### If you are a wife or mother think this over

The scene is a thriving Canadian City. Time: Spring of 1919. Jimmie Robb and Johnnie Webb, chums and playmates for years, look now in their teens. The "Flu" epidemic of 1918 had left them, like hundreds of other children, without a father's care and support.

Jimmie—"Gee! Jimmie, we have to move over to Smith St., near the railroad track."

Jimmie—"Why?"

Jimmie—"I heard Mother telling Mr. Scott, who comes for the rent, that not long before Dad died, he came home one evening and said Mr. Wright of the Confederation Life Association had been discussing more Life Insurance Protection, and he thought he would arrange for some more. Mother said to Mr. Scott, 'Oh how I wish I had encouraged my husband to buy it instead of telling him that we could not afford it.' I simply have to move now to a cheaper place."

Jimmie—"I heard Mother say the other day she was so thankful she had agreed with Dad's idea of taking more Life Insurance. He said Dad mentioned, when he was sick, how pleased he was that he had increased his Life Insurance."

If Daddy is taken in your home, what could your little ones say?  
Confederation Life Policies—pay rent—buy groceries and clothes.

### Here and There

Representatives of the English Folk Dance Society, thirteen in number, are sailing for Canada from Montreal, October 31, to take part in the English Music Festival arranged by the Canadian Pacific Railway at the Royal York Hotel, Toronto, November 12-18. The party is under the direction of Beatrice Kennedy, leader of the English Folk Dance Society. The practice of English Folk Dance has spread to numerous parts of the world, and it is believed that the dancers' visit here will result in the popularization of these dances in Canada.

Approved plans calling for completion of construction within two years will enable the Canadian Pacific Railway to extend the C.P. line and eventually to the fertile farmlands of the vast Meadow Lake area. Linking this part of the prairie to the plains region lying towards Calgary and thence to a coast outlet at Vancouver, the construction will mean the turning of a new page in the history of one of the most promising agricultural sections of Western Canada.

"The small town of Southey," along of the air mail service was well illustrated recently when R.E. Dochow of Bedford died of a heart ailment with a heavy chest complaint which had weather had prevented taking off at Father Point as in the usual practice. He was rushed four miles to the Quebec airport and reached Montreal one hour later. They were delivered by another special plane to the Toronto airport five hours after the death had occurred.

Two hundred and forty-eight milk and four faxes, valued at \$15,000, were carried recently by Canadian Pacific Express from Ontario and Manitoba and shipped by S.S. Montreal to France. They were all in good shape and represent one of the largest shipments of far-bearing animals in European breeding farms of recent months. Demand comes from Great Britain, France, Germany, Holland and Switzerland.

For the second time in three years, the Investment Bankers' Association of America held their annual convention at the Hotel Astor, Montreal, Quebec, this October. Over a thousand delegates attended from all parts of the United States and Canada and the convention was addressed by E. W. Healy, chairman and president of the Canadian Pacific Railway.

Basket out of world series games, three members of the Vancouver Baseball Team, R. Shawkey, coach; Roy Shier, pitcher; and R. Barron, catcher, were disappointed with a ten-day sojourn in the Laurentians, hunting section north of Montreal. Hunters coming out of this region just before reported fine sport, and one of them brought a trophy, head out of the wilds as a trophy.

### Here and There

Differences in the price of wheat at Chicago and Winnipeg and regarding of the wheat movement in western Canada is due to the view of Canadian wheat owners that its good quality justifies holding it for higher prices while British and continental buyers believe they can obtain their present requirements from the Argentine and the United States, is the explanation of his condition given out in a statement recently issued over the signature of E. W. Healy, chairman and president of the Canadian Pacific Railway and Sir H. Ross, vice president of the Canadian National Railway. Until the present impasse between buyer and seller is adjusted there will be a practical stoppage in the movement of grain with consequent serious effects on gross and net earnings of both the rail and water carriers.

Traveling 350 miles north of Edmonton over the waterways branch of the Northern Alberta Railway to Waterways, Port McMurray, E. W. Healy, chairman and president of the Canadian Pacific Railway, accompanied by a number of directors of the railway, inspected the salt wells and tar sand deposits of the region. Experts of the Canadian Pacific and Canadian National Railways are at present examining these deposits. Healy said he was satisfied would be a great asset to Alberta.

Delegates from the Canadian Chambers of Commerce who have been traveling extensively in the west of Canada, mainly over Canadian Pacific lines, have through their national committee reiterated their stand in favor of a continuance of assisted immigration of selected British settlers of a desirable type to Canada.

