At Bargain Prices
never before heard of in Georgetown.

Thursday, Friday and Saturday
OF THIS WEEK WILL BE
Three Big Days

for those who want good dependable seasonable goods
at LOWEST POSSIBLE PRICES.

DRESSES! DRESSES!
The greatest sacrifice ever heard of in the Ladies Dress Department for the last three days in the Brooke Block.

Come and get your share of
these very special offerings

H. Silver

Brooke Block Georgetown

IF NIGHT SHOULD COME

When all life's day I have, though faintly wrought, and shallow furrows, cleft in stony soil, are all my labors, shall I count it naught? If one poor gleaner, weak of hand, shall reap a scanty sheaf where I have sown, for thee thy sister do I pray, for thee thy brother do I pray, for thee thy work, the harvest rest, with film alone, —Leut. Col. John McCrea

HIGH SCHOOL RESULTS

In each list the names are arranged in order of the total number of marks obtained before a name means an average of 75% or over. The figures after the name denote the number of subjects and pass subjects respectively. The names of those who passed in at least five subjects are included in these lists.

FORM IV—Eleanor Macdonald, 5; 4; Ray Crichton, 0; Evelyn Ashmore, 0; 6; Marjory Gault, 1; 5; Aloysius Boland, 3; 3; Barbara Chy, 3; 3; Constance Deans, 0; 5; Erna McCumber, 0; 5; Phares Vannatter, 0; 5; Sidney Silver, 0; 5.

Reports have been sent to parents and guardians.

What About Unemployment?

Much is being heard and will be heard, during the present election campaign, of unemployment, charges and counter-charges will be made. Opponent will try to place the blame on Canada-to-day. There can be no doubt of one thing, that unemployment reveals a hidden weakness in the economic system under which this country and most countries live. It is not creditable to any highly organized community that periodically there should be manifestations of the disease of unemployment. Men able and willing to work should always be able to find work suitable to their abilities. The efforts of political parties should be directed to finding a permanent cure for the disease rather than to blaming each other for any renewed outbreak of it.

Unemployment at this time is not confined to Canada. It is not symptomatic of either Free Trade, Protection, or Low Tariff countries. The United States, that outstanding example of High Protection, is literally suffering under the burden of unemployment. Great Britain, at the other end of the scale so far as tariffs are concerned, has two millions of unemployed. The amount of unemployment in Canada at this time is infinitesimal as compared with some other countries far richer than ours. It is folly on our part to blame our government. It may be convenient to heretics and not help politically so to do. But true statesmanship will spend more time finding remedies than ascribing blame.

It is not sufficiently realized that we are still paying the price of war. There cannot be such a terrific upheaval as that now labelled "The Great War" without dislocation of services, industry and relationships. The destruction of property, of capital, and of human life on such a colossal scale could not be carried on without terrible and lasting consequences. The bills have to be met. To squander resources in materials and man power as the fighting nations did in the years 1914 to 1918 could only mean that some day the effects of such squandering would have to be suffered. When you couple along with this the fact that the nation which profited most by the war, the United States, has got so much of the world's gold supply locked up in its treasury vaults and along with it has virtually refused to let its debtor nations say anything in goods but demand gold, it will easily be seen that there is a set of circumstances that explains it does not justify unemployment.

We Canadians should not permit ourselves to be deceived about unemployment. We should see that our lying causes rather than superficial ones. We should remember that Canada is one of the richest countries in the world from the point of view of the productivity of its soil and its natural resources. No country so potentially rich as Canada, with vast natural resources awaiting development, should ever have to complain of unemployment. We should all bend our energies to the development of our heritage and not waste too much, if any, time cursing the politicians. Canada is a world-trading nation today. We have natural products to sell to every other country. With as few restrictions as possible upon such trading with other nations, and with hard work at productive effort by our people, Canada will soon overcome its present setback and rejoice in the permanency of prosperity.

