"THE MODERN BABY"

By Bishop-Doie

"The hand that rocks the cradle... but there is no such hand. It is bad to rock the baby, they would have us understand; So the cradle's but a relic of the former foolish days... When fathers reared their children in unsanctified ways... When they found them and they boozed them, these poor dwarfs of long ago... The Washingtons and Jeffersons and Adames, you know.

They warn us that the baby will possess a muddled brain... If we dangle him or rock him—we must carefully refrain; He must lie in one position, never swayed and never swung; Or his chances to grow to greatness will be blasted while he's young; Ah! to think how they were ruined by their mothers long ago—The Franklins and the Putnam's and the Hamiltons, you know.

Then we must feed the baby by the schedule that is made; And the food that he is given must be measured and weighed; He may believe to inform that he isn't satisfied; But he couldn't grow to greatness if his wants were all satisfied; Think how foolish nursing stunted those poor weanlings, long ago—The Shakespeares and the Shakespeares, and the Shakespeares, you know.

We are given a great mission, we are here to-day on earth; To bring forth a race of giants, and to guard them from the birth; To insist upon their freedom from the rocking that was bad; For our parables and their parents, scribbled all the means they had; Ah! if they'd been fed by schedule would they have been stunted so? The Websters and the Lincolns and the Roosevelts, you know."

News and Information for the Busy Farmer

An Enormous Loss
A prominent authority has estimated that twenty-six million dollars is the price paid by farmers and poultry raisers for loss through the loss of poultry flocks in Canada in the past year. Most of this loss is caused by internal parasites and much of this is avoided by keeping the young chicks away from the adult birds and on absolutely clean soil.

Campaign Against Weeds
The provincial authorities are leaving no stone unturned in their campaign against weeds. Many of the highways have the usual prolific crops along the sides of the road. Some of the farms throughout the country have crops of weeds which will soon be ripening and spreading their seeds to the four winds. Delinquents in respect will be given an opportunity to explain the reason for their contempt of the law as soon as the weed inspector makes his rounds.

Low Productivity
The dairyman, and for that matter the owner of any class of live stock, has enough to contend with without putting up with a bunch of low producers. The burden of the low producer is felt most in time of food scarcity and low price of dairy products. She is a liability, but yet it is difficult for the dairyman to make up his mind to send her to the block and take his loss. This question of keeping records of milk, cost of food, and getting rid of poor cows has been discussed times without number, and yet many low producers continue to occupy a small and common amount of land as it stables which the records prove has returned a substantial profit over the cost of feed and labor.

Agriculture Leads
According to an eminent authority the annual value of Canada's agricultural and live stock products on the average of the past two or three years is around the two billion dollar mark. The mineral production is given as being 20 millions for that period; the lumber and pulp production, 400 millions, and the fisheries \$4 millions.

Controlling Black-Rot
Black-rot or black-root is a fairly common disease of strawberry plants. Apparently plants of any age may be attacked but they are most susceptible at two periods, shortly after being set out and at fruiting time. In some patches little or no evidence of the disease can be found, while in others 50 per cent or even 70 per cent of the plants are destroyed. The principal control measure, which has been found useful are:
1. Practice a fairly long crop rotation. Strawberries should not follow a similar crop in less than five years if possible.
2. Avoid introducing the disease. When setting out a patch secure plants from a field which was free from root rot the previous year. Then discard from those any plants which have blackened roots.
3. Protect the plants during winter by means of a suitable mulch. As soon as the ground becomes frozen hard, cover the rows with two or three inches of clean straw.

Corn Helps
Quality corn either for silage or for husking is the result of suitable seed and suitable preparation of the Ontario growers of corn for husking purposes are warned that planting this year their ears and the first week in June may prevent its ripening. Tests have been conducted at the O.A.C. relative to different dates of planting coupled with fertilization with high phosphate fertilizers. Records obtained show that a week's delay in planting could be largely overcome by the use of suitable fertilizers. Fertilizers of an analysis of 3-13-9 or 3-10-6 used at the rate of 500 pounds per acre at the time of planting, have been found to hasten the ripening of the crop at least a week. It is a well-known fact that corn well advanced toward ripening makes a richer quality of ensilage than does green corn with the immature ears. Growers of this crop for silage purposes can increase the total weight per acre and also greatly improve the feeding quality of corn by proper regulation of manuring and fertilizing.

