

Life never would have been so rich
To me—so well worth while—
But for that cheery word you spoke
But for that cheery smile;
The burden had no heavy grown,
My heart was filled with care;
I never would have reached the goal
Had you, friend, not been there.

Because, because I had a friend,
One who was real and true;
Because your friendship did not fail
Just when I needed you the most;
I had the strength to clamber on,
I had the will to do,
Because I knew I had a friend,
I've had no cause to rue.

Oh, there are records of the past
That tell of trust sublime,
Of friendships that survived the test
Of trials, disaster, time and fate;
But I know one that's up to date,
That had not had an end
When a man defied the odds and won
Because he had a friend.

Think what it means to own a SIX!

NOW Chevrolet affords you the opportunity to indulge your preference for six-cylinder performance... without going outside the price-range of the four.

And the Outstanding Chevrolet does more. It provides the distinctive and desirable styling of big, roomy Buicks by Fisher, finished in the season's smartest colorings. It offers a completeness and quality of appointments in keeping with its external beauty. And it gives you, in addition, the safety of new, smooth four-wheel brakes, the easy-riding comfort of resilient, specially-designed shock-absorber springs and the dependability and economy for which Chevrolet is so justly renowned.

Let your Chevrolet dealer arrange a demonstration... and learn what it means to own and drive a six.

ANNOUNCING

The NEW DOMINION ROYAL CORD

A tire built to stand the strains of 1929 motor-ing—sudden braking, quick pick-up, higher speeds.

Its super-strong carcass combines new engineering principles, new construction.

Side-walls are strongly buttressed to resist rut and curb wear.

Tread is thicker, with deep-cut blocks to give greater non-slip mileage.

The New Royal Cord is the tire you must have to get the best from your car.

BECAUSE I HAD A FRIEND

Life never would have been so rich
To me—so well worth while—
But for that cheery word you spoke
But for that cheery smile;
The burden had no heavy grown,
My heart was filled with care;
I never would have reached the goal
Had you, friend, not been there.

Because, because I had a friend,
One who was real and true;
Because your friendship did not fail
Just when I needed you the most;
I had the strength to clamber on,
I had the will to do,
Because I knew I had a friend,
I've had no cause to rue.

Oh, there are records of the past
That tell of trust sublime,
Of friendships that survived the test
Of trials, disaster, time and fate;
But I know one that's up to date,
That had not had an end
When a man defied the odds and won
Because he had a friend.

Health Service of the Canadian Medical Assoc.

HOLIDAYS

The season has come when many people are preparing for their summer holiday. There is no question but that a rest, a change of environment, a period spent chiefly out of doors at play, and a release from the usual responsibilities and routine of work are all good for everybody. It is not intended to suggest a routine of life for the holiday; in fact, the release from doing things by the clock is, in itself, relaxation, and this appeals to many as the most desirable part of the holiday. However, it is foolish not to give some consideration to a few things, which, if overlooked, may result in the holidays developing the aspects of a calamity.

Water in the country, water at summer resorts will, if contaminated, spread disease—particularly typhoid fever—just as readily as will water in a town or city. When selecting a summer resort, or when renting a cottage or site for a camp, find out whether or not the water is pure. You cannot judge as to this from the appearance of the water. Water may be clear, cold and sparkling, and may still be impure and dangerous. The only way to be sure is to have the water examined. Your local health department will do this for you. Write and ask them how to take and send a sample. Do this before you establish yourself at a summer resort.

Milk in the country, despite popular belief, is generally not safe. Do not use milk unless you know it is safe. Visit the farm from which it comes, see for yourself if the conditions are satisfactory. We would advise that, at least for children, all milk used be pasteurized. There is no objection in taking precautions all the year round, and then allowing children to be exposed to danger during vacations. You cannot tell from appearance whether or not cows have tuberculosis. You cannot tell from appearance if a farmer is a disease carrier. You cannot tell from appearance whether or not the farmer's well, the water which he uses, is safe. The most practical safeguard is to boil or pasteurize the milk.

Upon request, instructions as to pasteurization in the home will be supplied.

Questions concerning health, addressed to the Canadian Medical Association, 114 Colborne St., Toronto, will be answered by letter. Questions as to diagnosis and treatment will not be answered.

