

"How do you get him to chew his food?"

"I give him Shredded Wheat and it's so crisp he has to chew it—the more he chews it the better he likes it and the more nutriment he gets out of it. Many children bolt down their food without chewing—that means imperfect digestion, poor teeth and unhealthy gums. Shredded Wheat with milk makes a perfect food for growing children, and it's perfectly delicious with bananas or stewed fruit."

Buyers - - Read

That prices are low and that means bargains. Wise merchants with stocks on hand want to convert them into cash and are looking for buyers.

Newspaper advertising points the way to both—when the buyer and seller have a message of common interest. The great news of the day and the unprecedented bargains for the thrifty. It means great savings for the buyer and a cleaning of the shelves for the seller. It is time to buy and time to advertise bargains to the buyer.

The Georgetown Herald For Bargain News

A PRAYER OF A SPORTSMAN

Dear Lord, in the battle that goes on through life I ask but a field that is fair. A chance that is equal with all in the strife. A courage to give and to dare; And if I should win, let it be by the sword. With my faith and my honor held high; And if I should lose, let me stand by the road. And cheer as the winners go by! And cheer as the winners go by! And cheer as the winners go by! And cheer as the winners go by!

News and Information For the Busy Farmer

Ontario farmers annually lose hundreds of dollars from parasites in sheep and hogs. Dr. L. S. Stevenson has made a special study of the problem and has written several bulletins, copies of which can be obtained from your local Department of Agriculture.

Free Seed One of the great vital forces responsible for success in agriculture is good seed, declares the Ontario Agricultural and Experimental Union, in announcing that it is preparing a year to distribute to farmers free of charge, into every township, county and district of Ontario, selected samples of the best varieties of field crops. Any farmer can obtain a list giving the details of this seed distribution for best purposes from his local agricultural representative. Included in the list are seeds for grain crops, root crops, culinary crops, vegetable experiments and a number of miscellaneous experiments.

Renewed War on Corn Borer The need for renewed warfare on the corn borer was emphasized at the annual convention of corn inspectors of Western Ontario at London, when Prof. L. Caesar, provincial entomologist, led the discussion and issued instructions to the inspectors. Large corn producing counties of Western Ontario are faced with the possibility of another serious corn borer epidemic as a result of the prolonged drought. Unless much stubble plowing is done by farmers and inspectors give careful surveillance, serious damage to corn fields may result. The new situation is unusual because of the pronounced drought last summer. Corn stubble became dry. The corn borer did not find the dry stubble to his liking and instead of spending the winter in the stalk about an inch above the ground as usual, it went deeper into the root system of the plant. This plan would not be effective under the new condition and a campaign is being started to have all stubble plowed under before the end of the May, despite the manner in which the corn was cut.

Better seed pays big dividends in crop improvement. Production may be increased from 10 to 14 pounds per bushel and from 10 to 14 bushels per acre by sowing only large plump seed. The farmer will find it a paying proposition to get the old farming mill out of the store-house, fit it up properly with screens and make a genuine clean-up of seed this spring.

Interesting Swine Course Despite a heavy snowstorm which made roads almost impassable, approximately sixty young men were in attendance at the special swine course held under auspices of the Council of Canadian Meat Packers and Provincial and Federal Departments of Agriculture at Montreal and 11th. It was voted the most successful course yet held in Eastern Ontario. The program consisted of lectures and demonstrations on types of live hogs and dressed carcasses and animal parasites, as well as of live hogs and dressed carcasses. The following counties were represented in the gathering: Chatham, Glengarry, Grenville, Dundas, Renfrew, Lanark, Lennox and Addington, Prescott and Russell, Leeds and Frontenac.

An Advisory Committee Immediately after the present legislative session, the Government will appoint an advisory board to aid Hon. J. L. Kennedy, minister of Agriculture, in the administration of departmental affairs and in solving the present-day farm problems. It will probably comprise three members—one representative of the dairy industry; a second from the cattle, hog and sheep industries; and a third from the poultry-raising interests. It will be absolutely non-political in composition and scope. The members will receive fair remuneration for their time, as well as travelling expenses.

