Too Many Fires

Starret; book of portfolio-Mrs. W.

The threshing season of 1930 has been most disastrous since the inception of the Pire Marshal Office in respect to fires caused to farmers' barns and dwellings through threshing operations. Between Aug. 1st and Sept 10th reports were received of 23 separaate fires resulting in the destruction of six dwellings and 27 barns with a large number of small outbuildings, involving a loss of approximately \$225,000 of which about \$125,000 was recovered from fire insurance; the balance of \$100,000 represents actual loss to the farmers whose property was destroyed Most of the fires arose within the separator or the blower pipe. The Pire Marshall intends to request the passing of an enactment to ensure greater safety in this regard. For the purpose of considering this legislation, a meeting will be held on Priday, Oct. 10th at 10 a.m. in Room 340, Main Parliament Bldgs, when all interested parties are invited to attend

Winter Wheat Experiments A total of more than 300 varieties of winter wheat consisting of hybrids and plant selected strains have been under test at the Ontario Agricultural College for a period of five years or more. Dawson's Golden Chaff and O.A.C. and the O.A.C. No. 104 still continue to be the two leading varieties of win-ter wheat under test at Guelph. In the average of the last eleven years the mawson's Golden Chaff (O.A.C. 61) produced a yield per acre of 65.4 bushels per annum and the O.A.C. No. 104 of 63 bushels of grain per acre per annum. The highest yielding variety of red-grained winter wheat in the experiments which was the Imperial Amber (O.A.C. 92), produced an average yield of 57.2 bushels per acre. The Dawson's Golden Chaff and O. A. C. No. 104 varieties of winter wheat are grown on more than 80 per cent. of the winter wheat land of the province. Canadian Medical Assoc. Georgina Elizabeth Thompson, late of the Town of Georgetown, in the County of Halton, widow, deceased. TOXOID AND DIPHTHERIA

Georgetown, Ontario, Solicitor for the said Executor

WHY IS IT?

Why do clients of many years standing continue to send us their troublesome collections? Why is the volume of business we handle increasing so rapidly? Because für service is eminently satisfactory and our rates reasonable.
