WHY IS IT?

Why do clients of many years standing continue to send us their troublesome collections? Why is the volume of business we handle increasing so rapidly? Because our service is so thoroughly satisfactory and our rates reasonable.

IN SOLITUDE

He is not alone whose ship is sailing
Over the mystery of an unknown sea.
For some great Love with faithful-
ness untiring
Will light the stars to bear him company.
Out in the silence of the mountain
passes.
The heart makes peace and liberty its
own—
The wind that blows across the scent-
ed grasses
Bringing the balm of sleep — comes
not alone.
Beneath the vast illimitable spaces,
Where God has set His jewels in array,
A man may pitch his tent in desert
places
Yet know that Heaven is not so far
away.
But in the city—the lighted city—
Where guided spires point toward the
sky
And fluttering flags and hunger ask
for pity,
Grey Loneliness in cloth of gold goes
by.

PRESERVE FOR EARLY AUTUMN

By Mildred A. Hill
Late fruits and vegetables lend themselves to many delicious jams and preserves. Here are two recipes which call for inexpensive vegetables. Incidentally, sugar is also selling at a price about as low as it has in a generation; so you have an unusual opportunity to put up liberal quantities of these preserves at little cost.
Pumpkin Preserves
Remove the rind and seeds from a small pumpkin and cut the flesh in inch cubes. Cook in a small amount of water until tender. Drain and weigh. For each pound of pumpkin allow 1 pound of sugar, 2 lemons, and 3 ounces of ginger root. Slice the lemon and soak with the ginger overnight in cold water. Next morning cook in same water until the lemon rind is tender. Add the sugar and the pumpkin, and simmer until the pumpkin is transparent. Drain and pack in jars. Cook syrup until it is thick and pour over the fruit in the jars. Seal tightly.

Tomato Preserves

Weigh small, half-ripe tomatoes and allow 1/2 pound sugar and 1 lemon to each pound of tomatoes. Slice the tomatoes thin and cook in water to cover until the skin is tender. Strain off the water and use with as much more water as is needed to make 1/2 cup liquid-to-each-pound-tomatoes. Cook with sugar five minutes. Add the lemon and slices of lemon, and cook until the tomatoes are transparent. Skim fruit into jars; boil the syrup until thick and pour over fruit.

PRESERVE CLOSET FUEL

By Betty Barclay
Fuel for our furnaces may be as expensive as usual this winter, but sugar the body fuel which keeps the body heated and is a quick-energy food, is now selling at practically the year price. Here are two recipes for bottled fuel for next winter's use—
Peach Chesley
4 pounds peaches
1/2 cup chopped onion
1/2 pound seeded raisins
1 pod red pepper
2 tablespoons red chili powder
3 teaspoons ground ginger
1 cup mustard seed
6 tablespoons salt
1 quart vinegar
14 pounds brown sugar
Put the onion, raisins, and red pepper through the food chopper. Peel the peaches, cut in small pieces, and mix with the other ingredients. Boil slowly for fully an hour, or until the mixture attains a rich brown color. It should resemble a soft gruel. Pack in hot sterile jars or bottles, seal and process 15 minutes below boiling.

Ginger Pears

5 pounds hard pears
5 pounds sugar
1-3 cup preserved ginger, cut in small pieces
3 lemons, juice and grated rind
3 cups water
Remove the skin and cores from the pears and cut the fruit in slices length-wise. Add the water and cook the pears until they are tender. Add the sugar and the other ingredients and simmer the mixture until it is thick. Pour it into clean, hot jars and seal. Hard varieties of apples may be prepared in the same manner. The Ben Davis apple is excellent prepared in this way.

PRESERVED WATERMELON RIND

By Mollie Martin
If house wives but knew the deliciousness of preserved watermelon rind they would not so promptly throw the basis of this delicacy away. When next you have a watermelon try the following recipe. The result will be so pleasing that I am sure you will preserve many jars of watermelon rind to be enjoyed by your family this coming winter.
Preserved Watermelon Rind
2 pounds prepared watermelon rind
2 quarts water
2-5 ounce lime.
2 pounds sugar
4 quarts water
Lemon sliced thin
Spices or ginger root
Cut the red portion of the watermelon from the rind, remove the green outer skin and cut the white part in 1/2 inch pieces. Soak the watermelon in the lime-water, made by stirring the lime into the 2 quarts of water, and let it stand for 3 1/2 hours. At the end of that time, let the rind stand in fresh cold water for 1 hour. Drain and boil in clear water for 1 1/2 hours or until tender. Drain. Make a syrup of the sugar and the 4 quarts of water, and drop the rind into it after it has reached the boiling point. Add the lemon and the spices. The spices will tend to darken the preserves, but improve the flavor. Cook the preserves until the syrup is thick or until the temperature has reached 222 F. When the preserves are cooked, pack into sterilized jars, add syrup to cover, and seal.

Autumn Sown Crops

As a foreword to a review of experiments with autumn sown crops at O.A.C., W. J. Squirrell, professor of field husbandry, says: "Extremely dry weather during the latter part of August and the month of September was responsible for considerable decrease in the area of winter wheat sown in Ontario in 1929. Winter killing, although severe in some districts, seems to have been about average for the province. Growing conditions since being spring have been excellent and winter crops were harvested under exceptionally good conditions. Very slight damage was caused this year by either Hessian fly or rust. More damage than usual, however, was occasioned by the presence of harnet spittlebugs in the heads of winter wheat. Yield and quality of autumn sown crops in the experiments at the college were very good in the crop harvested in 1929. Yields per acre in the variety tests of winter wheat were greater than for several years."

A Happy Quartette at Empire Games

It was a great day at Hamilton, Ont., when the British Empire Games were opened; a day of sunshine and smiles, as is shown by the above picture of four distinguished Canadian citizens in the viceregal box. Whatever the smile is born of, it is unanimous. Left to right: E. W. Beatty, Chairman and President of the Canadiana Pacific Railway; His Excellency Viscount Willingdon, Governor-General of Canada; Hon. R. R. Bennett, Prime Minister of the Dominion; and Hon. J. Howard Ferguson, Prime Minister of the Province of Ontario.

Send me further particulars of the Life-Cost Confederation Early Policy, as issued by the Confederation Life Association.

Name _____
Address _____
Occupation _____ Age _____

Policyholder says:

"The \$50 Monthly Income will be of great assistance"

Mr. _____ was ill for a long time, but because he had a Confederation Life Policy with Total Disability Benefit, he received \$50 a month income and his insurance was kept in full force without payment of further premiums while receiving such benefits.

Confederation Life Association,
Dear Sirs:
Please accept my sincere thanks for the prompt attention given my claim, regarding the Disability Clause in my insurance policy. The \$50.00 monthly income will be of great assistance, as I have had such enormous expenses in connection with my long illness.
I wish to express my appreciation for the courteous manner in which the Company has always transacted business with me.
I heartily recommend Life Insurance with the added Disability Clause, as it is one of the safest and best investments I know of.
Yours sincerely,
We earnestly recommend you to write for particulars of the Confederation Series of Policies, with Total Disability and Double Indemnity Accident Benefit, and participating in profits. They provide the most economical form of insurance to be had. The coupon above is for your convenience.
