Here are Ford Facts

Many people buy without investigation of facts and on snap or emotional judgment. Every year it is estimated a million car buyers change their ideas on their car after they have had it six months. Consider the following facts before purchasing your next car—and then decide for yourself which car offers the most value for the money.

11.-That aluminum alloy pistons are balanced to an accuracy of two grams. This is the finest balance of any piston in any car regardless of cost.

12.—That when car is travelling to miles per hour—the revolutions per minute of motor is only 2063. 13.-That gear ratio of new

14.—That the actual road clearance of New Ford is 914 incheshighest of any American stock car. 15.-That New Ford car has

proven itself in public hands this past year as one of the finest performing cars ever built-from standpoint of pickup, hill-climbing ability, speed and riding com-

16.—That the New Ford car has proven itself beyond any doubt as the most wonderful winter car ever built. It starts easily in cold weather and bucks mow beyond belief-ask the owners.

17.—That service and dealer responsibility behind the New Ford is unequalled by that of any other car built.

18.—That New Ford holds the road at high speeds as good as cars being sold at highest prices. 19.- Lastly-That the New Ford stands out supreme in its fieldin mechanical design, specifica-tions, equipment, quality, and precision workmanship.