EAT RIGHT and KEEP COOL

Excess baggage is hard to handle any time, but more burdensome in Summer when vitality is low. Keep up your pep and bodily poise by eating Shredded Wheat with milk. Just enough carbohydrates to build the flesh you need—just enough proteins to insure muscular strength. A well-balanced food, nourishing and easily digested. Delicious for any meal with fresh fruits.

RIB-ROLL

THE ORIGINAL NEW STYLE ROOFING
RIB-ROLL Galvanized Roofing has been so successful that tens of thousands of farmers now have it on the roofs of their buildings. There has not been a single complaint. RIB-ROLL safeguards crops, protects stock and enhances property value. It is fire-proof, water-tight and weathervane-proof. Economical, easy to lay on any roof, keeps out dampness which induces spontaneous combustion. Be sure to get the one and original RIB-ROLL—the roof with the seven ribs and a nail every five inches. Free sample on request.

PRESTON VENTILATORS PREVENT SPONTANEOUS COMBUSTION
Spontaneous combustion is a constant menace to crops, stock and property—unless your barn is equipped with Preston Ventilators. Preston Ventilators for roof, adjustable side wall windows and large doors, draw out the malar, warm air and assure proper ventilation. Built on waterproofed every weather condition.

SPECIAL
We offer attractive terms to responsible farmers on roofing and siding for needed repairs for their buildings. Write for full particulars.

ACTON

Mr. J. G. Lindsay of the Superior Store, was successful in winning one of the prizes in the Ayler week contest for the best decorated window. An aeroplane hovered over town on Tuesday evening, evidently trying to find a suitable place to land, but the Park was crowded with people and three or four games were in progress there.

Rev. and Mrs. George W. Barker, their daughter, Miss Muriel Barker, B.A. and Mrs. Daniels of Toronto made a pleasant call on Mr. and Mrs. H. P. Moore on Wednesday.

Messrs. John E. Duncan and Arthur Courtney of Brigid, called at the home of Mr. Alex Macdonald on Monday while on the Western Ontario Tour to the O.A.C., Guelph.

Miss Bertha Brown of Toronto, was in town on Sunday for a farewell with her sister, Miss Fern Brown, before leaving on her European tour during the summer holidays.

Mr. Ex-Comp. E. G. Arnold paid his official visit to Durham Chapter R. A. M., Durham, on Tuesday evening. He was accompanied by his secretary, Ex-Comp. Geo. Brown, and Comp. C. H. Harrison of Halton Chapter.—Free Press.

ERIN

Mrs. Joseph McMaster and family of Erin, were celebrating the birthday of their daughter, Miss Margaret Blingham, Mr. John Blingham and Mr. Wm. Hamilton attended the funeral of the late Mrs. Geo. Evans at Caledon East on Saturday.

Mrs. H. B. Austin was taken suddenly ill and removed to Guelph General Hospital on Tuesday, where she underwent a serious operation. We trust she may make a speedy recovery.

Mr. Geo. Ramesbottom narrowly escaped injury on Sunday evening while returning from Bellefontaine with his car, when a motorist side-swiped him, forcing his car into the ditch. Mr. Ramesbottom received quite a fright but escaped injury. The car was somewhat damaged, but came out under its own power. The motorist who was driving a large car, was of the hit-and-run type and his identity is unknown.

Mrs. T. W. Salmon, who has been ill recently, was happily surprised on Thursday last, it being the twenty-fifth anniversary of her wedding day. Owing to her illness, Mrs. Salmon had quite forgotten the anniversary date, and one can imagine her surprise, when her little daughter Josephine entered her bedroom, bearing a tray of beautiful silverware, a gift from the family.—Advocate.

LABOR-DEVELOPING

Already a great deal of discussion has been indulged in by poultry raisers concerning the use of electricity in producing more eggs per hen. However, the use of "electric daylight" is not the only way in which this useful commodity can be employed on the farm. With the increased use of cheap hydro power, electric labor saving devices will be in more general use and the day is not far distant when electricity will run the farm as completely as it runs the modern factory.

