Are You Sending the Whole Child to School?

Before school is well begun is the time when every parent should give thought to the health of the children.

What About the Eyes?

Are They in Good Condition?

Do not reach the conclusion that eyes are fine just because there is no consciousness that vision is bad. As a matter of fact some of the most pronounced cases of eye trouble are associated with eyes which seem to have exceptional power.

The eyes may seem to have perfect vision and yet be under constant strain. In short, eyestrain is capable of causing any number of symptoms. Headaches may be present. Dizziness, sickness at the stomach and even vomiting, it may account for backwardness in school.

When your eye health and vision is properly cared for, your bodily health will be improved.

Don't guess! Have your child's eyes examined by us. Rest assured, glasses will only be supplied when absolutely necessary to health and comfortable vision. We can show you records of numerous examinations where no glasses were supplied.

Our motto is: Good Glasses if you need them. Good advice if you don't.

WE SPECIALIZE IN EYE EXAMINATION

If you need Eye Service you need the best. Consult us about your eyes.