Weekly Crop Bulletin
Most of the counties in the province report a rapid recovery from the inroads of winter on the wheat and alfalfa crops. Bruce county is assured of a good crop of hay while in Dundas both the wheat and alfalfa are fine growth. The same applies to Frontenac but rains have delayed grain seedling. Grenville's report almost duplicates that of the latter. Potato planting is in full swing in Hastings while Huron an increase in bean acreage is expected. Seeding is practically completed in Kenora while in Kent crops are from a week to ten days earlier than in 1929. In Lambton, the report says, "Prospects for a bumper crop, were never better." An exceptionally large crop is expected in Lanark while in Lincoln fruit prospects are excellent. A rapid growth of fall wheat has been noticed in both Middlesex and Northumberland, generally very early in the season. Early barley is being sown in Perth in an attempt to kill snow thistle. The report, on the whole, is the most optimistic issued this year.

Farmer's Week at O.A.C.
Monday, June 3rd—Lambton, Westwirth, Lincoln, Welland, Norfolk, Kent, Essex, Elgin and Haldimand.
Tuesday, June 4th—Huron, Waterloo, Dufferin, Perth, Huron, Grey and Bruce.
Wednesday, June 5th—Peel, Simcoe, York, Ontario, Durham, Northumberland, Hastings and Eastern Counties.
Thursday, June 6th—Brant, Oxford, Wellington, Middlesex, Muskoka, Victoria and Peterboro.

Raising Better Potatoes
Certified Dooley Potatoes secured from the Allison and Acton Districts were distributed on May 19th from Mount Brydges to the one hundred and thirty (130) members of the Middlesex Farm Boys Potato Club which was organized this Spring by the London Chamber of Commerce and Middlesex Department of Agriculture. Each member received one bag of potatoes. The plots will be judged during the summer and also inspected for soil fertility. The majority of the members will have certified seed for field planting next year. The boys were also each supplied with a sixty (60) pound bag of special 4-8-10 potato fertilizer. Fertilizer was weighed from certified and unfertilized plots of the club. Each potato club will be sponsored by an interested Chamber of Commerce member.

Beautifulizing the Farm Home
Every unimproved home in Canada can be made more attractive and more valuable by the planting of trees, shrubs, vines and flowers and a well-kept lawn. The cost of the nursery stock is one of the most profitable investments a farmer can possibly make. Investments in improvements will actually increase the money value of the place many times the amount spent in a simple plan of home planting.

Strawberry Surprises

During strawberry time do not limit your berry tastes to strawberries and cream, strawberry shortcake and strawberry pie. They are all delicious, but you can also have an unusual surprise strawberry dum. The dumplings which it will produce will more than repay you for your outlay. Here are two that are particularly delicious:

Strawberry Loaf
2 cups strawberries, halved
12 small loaves, finely cut
1-3 cup sugar
1 package strawberry flavored gelatin
1 pint, minus two tablespoons, boiling water
1 cup cream, whipped
Combine strawberries, marshmallows, and sugar, mixing well. Let stand at least one hour. Dissolve gelatin in boiling water. Chill. When slightly thickened, beat with rotary egg beater until of consistency of whipped cream. Fold in strawberry mixture and cream. Turn into mold. Chill until firm. Unmold. Serve in slices. Serves eight.

Strawberry Whip
1 package strawberry flavored gelatin
1 cup boiling water of dairy product
1 cup strawberry juice
1 cup strawberries, crushed, and
1-3 cup sugar
Dissolve gelatin in boiling water. Add strawberry juice. Chill. When slightly thickened, beat with rotary egg beater until of consistency of whipped cream. Fold in strawberries and cream. Turn into mold. Chill until firm. Unmold. Serves eight.

