Safe Driving will save money on your Automobile Insurance

A new plan of Automobile Insurance introduced by two Canadian companies, and now offered to individual motorists in Ontario and Quebec for the first time.

10% REDUCTION for two years' driving without accident

15% REDUCTION for three years' driving without accident

20% REDUCTION for four years' driving without accident

Discount applicable to Public Liability, Property Damage and Collision Premiums.

This new policy, sponsored by the Canadian General and Toronto General Insurance Companies, and introduced now for the first time in Canada, is designed to encourage careful driving, and foster a keen regard for life and property. To that end, it enables every careful motorist to save substantial sums on his premium payments. It offers preferred rates for preferred risks. In other words, it provides for reduced premium rates based on the individual merit of drivers.

With this policy, the careful driver comes into his own. He is no longer classed with reckless motorists—no longer subject to blanket rates which must necessarily include risks of both reckless and careful drivers. Instead, his premium rates are adjusted individually and in accordance with his record of safe and sane driving.

Automobile Insurance is necessary to protect you from financial loss. If you can qualify, you should take advantage of the savings offered by this new policy.