Here and There

(319) The biggest shipment of live muskrats ever to be shipped from Canada, a thousand in number, were carried by Canadian Pacific Express Company from Oak Lake, Manitoba to Hamburg, Germany, recently. They were trapped in the breeding grounds on the Manitoba rat farm and shipped in boxes, each box holding twelve pairs. They were shipped on C. P. Freighter Beaverford from Montreal and the muskrats were in good condition with a minimum of casualties when they reached destination.

The Royal York Hotel, Toronto, largest hotel in the British Empire, will be opened by His Excellency the Governor-General, June 11. The following day will be reception day for guests and the hotel is booked to capacity. The whole water front of Toronto is rapidly being built of immense structures of which this is the outstanding.

On the authority of an official report recently issued it appears that the bicycle is gaining in popularity in Canada. In 1928 production of bicycles in Canada reached a new record with the selling value of products 52 per cent higher than in 1927. The year 27,959 which were sold valued at \$899,480.

Within the next few weeks the largest re-forestation venture so far made by the Ontario Government will be under way in the planting of 1,500,000 trees in the Thessalon district near the Soo. This is the largest re-forestation and as a guide to schemes under contemplation for the future in different parts of Ontario.

W. E. Wilford will assume the title of purchasing agent Canadian Pacific Railway, Toronto, according to an announcement recently given out by H. W. Roberts, general purchasing agent of the railway. Mr. Wilford will have most of the work in connection with the Royal York Hotel purchases. He joined the company as a clerk in the purchasing department in 1906.

Fourteen cases of orchids were carried from England to Japan recently under the auspices of the Canadian Pacific Express Company to the order of the Emperor of Japan, the Empress and members of the Imperial Court. They are sent out from England about three times a year and are highly prized by the Japanese Royal Family and Court.

A new wheat, known as R-49, may be the best available rust-resistant wheat. Canadian Government plant breeders have long been experimenting in an effort to develop a variety of wheat that will resist rust and at the same time be of high grade milling quality. Furthermore, which is a round, large, rather poor-yielding strain of the wheat family, which has seemed to be rust-resistant. It has been crossed with Marquis wheat and the progeny sent to Japan. The result is a strain which is three-quarters Marquis wheat. The plant breeders have carried on such experiments at the Manitoba Agricultural College and from as many as 25 strains developed. It seems so far to be the best.

TORY PARTY CHIEFS TO VISIT OAKVILLE

ARRANGEMENTS FOR PICNIC COMPLETED AT MEETING OF HALTAM ASSOCIATION

The annual meeting of the Halton County Conservative Association in Milton last Saturday was largely attended, M. Smith of Burlington being chairman. Among those present were Dr. H. K. Anderson, M.P., of Milton; and George Hillier, M.P.P., of Oakville. Arrangements were completed for the county picnic to be held in Oakville on Saturday, June 22nd, when Messrs. Bennett and Premier Ferguson will be speakers. The following officers were elected: President, W. W. Moore; Vice-President, First Vice-President, Mr. (Dr.) McEwen; Second Vice-President, J. M. McKenna; Third Vice-President, LeRoy Sergeant; Fourth Vice-President, W. E. McCready; Treasurer, W. Ireckon; Freeman, Secretary, G. E. Elliott; Milton; Treasurer, J. P. Little, Milton.

Agricultural Conditions

The following relating to Agricultural conditions throughout Canada was received from the Department of Agriculture under date of June 1st: Canada, in common with practically all other countries, is suffering from late and wet spring. The effect in Eastern Canada has been to cause the planting of roots, particularly potatoes, to be delayed, and to prevent early spraying of orchards, a practice that is of great importance. A favorable turn in the weather in the latter part of May permitted the resumption of planting, but numerous farmers have been forced to substitute crops such as buckwheat and barley for spring wheat and oats, which, of course, will probably result in larger than normal yields of the former grains. The lateness of the season and low prices have caused a marked reduction in the planting of roots, particularly potatoes. Corn and tobacco will be planted under favorable conditions if normal weather prevails in July. Alfalfa and fall wheat and rye do not appear to have suffered a set-back except on low-lying land where the water table is high. Grass in the meadows and pastures, the growth of which was retarded, improved considerably in the latter part of the month.