Baptist Rally

On Monday evening the Annual Spring Rally of the Baptist Young People's Union eastern district was held at the Baptist Church in Acton. Mr. Laird of Georgetown, presided. The session opened with a short song and a devotion by Rev. Mr. Hamilton of Acton. The Hillsburg Union's orchestra was in attendance and rendered several numbers. A welcome was extended to the delegates from Brampton, Hillsburg and Georgetown by W. Coles, the President of the local Union. The District Secretary, Mrs. Smith of Georgetown, read the minutes of the previous rally and message of the Executive, which were adopted.

Rev. Newcombe of Calgary Baptist Church, Toronto, delivered an address, taking as his subject, "The Fact of God, the Fact of Christ, and the Fact of Salvation." The Community Club of Pinetown and Hunter Summit were received into associate membership.

The new Executive of the district was presented to the gathering by the retiring President. They are—Miss Barbara Park, Acton, President. Mr. E. Root, Hillsburg, Vice-President. Mr. Stanley Cripps, Acton, Secretary-treasurer.

Refreshments were served to the visitors at the close of the meeting.—Free Press.

COST OF PARLIAMENT

What the end of the Dominion session is here we notice that the Ottawa Journal's press gallery observer has taken some pains to arrive at what it costs. He states that it is costing the country \$2,314,074, not including the \$195,000 for the salaries of the 10 members of the Cabinet. This means that if Parliament sits 125 days the average outlay per day to keep the legislative machinery operating is \$18,500. Last year Parliament sat 128 days, the year before 138 days, while the short session of 1927 required only 63 days. Parliament sits 51 days before the members and Senators can draw their full indemnities. Generally speaking the legislators sit as a lump sum in provision in the estimates toward the cost of legislation.

NEW RULES GOVERN THE COMING ELECTION

New amendments to the Dominion election act will govern the conduct of the next election. These amendments were made effective June 14th, 1929.

One of the most important is that for the first time the cities are to have a complete corporation of voters made by enumerators.

Another important point is that returning officers are to return to their town or city homes if they want to vote. The vacationists cannot now vote a ballot at their summer homes.

Provision is made for the registration of voters on the list even if misadventure of the enumerators. Registration districts are to be defined and two registrars named for each.

Printing and stationery lists, twenty copies for each polling sub-division to be supplied to each candidate or his representative, have been provided for.

MILTON

The first annual reunion of the Sanderson connection will be held at Eldorado Park on Saturday, June 29th. Wm. Randall of Milton is president and Mrs. Randall is secretary-treasurer. Mrs. R. Busch, underwriter of an operation for appendicitis at Guelph General Hospital Monday and is doing as well as can be expected. Her many friends hope she will soon recover.

The following will act as deputy returning officers in Milton on Election Day, Monday, July 29th—Eastward, Charles Kennedy, North ward, W. T. Barnard and R. M. Paken; South ward, Charles Jones and Wm. T. Light.

Art Wales has been awarded the contract for the new uniforms for the members of the Milton Fire Brigade. The uniforms will be ready for the Provincial Firemen's Tournament at Kincardine in August. Miss Kelly of the Milton high school teaching staff, Miss Heatherington, a former member of the same, Miss Gemmill of the Milton public school teaching staff, and Miss Worthington of Toronto, will sail from Milton on June 25th on a trip to the continent.