Weekly Crop Report There is a general feeling throughout the province that the recent heavy snowfall has been of inestimable value according to the weekly report of agricultural representatives in various counties. Fields are well covered and prospects are most optimistic regarding the condition of wheat and clover stands. Orchards in Dundas have been receiving attention with some pruning already done. In Frontenac the number of sows farrowing this year shows an increase of about 100 per cent. over last spring. Excepting for the syrup industry, few preparations have been made for spring work in Glengarry. Increased interest in certified seed is manifest in Grenville. In spite of bad roads, the soils and crops meetings in Baldwinsville are being very well attended. Farmers in Huron are indicating increased interest in better seed and fanning mills are being put in shape for screening work. In Middlesex, orchard pruning work has been general, while breeding stations in Welland report heavy orders for good quality hatching eggs.

THE WORRY ENDS "I can't seem to see my way out," said Will Sloan to his wife. "If I could only get some sound advice, his wife suggested his brother, who lived in a distant city. "You could telephone him, Will. He is sure to help you." Will hadn't thought of that. He did—and how grateful he was to Long Distance! His brother solved the problem.

CORRESPONDENCE

IN THE EARLY DAYS

Georgetown, Mar. 18th, 1931. Editor Herald: I am pleased to report that I am on the "Credit" line yet and with regret I leave Norval, even if it is not on "Credit" hills. My native home in Scotland, I felt that I did not do it for its people justice. Some of its people, the noted artist, J. W. L. Forster, was born on a farm close by another noted person, who is there yet, L. M. Montgomery. (Mrs. Rev. McDonald, an ancestor). Another character of the early days, the one that the place was first called after, Nicholas. Now this person offered a prayer that I am sure was heard and more talked about than many prayers presented by any minister. The occasion was this: The most of the first settlers were Irish and Scotch and his idea was to have everything done in order, and in its proper place. So the petition was that the Irish might be heavers of wood and drawers of water for his own folk the godly Scotch. There was of course a penalty for disobedience, but not to be too hard on them whatever way it happened, we find the two townships Erin and Chatham laid out for them side by side, a fine arrangement, for better or for ill, neighbors never lived, I can certify to that. I must stick to the Credit and leave Norval and the West Branch of the Credit. I may take a run up it later. For Georgetown, I am giving you the names of people and conditions in 1850—as a village in the township of Erin, the Indian name was called Georgetown after possibly the first settler, George Kennedy, it is distant from Toronto, at the stage fare, 5 shillings (\$1.00); from Hamilton, 35 miles, 8 shillings and 6 pence; population about 650. Now for the people: —Balsam Hotel and stage house, Robt. Watson, prop. —Barr Bros., women manufacturers iron foundries, machinists and saw mill prop. —Barclay, P., general merchant. —Dayfoot, P. W., tanner and wholesale boot and shoe manufacturer. —Georgetown Hotel, Randall, Campbell, proprietor. —Kennedy, George, saw mill. —Levens, Elias, saddler, harness maker. —Sumpster, John, general merchant and postmaster. —Young James, town reeve, general merchant and insurance agent. —Anderson, W., boots and shoes. —Berwick, Geo., boots and shoes. —Cherry, L., blacksmith. —Elliott, W., carpenter. —Grussey, H., mason. —Henderson, L., boots and shoes. —Herald, Geo., M. D. —Kennedy, Rev. M., Episcopal Methodist. —Malloy, H., blacksmith. —Marshall, I., tailor. —McCullough, H., saw mill. —Mellan, Mrs., milliner. —McKenzie, Mrs., milliner. —McNamara, J., mason. —Travis, Elias, cabinet maker. —VanAllen, Joe, tailor. —Watson, Jas., mason. —Webster, H. R., tanner. All for this time. Major Grant.

Sure Enough An Emporia man's car struck the rear of a car driven by the said "Didn't you see me stick out my hand?" the woman asked. "No, I did not," he replied. "Well, if it'd been my leg, you'd have seen it," she replied and drove away.

