The unjustifiably high rates of many hotels is proverbial. A sailor who had been stopping at a fashionable hotel and who was paying his bill looked up at the girl cashier and asked her what it was she had around her neck. "That's a ribbon, of course," she said. "Why?"
"Well," he replied, "everything else
is so high around here that I thought

Catalogue Competition

The thing for the merchants of this community to do in their own interests is to advertise faithfully, and to make their printed announcements interesting and helpful to those whose trade and favor are desired.

Mail Order Houses are the large departmental stores of neighboring cities with their striking advertisements and catalogues are the serious competition of local merchants.

The poorest way to offset this competition is for our local merchants to remain silent. For then not to "speak up" is to give the mail order houses a better chance to get business from this community.

A WORD TO THE PUBLIC

When you send your money to a city store you enrich the great shops and impoverish this community. Strengthen-not weaken-the merchants of Georgetown community. It will all be returned to you in the form of better service and better values.

Advertisements are Interesting. Read Them.
