"Oh, I learned that secret when I discovered Shredded Wheat. It's the whole wheat, you know, and has iron for making red blood and all the elements for building healthy tissue and bone. And by the way, it's ready-cooked and ever so easy to serve for breakfast or lunch. I just pour milk or cream over the biscuits. On cold mornings I heat the milk -it makes a most delicious hot cereal, and with... fruit it's a treat at any time."

A Valuable Booklet Prepared in the hope that it will reate a keener appreciation of firstclass beef on the part of Canadian consumers, a booklet on "Beef-How to choose and cook ft," has been issued by the Department of Agriculture at Ottawa. The booklet covers in a orief but clear manner such subjects as the food value of beef, selection and care, and the relationship of the nigher-priced to the lower-priced cuts More than half the booklet is devoted to practical suggestions on how best to cook beef and the last few pages contain many excellent recipes. Beef grading and its value in protecting the consumer and stimulating the producer are thoroughly explained and the booklet should prove helpful to Canadian housewives and retail meat merchants. Copies can be obtained from either the provincial or federal department of Agriculture or at your local agricultural office.

What is a Bargain?

In this community are hundreds of individuals and families on the watch for an advertisement which will offer them what they want at an advantageous price.

¶ Call them bargain hunters if you will, but thrifty shoppers would be a better designation. Thrift is a commendable trait and merchants should cater to it.

I One family wants a new carpet—the need is not urgent. Another family is looking forward to buying dining-room furniture -it may not be for a twelve

One man is thinking of buying himself a watch. One woman a shopping hag; another an umbeella.

I All can be made to buy earlier by advertising: Advertising can make the desire so keen that the bargain is forgotten in the fever for immediate possession.

A NOTE TO MERCHANTS

¶ Stimulate business by the offer of some slow-moving lines at special prices. Brighten up business by advertising some desirable goods at reduced prices. Make advertising banish dull business. Often you can tempt the buyer who is biding his or her time, to buy from you at a time of your naming.