In the grain-growing provinces of Western Canada the wet weather in the first half of the month has not needed moisture in many sections and an excellent seed bed. There were, of course, some exceptions. In seeding operations, but wheat planting was well advanced by mid-May, owing mainly to the fact that the wet weather was because of dry soil conditions. More of a benefit than a detriment; wheat seeding was not practically completed by the third week in May, and the work was finished there later than in 1925 and 1926, and contrary to many reports it seems that there will not be a great increase in wheat acreage, a shifting to other crops by many farmers partly offsetting the increase in wheat. As compared during the past year. As close as can be judged at present, there are slight decreases in potatoes and Eastern Saskatchewan, and fairly important increases in Western Saskatchewan and Manitoba. Good progress has been made in sowing coarse grains. Germination and growth were reported as satisfactory and conditions had a good start, but conditions for the newly-seeded plant have since improved. Lack of sufficient warmth and rain came in the right proportions.

Miss Edith Fay Chisholm, Wellington County law librarian and a member of one of the oldest families, was found dead in the washroom in the courthouse, following a search instituted by the coroner. Her return home from work at her accustomed time. It is believed that she suffered a heart attack.

IT BURELRY is comical, if not somewhat pathetic, the way newspaper offices are besieged every day by their friends, urging them to "roast" this and that; to "see to it" that this and that is corrected to have this and that done in the city or country; to start this and that kind of movement to correct evils in the government. These friends actually appear to believe that it is the newspaper's business to handle these affairs. But a self-respecting newspaper, though ready to carry all reasonable responsibility, must remind its readers that they, the people, are the authority upon whom rests the responsibility for the present state of affairs local, provincial and national. A self-respecting newspaper tries to report the news of what actually happens, not what might have happened. The relation of a self-respecting newspaper to the general public is not always understood. It is the duty of a newspaper to be in a position to support any good act and criticize any bad act. It is the duty of a newspaper to be in a position to support any good act and criticize any bad act. It is the duty of a newspaper to be in a position to support any good act and criticize any bad act.

A VISION

Method, I dreamed, and from a merry delight
Looked down upon the martial hosts of men,
As hither, thither, swayed they in the fight,
For freedom, honor, pride of power,
In glory, ventured, earth one altar seemed,
High temple in wide space, whereon
They gleamed,
The souls of Youth ascending supplicants,
As flame of buoyant life athwart the skies,
And then a sudden mist, I looked again,
And lo! in mystic glory, alone a chain
Of radiant souls encircling earth and sea,
(O blood-red snow, O life's infinity,
Lo, from this chain of souls such love
Streamed forth,
That eyes yet blinded with the pomp
Of earth,
And hearts yet buried in the things of time,
And souls yet fearful, fairer heights to climb,
Were by its power replenished raised,
and heard
Above earthly tumults the eternal word
As through the darkness of our mortal night,
Of childlike groping and bewildered flight,
God's challenge flashed anew, "Let there be light."
—J. Aubrey Rees.

MILTON

Provincial Constable Geo. Cookman has been transferred from Kitchener to Milton.
Milton Public School Board has engaged Miss Vera Smith of Burlington, Miss Marjorie Irving, Ash, Miss Georgina Storey, Milton, and E. W. Bayley, of Lowville, to fill vacancies on that board, caused by the resignations of Mrs. J. P. McCallum, and Misses H. Bowes, M. Walker, and Elsie Elms.
At the recent examinations of the fourth year in the faculty of arts at Toronto University Miss Marjorie D. Chisholm, daughter of Mr. and Mrs. Victor Chisholm, of Milton, passed her final exams in English and History, and will have the Degree of B.A. conferred upon her at the coming convocation.
Toronto Normal School students held their annual sports' day on Friday last. A picture of H. C. Wrigglesworth, of Storey, the thorough champion male athlete of the meet, appeared in Saturday's Toronto Star Weekly. Miss Georgina Storey, of Milton, won the 200 yard race. Mr. Wrigglesworth and Miss Storey are former students of Milton High School. Congratulations.—Champion.