Here and There

The lobster season along the Nova Scotia coast is now in full swing. It is estimated that at least 400 fishermen are engaged in the industry and that the number of traps will likely reach 300,000 or more.

The dining saloon of the new 42,500-ton Empress of Britain, known as "Salle Jacques Cartier," is the largest unpartitioned room on the five oceans. It was decorated by Frank Brangwyn, R.A.

As a tourist centre Cape Breton enjoyed one of the best seasons in its history during 1930. During the year 346 automobiles were handled across the Strait of Canso as compared with 2,657 for the previous year.

Vancouver will have the honor of welcoming a reigning monarch when King Ferdinand of Spain, and his consort, Queen Raimbaldi, arrive there April 17, aboard Canadian Pacific liner Empress of Japan.

One of the largest and most courageous engineering undertakings on the continent is proceeding at the Abitibi canyon, Abitibi River, near Cochrane, Northern Ontario, where a plant is being built to generate 25,000 horse-power at a cost of over \$20,000,000.

British steel (Canadian produce) has the largest installed on massive shafts installed at Saint John recently for shipment over Canadian Pacific Railway for use in hydro-electric development plants at Beauharais, Quebec, and in the valley of the Ottawa River.

France should prove an excellent market for Canadian wheat since the harvest in France is expected to be regulated by purchases of wheat from Central European countries, said Canadian minister of agriculture, interviewed at the Windsor Station, Montreal, as he was to present credentials at Ottawa.

Relayed to twenty-two stations between Quebec City and Victoria by Canadian Pacific Telegraphs the speech of the Prince of Wales, opening the British Empire air line to Buenos Aires, was clearly heard across the Dominion. The broadcast was broadcast in Canada direct from Buenos Aires by the short wave beam system of the Canadian Marconi Company.

What the Ice Age looked like, millions of years ago, is exactly pictured in the great Columbia ice field, extending for hundreds of miles in the Rockies, and easily traceable from Lake Louise and Wapiti Lake, in a recent lecture entitled, "On Horvack to the Glacial Age." The field extends in the form of glaciers to three sides from which mighty rivers run to the Arctic, Pacific and Atlantic oceans.

Application to Parliament

Town of Georgetown

NOTICE is hereby given that the Corporation of the Town of Georgetown intends to apply to the Legislature of the Province of Ontario at the next session thereof for an Act of Parliament for the following purposes: To consolidate a floating indebtedness of \$22,000.00 of the said Corporation and to authorize the Corporation to provide by By-law, to be passed without submitting the same to the taxpayers authorized to vote on money by-law for borrowing upon debentures of the said Corporation the said sum of \$22,000.00 to pay off the present floating debt of the Corporation. The existing debt of the Corporation is as follows: Debentures issued for general purposes \$22,143.28 Debentures issued for school purposes 18,183.87 Debentures issued for local improvements 59,757.89 Debentures issued for waterworks purposes 87,866.50 Debentures issued for hydro-electric purposes 12,882.74 Debentures issued in respect of bonded industries 36,834.12

The amount of rateable property of the Municipality of the City of Toronto, The Corporation of the Town of Georgetown, By LAWSON and STRATTON, its Solicitors herein. Dated at the Town of Georgetown, this 14th day of February, 1931.

Town of Georgetown

NOTICE OF REGISTRATION OF BY-LAW

Notice is hereby given that a by-law (No. 90A) was passed by the Municipal Council of the Corporation of the Town of Georgetown on the 3rd day of March, 1931, to borrow the sum of Eight Thousand Five Hundred Dollars (\$8500.00) upon debentures to pay for permanent improvements to the Public School, consisting of the erection of new class room and new lavatories, and that such by-law was registered in the Registry Office at 11:00 a.m. Eastern Standard Time on the 5th day of March, 1931. Any notice to quash or set aside the same or any part thereof must be made within three months after the date of the first publication of this notice, and cannot be made thereafter. DATED and first published this 11th day of March, 1931.
