### ANNIVERSARY SERVICES AT ST. GEORGE'S

LARGE CONGREGATIONS HEAR WELL-KNOWN PREACHER

The 77th Anniversary of the founding of St. George's Church was observed last Sunday, October 13th. There were crowded congregations, both morning and evening. The services were both fully Choral and were sung by the Rector and Choir. The special preacher at 11 A.M. was the venerable Archdeacon G. P. Sewell, M.A., Rector of St. George's Church, Quilich, who took for his text, Matt. 21: "The Lord is with us, let all the earth keep silence before him." Archdeacon Sewell traced the history of worship down to the present time. Men have always tried to find and worship the "Ultimate Reality." He said the human race, man must worship, and man has always by architecture, music, and other means, tried to worship a fit Temple for the worship of almighty God. Our church buildings are the result of man's striving to express the sense something of what man feels to be the nature of God. Worship is of a fourfold nature. There must be an intellectual basis for our worship. Unless we are convinced in our minds that God exists, there will not be any worship. We must have a moral basis for our worship. Our hearts are stirred and moved by the thought of God. We must have a social basis for our worship. We must have a spiritual basis for our worship. We must have a personal basis for our worship. We must have a personal basis for our worship. We must have a personal basis for our worship.

**GARBLE**—In loving memory of Irene, who passed away October 15th, 1929, in her 14th year. She had a nature you couldn't help but love. A heart that was purer than gold, and to those who knew her and loved her, her memory will never grow cold. —Beale and Winnie.

## A Hotel in Diamonds

Like a story from the Arabian Nights is the description of the miniature model of the Royal York Hotel, shown at the Toronto Exhibition this fall. The model is valued at over \$100,000 and in its construction more than 100,000 ounces of stalla wood covered with the finest wax. The miniature was drawn true to scale and measured 15 inches high by 12 inches wide. Reflected from thousands of facets, the brilliant display of light, the colors into the colors of the spectrum, made this exhibit one of the most visited and most talked of at the big Fall Fair.
