Where the Title becomes good on the First Payment

THIS is an age of installment buying. Furniture, homes, motors—even clothing—is being bought on time. If income stops for any reason and funds are insufficient to meet payments, the home or motor or furniture is forfeited, and the money already paid is lost. Life insurance is merely buying an estate on a yearly payment plan. BUT... Life insurance is the only form of property upon which unpaid balances are cancelled by death, and the property transferred, unencumbered, to the heirs.

TO-MORROW

He was going to be all that a mortal could be. To-morrow. No one should be kinder or braver than he. To-morrow. A friend who was troubled and weary he knew. With a glad of a lift, and who needed it too. On him he would call, and see what he could do. To-morrow.

Each morning he stacked up the letters he'd write. To-morrow. And he thought of the folks he would fill with delight. To-morrow. But oh, he was busy, or weary to-day. And hadn't a minute to spend on his way.

More time I'll have to give others, he'd say. To-morrow.

The greatest of helpers this man would have been. To-morrow. The world would have known him, if ever he'd done. To-morrow. But the fact is he died and faded from view. And still that he left here when living was through. Was a mountain of things he intended to do. To-morrow.

—By Edgar A. Guest.

CANCER

There are diseases, like diphtheria, which are such that we can deal with them effectively. There are others, however, which are so insidious and so fatal, but which is still sufficient to enable us to do a great deal in the way of prevention or cure, as in the case of tuberculosis. In fact, there are, in addition, diseases such as cancer, about which we know comparatively little, but which, nevertheless, we know is so important that we would be able greatly to lessen the ravages of this disease if our knowledge of its even the limited knowledge we have.

The cause of cancer is unknown. The disease cannot be cured once it has passed the early stages. The important thing for us to understand is that, if properly treated in its early stages, before it has had a chance to spread from its original location, cancer can be cured.

A tumour is any lump or growth in the body. There are some tumours which are harmless or benign. These benign tumours may be of an enormous size, but they do not spread and destroy life. The other class is that of malignant tumours. A cancer is a malignant tumour. Malignant tumours grow and spread, and they eventually destroy life.

The specific cause of cancer results in the formation of a cancer is unknown. The disease is not inherited. Cancer is not contagious.

We do know that there are some conditions which act as contributing factors in the formation of cancer. These should be known to all so that they may be avoided, in order to escape the disease.

Chronic irritation seems to play a definite part in cancer. Repeated irritation of the lip, mouth or tongue by a hot or rough stimulus may be followed by cancer. The disease is found to occur at the corvix or neck of the uterus when the part is chronically irritated as the result of a tear which was not properly repaired at the time of childbirth. Cancer of the mouth follows the chronic irritation caused by broken teeth or by ill-fitting dental plates.

Such chronic irritation is a predisposing factor, although cancer does not always follow such irritation. It is the part of wisdom to pay careful attention to correct all such cause of chronic irritation.

Any growth or swelling, any unusual discharge from the body, any sore which does not readily heal, any change in the size or appearance of moles, and any inflammation, should be promptly looked into. It is by prompt attention to such conditions that it may be possible to have an early cancer cure. Delay in securing treatment is always dangerous, and it may mean that life itself may be lost through procrastination.

Questions concerning health, addressed to the Canadian Medical Association, 154 College Street, Toronto, will be answered personally by letter.

"DELICIOUS TASTIES"
UNUSUAL PINKAPPLE DISHES
By Betty Barclay

Some day when you are at a loss what to serve as a tasty bite or surprise for the family or your guests, try either one of the following recipes. Another day, the second, try the other. You will find them both very excellent:

Walrus Lamb Salad
Cut 2 cups cold cooked lamb and 1 cup celery into fine pieces. Mix with 1 cup drained crushed pineapple. Season with salt, mixed enough mayonnaise and 1 teaspoon pepper. Pack into a bread pan and bake 45 minutes in a moderate oven (400 degrees F.). Serve hot or cold.

Pineapple Meat Loaf
Mix thoroughly in the bowl 1 pound of finely chopped pork, 1 lb. chopped beef, 1 cup drained crushed pineapple, 3 cups rolled cracker crumbs. Break in 1 egg. Work in 3 tablespoons salt and 1 teaspoon pepper. Pack into a bread pan and bake 45 minutes in a moderate oven (400 degrees F.). Serve hot or cold.

Apple Sauce Fuddling
1 junket tablet
1 tablespoon cold water
1 cup thick apple sauce
1 pint milk
3 tablespoons sugar
1 teaspoon vanilla (or other flavoring)

Season the apple sauce to taste with cinnamon or nutmeg and divide it among 8 dessert glasses. Prepare the junket according to directions on the package. Pour carefully at once over the apple sauce. Let stand undisturbed in a warm room until set—about 10 minutes. Then chill.

