

When Economy is a Prime Consideration

NATURALLY, economy is an important thing to consider in deciding what car the family should buy. And from this standpoint, the Chevrolet Six is a very practical and satisfying choice. New low prices make Chevrolet's six-cylinder smoothness and 50-horsepower performance available to new thousands of motor car buyers. And due to its low cost for gasoline and oil, its long life and freedom from repairs — The Chevrolet Six will serve you economically for tens of thousands of miles.

Chevrolet's policy has always been one of service to the public... The G M A C plan of deferred payments offers the lowest financing charges available... and the General Motors Owner Service Policy pledges lasting satisfaction.