ACTON

Mrs. A. Livingstone of Georgetown, visited with Acton friends on Sunday. Mr. Thomas Moffat underwent an operation this week at St. Joseph's Hospital. His many friends will hope for his speedy recovery.
Rev. Father McCreary sails today on his trip to Great Britain and the Continent. He will make a visit to Rome and the Vatican his objective.
Mrs. E. Dickson left on Tuesday afternoon for an extended visit to the West, and will visit her daughters, Mrs. H. C. Wrigglesworth, of Burlington, and Mrs. P. B. Selwood, of Calgary, also Mrs. (Dr.) Mercer of Edmonton.
Mr. H. H. McCreary, youngest son of the engagement of his youngest daughter, Betty, to Mr. Charles Wilfrid McDonald, of Toronto, youngest son of the late Mr. and Mrs. Wm. McDonald, of Acton. The marriage will take place quietly in June.
The Acton Senior Rowing Team leave for Montreal on Friday en route for England to compete in the Royal Henley Regatta. A former Acton boy, Bill "Wild" Ross, who is a member of the team, will be one of the crew to compete in the event. Bill's position is in the bow. He is a son of the late David Ross of Acton. And Bill can bet that the home town folks will be pulling with him in the struggle and anxious for him to help bring the honors back to Canada.—Free Press.

BALLINAFAD

The lawn social under the auspices of the Ladies Aid held on the Milton lawn last Friday evening was well attended and proved a most enjoyable event. The splendid program was supplied by the Acton Sunday School Orchestra, and besides instrumental and vocal selections they presented the comedy "Too Much Married." Mr. Mason of Acton was chairman of the evening. Refreshments were served from booths on the grounds.
(Received too late for last issue.)
Miss Beatie Binnie and Miss Bertie Manning of Toronto, spent the weekend at the former's home with Mr. and Mrs. Frank Binnie.
Mr. Robert English, of Toronto, spent last week visiting at the home of his sister, Mrs. Bert Rogers, and other friends of the district.
Mr. Dan Campbell has secured a position in Ouelph and moved there last week.
Mr. Archie McCreary spent last week in Kitchener in the interests of the company with whom he is employed.
Mr. Robert Cole has sold his farm at the foot of the mountain, to Mr. Boyd and has stored his household effects in Mr. Cole's home.
We are sorry to hear that Mrs. David McClure was in the hospital in Toronto.

Sun Parlors For Canadian Trains

Sun parlors on trains is the newest addition to the equipment of the Canadian National Railways. Such sun parlors take the place of the observation platform on the latest parlor-buffer cars. Vitrified glass which allows the health giving sun rays to enter the space, is used in preference to the glass of the old type. The sun parlor adjoins the lounge and beyond that is the parlor section. These cars are also radio equipped and are the most modern of their type in use in Canada.—Canadian National Railways photograph.

New Magnetic Probe Removes Iron Slivers

A new type of Magnetic Probe—an electro-magnet of unusual strength, composed of an alloy of cobalt and steel—which forms an invaluable addition to doctors' instruments for the removal of iron particles embedded in the skin, muscular tissue or the eye, is the latest development in Bell Telephone Laboratory enterprises. The humanitarian spirit always exemplified by Alexander Graham Bell, the inventor of the telephone, has been reflected in many auxiliary products of telephone progress. During his lifetime, Dr. Bell designed and manufactured a probing instrument similar in function to that recently perfected, and thereby relieved much suffering. An increased knowledge of magnetic properties, which enter largely into telephone construction, has led experimenters to the discovery of this important adjunct to the doctor's kit. The insets above show, (left) how particles were removed from the eye in the 'old' way; (right) a strong electro-magnet at work on a scrap iron pile.

Silence That Is Not Golden.....

THE MERCHANT who fails to "speak up" lets a lot of golden sales slip past his store. This lost business goes either to his competitor down the street, or by the mail order route, to the big city stores.

People are often surprised to find that the goods they bought "unsight unseen" from a catalogue can be seen and examined in the local store.

Tell your buying public what you have. An advertisement in THE GEORGETOWN HERALD will invite the whole community to your store. And

People Shop Where They are Invited to Shop
