23rd, 1923. The years may wipe out many things, but this will never fade away. The memories of those happy days when we were all together. Sadly missed by father, mother and brother.

ARMISTONG—In ever loving memory of our dear friend, Armistrong, who departed this life, Feb. 23rd, 1928. Come from us but leaving memories—Death can never take away. Memories that will always linger—While upon this earth we stay. Sadly missed by the family.

SPREES—In loving memory of our dear son and brother, Pie, George Leonard Spire, who departed this life, Feb. 23rd, 1928. Deep in my heart there's a picture, Of our dear son who has gone to rest. In memory's frame I shall keep it, Because he was one of the best. My lips cannot say how I loved him, My heart cannot tell what to say, God only knows how I miss him, As I journey along life's way. Ever remembered by us all—Family.

Would You be a Magnate On \$216 a Year?

The Bell Telephone Company is owned by 15,300 shareholders and 95 per cent of them live in Canada. Over 50 per cent of them are women.

The average shareholder has 27 shares and gets \$216 a year on his money. The largest has 1,510 shares, which is less than one-quarter of one per cent of the total.

The company has grown from a few telephones to over 700,000, but it has never split its stock and never departed from its policy of the best service at lowest cost.

The monthly rates paid by telephone users in Ontario and Quebec today are the lowest rates in the world for comparable service.

THE BELL TELEPHONE COMPANY OF CANADA

Reconstructs Continent's Oldest Music

The oldest music hitherto recorded on the American continent has been unearthed and reconstructed for production at the forthcoming Expo Music Festival at Vancouver. Healey Willan, the oldest song identified with Canada has been the hymn "Jesus Atonia," which Father Brebant translated into the Huron dialect about the year 1643 for the Indian converts at Quebec. The song-dances of Chief Mamberton are, however, native to Canada and were noted by Lescarbot in the year 1606. The probability is that they were old even at that time, as folk-songs are handed down by Indian musicians from generation to generation.
