

'How did you get breakfast so quickly?'

'Why, I'm serving Shredded Wheat, of course. I just take the biscuits from the package and serve them with cream or milk; sometimes I add fresh stewed fruits. If you'd like a hot breakfast I can prepare it in a jiffy; Shredded Wheat crisped in the oven while I heat some milk to pour over it. Oh, I'm a friend of Shredded Wheat! It's ready cooked, ready to serve, and it's just as delicious and nourishing for lunch as for breakfast.'

AS LIFE GROWS OLD

As life grows old the more we know we are not meant to worry so. For all the hours of care and fret have never made things better yet. And half the ills we think about But turned the bend and left us out. As we grow old the more we feel The Master hand upon the wheel. Whose charge and compass guiding true, ... By Edna Kennedy Brown

MY DOG

I have a friend within whose lustrous eyes I see a wealth of love and wondrous wisdom lies. He asks no need but to be at my side, To share with me whatever may befall. We understand without a disclosure He just believes in me, for he's my dog. Some say this friendship's but an earthly whim, That when he leaves this world I'm through with him. I can't accept their creed, nor do I try To think a love like ours could ever die; The thought of it would all my bliss befall. That I should go to Heaven, without my dog, - By Willis Hoey, in 'Animal Life'

News and Information For the Busy Farmer

Free Trees for Farmers The Ontario Department of Forestry is again distributing free trees to farmers of the province as follows: First-up to 3,500 white pine, red pine, jack pine, Scotch pine, white spruce, white cedar, carolina poplar, white willow, walnut, butternut, elm, white ash, soft maple, hard maple or red oak, may be obtained free of charge for reforestation either in a present bush or for a new plantation on waste or poor land. Second-up to 500 white spruce, Norway spruce or white cedar for windbreak-planting. The only expense to the farmer is the express on the trees. This is not a large sum as the trees are small. Application forms, directions for planting etc. can be obtained by writing your local Department of Agriculture.

Weekly Crop Report Some districts in Ontario have received benefits from the recent thaw as far as the water supply goes but this does not apply to Eastern Ontario where heavy snowfalls have occurred. Dufferin reports a recent horse show with only fair prices obtaining \$150, being the top for a good draft. The former situation in Essex is reversed with many inquiries coming in for farms to rent, while many other farms were idle. Some farmers plan to plant between 50 to 100 acres in corn this year. A keen demand for seed-cleaning services is noted in Hastings county. In Leeds a heavy increase in alfalfa acreage for this year is forecast. Rumors that canneries in Lennox and Addington would not operate this year were stopped by the factories sending out contracts to their patrons last week. Some farmers are enquiring for additional help. Over 100 new cows were entered this month in the cow testing work in Peel county, making a total of nearly 900. Six carloads of seed oats were shipped last week from Renfrew county.

The alarming increase in the number of fires in Western Ontario during the threshing season of 1930 caused considerable discussion at a casual conference of threshermen. The consensus of opinion was that if smoking about the threshing machines and barns were stopped, there would not be need for much legislation regarding the matter. It was recommended that a chain or wire from the separator to the ground to carry off the static electricity would be a measure of protection.

Will Aid Grape Growers Following a conference of the Legislative Agricultural Committee with Niagara and Essex growers, an announcement has been made by Hon. Thomas L. Kennedy that as an aid to the grape-growing industry the Department will take immediate steps to 'go after and get' satisfactory markets for Ontario grapes in Eastern and Western Canada. It is the plan to have representatives located at strategic points who would maintain close contact with the grape growers here in matters of prices, sales, shipments etc. The growers felt that they could sell four times more grapes in Ontario than at present, by means of newspaper and radio advertising and general co-operation by the Department.

Cleanliness is important. Cleanliness is the best safeguard we can give the newly-born calf. Until recently the calves have been arriving on the pasture where nature makes things clean. Troubles are seldom encountered under these conditions. But now the calves will be arriving in the stable. A clean stall is the preferable place. It is a good precaution to disinfect the stall immediately as much trouble arises by this source. Given a good stall the calf should do well on good feed—if the feed pails are kept clean. Dirty feed pails are the harbinger of the average stable and the cause of more digestive disorders than all other causes combined. Where the farmer will take the trouble to not only wash but scald the calf pails once daily he will miss a lot of tribulation in calf rearing.

