That the town that fails to encourage the business concerns it now has will fall way behind in the March of Progress.

That when business concerns fail to use every effort to increase their business in the home town and its trade territory, they are holding back its progress.

That merchants should show the people of their community by NEWSPAPER ADVERTISING that they can supply their every want.

That people appreciate the true merit of the home town as a trading centre when the local concerns take interest enough to tell them what they have through the recognized shoppers' guide—THE NEWSPAPERS.

That newspaper ads. draw shoppers from other localities. Shopper do not come to town to buy just one article, they usually buy many articles.

That out-of-town shoppers, as well shopper, should receive prompt and strict attention.
