

"— and now he eats breakfast"

"Junior did worry me. It was hard to get him to eat any breakfast until I gave him Shredded Wheat—and now he cannot get down to breakfast quick enough. He likes the crisp, crunchy shreds of baked whole wheat with plenty of milk over them. He is especially fond of Shredded Wheat with hot milk on cold mornings."

LET'S
Let's praise each other now and then.
Give credit when it's due.
Let's side with good and honest men
Of whatever hue;
Let's help the down-and-out again
To tackle life anew.
Let's be as friendly as we can
And rich and poor;
Let's rally round the helpless man
Who's lying in life's ditch;
Let's make the most of our brief span,
And never play with pitch.
Let's fill our homes with songs and glee
And banish snarl and frown;
Let's take the youngsters on our knee
And ride to London Town;
Let's teach them from their infancy
That right's the best renown.
Let's pay the debts of love we owe.
Forget the debts of hate;
Let's share the goodly gifts that grow
And pile the empty plate;
Let's all do all the good we know
Before it is too late.

WHY WEEDS ARE HARD TO KILL

Each kind of weed has a life history of its own, and the reason why one is hard to kill may not be the chief reason why another persists. Some of the principal reasons though are the following:
1. They are naturally adapted for life in gardens, fields, and the surroundings of a man. They might be easy to kill, or they might be hard to keep alive. In the unnatural environment of our field and gardens. Most of our weeds have come from older lands where they have held their own against man for ages. In just such an environment. Often times the crops they grow with are less hardy and aggressive than they are, and can only survive and thrive as they are cared for by the farmer, while the weeds only need to be left alone to win out in the race for light, space, water and plant food.

2. An immense quantity of seed is produced by some weeds, especially by annuals and biennials, the resulting pollution of the soil requiring years of cleaning, even if no more plants are allowed to go to seed.
3. Many species have vigorous perennial root systems (bitulas, dandelions, etc.) which renew growth until repeated destruction of the tops at every fresh appearance, starves them.
4. Many weeds have ingenious means of escape, such as the "tumble weed" form of growth, etc. for the wide dispersal of their seed.
5. Sometimes weeds persist for the simple reason that farmers will keep on re-seeding their land with crop seeds containing weed seeds rather than pay a little more for pure seed.
6. Weeds may seem harder to kill than they really are, because we half-kill them, forget about them until they have become troublesome again.
7. Eternal vigilance is the price of safety.
8. Weed control is sometimes rendered difficult because neighbours neglect to do their share, and the cost of full control is increased. Co-operation is needed.

VICTORY IN DEFEAT

Defeat may serve as well as victory To shake the soul and let the glory out. When the great oak is straining in the wind, The boughs drink in new beauty, and the trunk Sends down a deeper root on the windward side. Only the soul that knows the mighty grief Can know the mighty rapture. Sorrows come To stretch out spaces in the heart for joy.

LET US SERVE YOU BY TELLING THE PEOPLE WHAT YOU HAVE TO SELL BY ADVERTISING

What is a Bargain?

In this community are hundreds of individuals and families on the watch for an advertisement which will offer them what they want at an advantageous price.

Call them bargain hunters if you will, but thrifty shoppers would be a better designation. Thrift is a commendable trait and merchants should cater to it.

One family wants a new carpet—the need is not urgent. Another family is looking forward to buying dining-room furniture—it may not be for a twelve month.

One man is thinking of buying himself a watch. One woman a shopping bag; another an umbrella.

All can be made to buy earlier—by advertising. Advertising can make the desire so keen that the bargain is forgotten in the fever for immediate possession.

A NOTE TO MERCHANTS

Stimulate business by the offer of some slow-moving lines at special prices. Brighten up business by advertising some desirable goods at reduced prices. Make advertising banish dull business. Often you can tempt the buyer who is biding his or her time, to buy from you—at a time of your naming.