How They Do It The following observations were made regarding the prize-winners in a recent milk-per-acre competition conducted by Western Ontario dairymen. They all market the milk at the factory the year around; all raise and feed a large number of hogs to utilize the whey; all have fine flocks of poultry; all four farms are heavily stocked; but the land produces all the hay, straw andilage used; all four dairymen grain the cows the year around and plan on silage for summer feeding as well as winter; all have water before the cows; all top dress their meadows; all use alfalfa-clover, blue and timothy when seeding down; three out of four use pure-bred hogs; two out of four use milking machines; and the results bear testimony to the fact that all are good farmers.

Over the Telephone Man's voice: "Are you the lady that washes?" Woman's voice: "No." Man's voice: "You dirty thing. Good-bye."

Glenwilliams Cemetery

In presenting this report the Board of Trustees wish to thank all who have given so liberally of their time and money in bringing this undertaking to its present state of progress and asks their continued co-operation that the work may be completed in 1931. Plot owners who have not already contributed to the Trust Fund are urged to do so and ensure perpetual care of their plots \$40.00 per plot is the basis on which we are working. Money is needed in our current account which is now overdrawn \$125.00. This account has to do with the levelling and putting the cemetery in shape.

TRUST ACCOUNT Receipts: Subscriptions \$1225.00, Sale of Plots 20.00, Bank interest 10.45, Total \$1255.45. Disbursements: Transferred to Toronto General Trusts \$1000.00, Bank charges 22.00, Cash in bank 254.23, Total \$1255.45.

Business Summary The following brief business summary of Ontario and the Prairie Provinces was published by the Bank of Montreal last week: ONTARIO—Retail trade at country points is somewhat quiet, while private inventory sales in larger centres, although accompanied by sharp price reductions, have met with only fair response. The volume of wholesale trade is down from last year, but with generally low inventories indications of improvement are not lacking. Collections are slow to fair. Automobile and accessory parts are operating below the level of last year, but production is seasonally increasing. Manufacturers of furniture report a fall volume of orders, received at the annual furniture exhibitions in Toronto. The steel industry shows a slight improvement, partly as a result of a reduction of special work undertaken to relieve unemployment; electrical plants are well occupied. Knitting Mills are operating at capacity; woolen and hosiery mills are busy. There is little demand for lumber. The domestic milling trade is normal. Export demand is lacking. Manufacturers of boots and shoes are operating at under 50 per cent capacity.

PRAIRIE PROVINCES—With the exception of sales of foodstuffs which are being fairly well maintained, business generally is dull. Collections, other than for current purchases, are difficult. Cash wheat on the 20th inst. closed at 67¢. The market is firm under the influence of improved export demand and narrowing spreads between our prices and those of other exporting countries. Canada exported \$48,000,000 bus. of wheat between August 1st, 1930, and January 31st, 1931, compared with \$60,000,000 bus. for the corresponding period of the previous year. The livestock market is weak, choice steers being \$4.50 compared with \$10.50 a year ago. Select bacon hogs bring \$7 plus \$1 per head premium, against \$12.50 plus \$1 per head premium a year ago. The winter has been exceptionally mild and livestock has wintered well. Some grain in Northern Alberta has not been harvested last year is now being cut and threshed, and land cultivation is proceeding in the south of the Province. Deliveries to Alberta creameries increased 75% during 1930. Building permits issued in January totaled \$113,000 as compared with \$70,000 for the corresponding period of last year.

THE BEST OF ALL "There is so little to give Dad on his birthday. He has everything," thought Mona. "Perhaps he'd like something different this year—something that I alone can give." And she went to the telephone. Her voice over Long Distance was the most cherished remembrance she could send.

Application to Parliament Town of Georgetown

NOTICE is hereby given that the Corporation of the Town of Georgetown intends to apply to the Legislature of the Province of Ontario at the next session thereof for an Act of Parliament for the following purposes: To consolidate a floating indebtedness of \$22,000.00 of the said Corporation and to authorize the Corporation to provide by By-law to be passed without submitting the same to the taxpayers authorized to vote on money by-law, for borrowing upon debentures of the said Corporation the said sum of \$22,000.00 to pay off the present floating debt of the Corporation.

The amount of rateable property of the Municipality is \$1,407,579.41. The Corporation of the Town of Georgetown. By LAWSON and STRATTON, Solicitors for the Corporation. Dated at the Town of Georgetown, this 14th day of February, 1931.