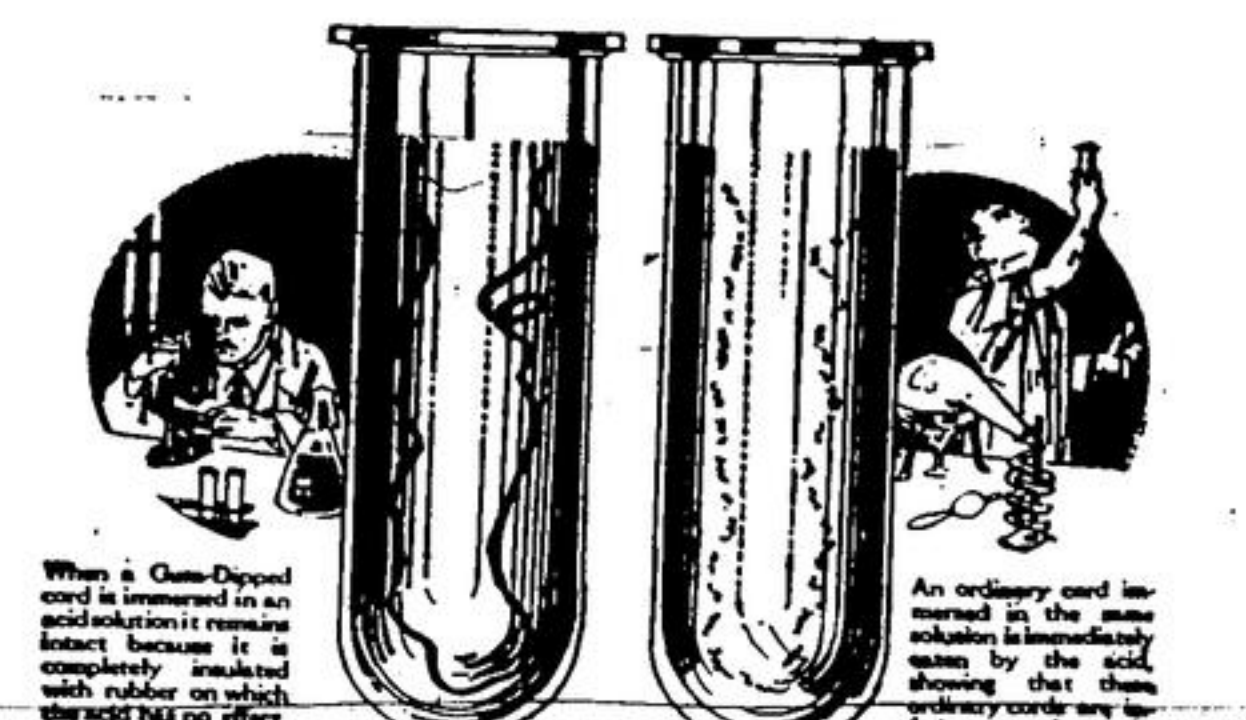

Mrs. S. Reeve and daughter, Miss Minnie, Mrs. E. J. and Mrs. Lucas left on Tuesday evening for England and Wales, where they will spend the summer. Visiting relatives in C.P.R. station to bid them goodbye. Champion.

WAGES AS LOW AS 51 PER DAY

The Palmerston Spectator states that wages as low as \$1.00 per day with board are being paid by contractors on government paving contracts not far from Palmerston. The Spectator protests against the unfair practice of taking advantage of the salaries of the members of the House of Commons, where most of the legislative work is done—cost the country \$111,550, including the salaries of the members of the House of Commons, which requires \$90,000. The service of stenography and typewriting for the use of members of the Commons, which is provided, costs \$25,000.

Another Instance of the Serious Condition of Wages and Unemployment

Another instance of the serious condition of wages and unemployment came to the notice of the editor of the Drayton Advocate one day last week, who says, "While in Guelph we met a former resident of this community who resides there. He told us that he had been out of work during January and February. He is at present however, employed, but wages are so low he can hardly make ends meet. His cheque for that week was only \$11.55 and he had a wife and family to support and rent to pay."

Gun-Dipped Cords Stand the Acid Test

Even though Firestone cords are of superior strength and elasticity before they are built into Firestone Tires, they go through the Gun-Dipping process for added strength and endurance.

Gun-Dipping—exclusive to Firestone Tires saturates and insulates every fibre of every cord in the tire. This prevents the cords from chafing against each other and eliminates internal friction and heat—the greatest enemy to tire life.

Thus Firestone Gun-Dipped Tires have double reasons for their toughness, ruggedness and unequalled mileage—by actual test they hold all world's records for mileage and endurance! Specify Firestone Gun-Dipped Tires on your car. See your nearest Firestone Dealer today.