Bran Muffins
1/2 cup flour
1/2 teaspoon salt
1 cup bran
1/2 cup orange juice
1/2 teaspoon soda
1 1/2 tablespoons molasses
2 tablespoons melted butter

Sift flour and salt; add bran, orange juice (in which soda has been dissolved) and stirred dressing to bran; mix thoroughly and melted butter. Beat vigorously, and pour quickly into hot, buttered gem-pans, and bake in a hot oven.

Fruit Milk Sherbet
3 lemons
1 cup sugar
2 small bananas
1/4 peaches
3 cups milk
1 cup chopped nuts

Squeeze the lemons and strain juice into the sugar; add other fruit pulp, rubed through a sieve; add the milk and nuts, and freeze as usual. Serve with food Orange Sauce.

Here and There

Officially closing the 1930 shipping season as far as the harbor of Quebec terminus ships are concerned, Canadian Pacific liner Empress of Australia, under the command of Captain November 21, carrying back from the Imperial Conference Premier Ferguson of Ontario, Hon. Hush Gushie, Minister of Justice; Hon. C. H. Caban, Secretary of State and Hon. Thomas Chaplin, Canadian delegate to the League of Nations.

Dressed poultry shows are being held in Regina on December 10th and in Saskatoon on December 11th for the purpose of arousing friendly competition in poultry production among the farmers of the province and the city. The show is the property of the industry, according to W. Waldron, provincial markets commissioner.

Mr. Waldron said that money prizes and special awards are to be given at these shows.

Little Julian Vebos, of Prince ton, B.C., six years of age, has accepted of his parents the gift of his 2 1/2-year-old sister, Marie, and his 11-month-old brother, Mat, across the Atlantic to the children of Mrs. Hoor Montcalm, while their father's truck back to his wife's home in the mountains. The children were turned over to their grandmother at Cherbouurg and will be taken to Prague, Czechoslovakia.

Headed by the Rt. Rev. Andrew Ingraham, Bishop of Man. P.E. Cibus, our prelates and sisters, composing the largest diocesan party to leave Canada for the mission of the Holy Spirit in Asia. They will join missions of St. Francis and Manchuria as well as China.

That the British and American people should assist the Kuomintang National Government in the continuation of its difficult task of driving China together is the opinion of Col. Haley Hall, D.S.O., British Customs Commissioner, late of Mentain, interviewed recently while en route to London, England, by Canadian Pacific Railway. "The British military power and general ability are to be found in this Southern Government, and only when China is reorganized will business conditions become stabilized," he added.

It is just 25 years since the provinces of Alberta and Saskatchewan were created. At that time the population of Alberta was 185,000. It is now about 650,000. Saskatchewan in 1905 had a population of about 195,000; now it is about 850,000. Total area of land under cultivation in Alberta, 25 years ago, was 560,000 acres, and in Saskatchewan, 3,000,000. To-day the two provinces have 15,000,000 and 30,000,000 acres under crop, respectively.

STRONG POSITION SHOWN BY BANK OF MONTREAL IN ANNUAL STATEMENT

Striking evidence of the soundness of underlying conditions in Canada is afforded by the strong statement of the Bank of Montreal for the fiscal year ended October 31st. Owing to its important position of the premier bank is always looked for with a great deal of interest. Undoubtedly this will be more particularly the case this year on account of the complicated economic conditions that have prevailed throughout the world.

On this account there will be special satisfaction that the Bank has been able to maintain its usual strong position. As was to be expected, under the conditions, the total volume of business is down from the previous year. On the other hand, there has been a gain in several of the principal departments during the past six months. This would seem to indicate more favorable conditions and will be regarded as reassuring to the business interests of the country. Of special interest to the many shareholders will be a profit and loss statement showing that profits for the year have been ample not only to provide for the usual dividends and bonus, but also to allow of an appropriation of \$500,000 for premises and carrying forward of a comfortable balance to profit and

WORK

To thy work, heart that aches,
To thy soul's best work,
Let not the bitter hour
Slash with its grim dirk.

Unto thy toll; and if the world
Want not thy voice to-day
Owe not this hour will come,
Love is not waste away.

Art that grows from love
Of beauty, life's high dream,
Will not utterly vanish out,
As we drift on a stream.

Not one sunbeam is lost
Though it vanish in a cave,
And He, great Master of Mystery
Will redeem the gift he gave.