Charles Reid, of the Banff Springs Golf Club, was the Prince of Wales golf trophy, famous and coveted prize of golfdom, from a field of 437 competitors recently. His score was 144 net, his handicap being 17. This is the first time in the history of the competition that the cup has gone to a Banff player, Calgary golfers having taken it to that city on each of the four former competitions.

Canada's winter industry takes a big forward step this year with the trek of 2,800 northern animals from Alaska into the Dominion. In November this herd, secured by Canada from the United States herds in Alaska, will begin a trek which will take it through the Arctic coast east of the Mackenzie river.

Australians are "fiercely loyal" so far as Empire Trade is concerned, and buy, for example, 98 per cent. of their automobiles from Canadian manufacturers. Sir James Murdoch, member of the Legislative Assembly of New South Wales, told the Vancouver, Canada Club recently that he had just returned from a cross-Canada tour by Canadian Pacific lines and was on his way back to Australia.

Settlers in the Peace River country have a definite uniformity of outlook regarding the progress of the country as a whole, said Col. J. S. Dennis, Chief Commissioner of Colonization and Immigration of the Canadian Pacific Railway, who has been inspecting the northern part of Alberta over the Northern Alberta Railway. He was astonished at the readiness of the settlers to take a large view even where it might work temporary hardship locally.

#### DO THEY GROW OUT OF IT?

There are many superstitious ideas associated with medicine in the minds of the public. Most of these are merely amusing, but some of them are serious because of the actual harm which they cause. Among the most unfortunate of these is the idea that the child "grows out" of things. This idea is far removed from the truth, and neglect of faulty conditions in childhood usually results in permanent damage. It also means that during the next few years, when there is every hope of correcting the defect by means of proper treatment, nothing is done. To illustrate clearly what we mean, we will refer to three conditions which are frequently neglected by parents that time is the remedy and that the child will "grow out" of them.

Squint, or cross-eye, is one of the conditions which is frequently neglected. If it is neglected, the eyes become weak and, in severe cases, the sight of one eye is wholly or partially lost. If parents desire their child to have perfect vision, the eyes should be examined as soon as a squint is noticed in the earliest years of life.

A running ear should never be left without proper treatment. The discharge may disappear in time and it may cure itself, but what has happened in the meantime, in many cases, is that the infection which has damaged the hearing mechanism that the result is either a total or a partial loss of hearing.

Speech defects, such as stammering, are a serious handicap in adult life. There is always a beginning to these, and, if they are not treated by a specialist, they appear, they can be cured. Speech peculiarities in a child may seem to be nothing more than a curiosity, but if nothing is done, and a habit is fixed which it is difficult to change, this may be jeopardized through neglect.

Questions concerning health, addressed to the Canadian Medical Association, 124 College Street, Toronto, will be answered personally by letter.

### HAULTON PARTORS AND WIVES GATHER AT ST. JAMES' CHURCH

The first ministerial gathering for the new Haulton Presbytery took place Wednesday last, when the ministers and their wives were entertained to a chicken luncheon at the United Church, Leaside. Sessions began at 10 a.m. and 2 p.m. and the chief topic of discussion was the ministerial maintenance policy of the church and how to carry it out. Special speakers were: Rev. Dr. McLeod of Portman; Dr. Ross, medical missionary in Saskatchewan; and Rev. Peter Bryce of the United Church Mission Society, Toronto. Rev. J. M. Dennis, Chairman of the Presbytery, and Rev. Mr. Rumley, Georgetown, presided. There has been a very successful social gathering formed yet in this Presbytery, but one is in prospect.

### Public School Teachers Meet

The public school teachers of the Haulton Inspectorate arranged at the Haulton Hotel to hold a group conference in the five towns of the county, Georgetown, Milton, Acton, Burlington and Cambridge. The sessions were held in the last two named towns last week, when teachers of the town schools and met to discuss common problems. Public School Inspector J. M. Dennis was present to lead in discussion.

## Health in Modern Industry

Modern industry lays great stress on health—physical and mental fitness of the worker.

One might easily infer from the pictures that they were taken in a city hospital. As a matter of fact they show a part of the medical equipment on the ninth floor of the Bell Telephone Company's new headquarters building, Montreal. Seven hundred and fifty employees consulted the medical department during the past month. This service is a part of the Company's territory-wide health program. This program includes free medical examination, visiting nurses, health courses, first aid and accident prevention.

## EVERY MODERN FEATURE KNOWN TO RADIO SCIENCE

# FADA Radio

Every feature known to radio science is employed in this great radio to give you the perfect reception that Fada alone can give. Other makes may have one or two modern features but only Fada includes all the ten big radio features of the year. A great engineering staff devoted exclusively to radio for over the past nine years enables Fada to produce this, the greatest of all radios—Fada 35. Come in today and have a demonstration of this remarkable receiver.