SALMON LOAF
1 tablespoon lemon juice
Cayenne
1 teaspoon salt
1 lb. can salmon
2 small eggs
2 1/2 cup chopped celery
1/4 cup bread crumbs
1/2 teaspoon baking powder
1/4 cup evaporated milk
Add lemon juice, cayenne and salt to boned, flaked salmon, then beaten eggs, celery, bread crumbs, baking powder and milk. Shape into a loaf, place in a greased baking pan. Bake in a moderate oven (350 F.) until brown and firm. Serve with medium white sauce or egg sauce. Yield: 6 servings.

ASPARAGUS WITH MOCK HOLLANDAISE SAUCE
1 tablespoon butter
2 tablespoons flour
1/2 cup milk
1 teaspoon salt
1/2 teaspoon pepper
Few grains cayenne
Yolks of 2 eggs
1/4 cup butter
1 tablespoon lemon juice
Asparagus
Prepare for white sauce. Stir in beaten egg yolks after sauce is cooked. Add the 1/4 cup butter bit by bit and finish with milk. Four over strips of cooked asparagus. Garnish with pimento.

SPECIAL DEVIL'S FOOD CAKE
1/2 cup shortening
1/2 cup sugar
4 eggs
1 cup milk
2 1/2 cups flour
3 teaspoons baking powder
3 squares vanilla
1 teaspoon vanilla
Cream shortening and sugar together. Add egg yolks well-beaten. Sift together dry ingredients and add alternately with the milk. Add melted chocolate and vanilla. Lastly, fold in well-beaten egg whites. Pour into 2 well-greased sandwich cake tins and bake in moderate to hot oven (375) for 30 minutes. Use your favorite icing.

SATISFYING SANDWICHES
Many women do not think of sugar in connection with sandwiches, yet a little touch of sugar furnishes some quick energy food of real value, and the real flavor of some of the other sandwich ingredients. Try the following and you will appreciate these facts:
Devils' Sandwiches
Either left-over or canned baked beans can be used for a delicious filling for these sandwiches. Whole wheat and Boston brown bread are equally desirable. Press 1 cup baked beans through a coarse sieve and add 1 tablespoon tomato catchup, 1/2 teaspoon onion powder, 1/2 teaspoon mixed mustard and 1/2 teaspoon sugar. Spread on buttered slices of bread and serve with crisp pickle.

Date Pilech Sandwich
The picnic-lunch needs plenty of fruits. A few date sandwiches help to bolster the up, and furnish very delicious tidbits as well. Run half a cup of dates and half a cup of walnut meats through the food grinder, using the coarse plate. Mix with one Philadelphia cream cheese and 1/2 teaspoon sugar. Spread on buttered slices of whole wheat bread.

NOTICE TO CREDITORS

THE MATTER of the Estate of Samuel Campbell, late of the Town of Georgetown, in the County of Halton, Manager, deceased.
NOTICE is hereby given that all persons having any claims or demands against the late Samuel Campbell, who died on or about the seventh day of February, A.D., 1930, at the Town of Georgetown, in the County of Halton, and Province of Ontario, are required to send by post prepaid or to deliver to the undersigned solicitor for William Roy Campbell, the Executor of the last Will and Testament of Samuel Campbell, Manager, deceased, their names and addresses and full particulars in writing of their claims and statements of the securities, if any, held by them. AND TAKE NOTICE that after the twenty-first day of June, 1930, the said Executor will proceed to distribute the assets of the said deceased among the persons entitled thereto, having regard only to the claims of which they shall then have had notice, and that the said Executor will not be liable for the said assets or any part thereof to any person whose claim they shall not then have received notice of.
Dated at Georgetown, Ontario, this twenty-first day of May, A.D., 1930.
JOHN A. THOMPSON,
Solicitor for the said Executor,
Georgetown, Ontario.
