

How Do You Figure It?

We Mean Your Paint Cost!

Here's an Ad. advertising paint at 49c. a quart. Here's another featuring paint at 69c. a quart. Here's still another at \$1.00 a quart. Still they come at \$1.25 a quart—and higher!

Which should you buy?

You get what you pay for and no more! The lower you go in the price scale the less the performance—the worse the appearance—the harder the application and the greater the uncertainty of good results.

We sell *Low Brothers* Famous LINE OF PAINTS AND VARNISHES

The comparative price of *Low Brothers* Paint is \$1.40 a quart—a price at which both quality and economy are assured. *One Quart of Low Brothers Paint will go as far as two quarts of Cheap and Inferior Paint.* It will hide better—look better—wear longer; brush on easier—and requires much less for a given job.

Square foot coverage and hiding is the measure of economy in paint—not the "price per gallon". If you think you need a quart of Cheap Paint buy just one pint of *Low Brothers Paint and prove for yourself our claim that Low Brothers Paint is at once the cheapest and best paint you can buy.*

One Pint of Low Brothers Paint will go as far as One Quart of Cheap and Inferior Paint.

See Us Before Painting.

If Mahomet Went to the Mountain

If he took it into his head to return to earth, and if he came to Canada, there is no doubt but that the Prophet would go to Mount Robson. For one thing, it is the highest and most majestic peak in the Canadian Rockies and for another, Mount Robson would not likely go to Mahomet. Changes as miraculous as the moving of mountains have come to pass in the world since Mahomet's day, however, and the Prophet would be much impressed by the railway train—"The Confederation" or "The Continental Limited"—which carried him so swiftly and comfortably to his destination.

Canada has many wonders, as five and a half million tourists from the United States found out last year. Greater numbers of travellers are leaving every summer than one of the first to see Mount Robson. This following day, the second will be equal year, the Canadian National Railway

THREE MINUTES

Whatever you tell, if it's worth being told. You can tell in three minutes or less; the more that you spread it the weaker you've said it. Don't spread out your words or digress.

It's pleasant to hear your opinion, perhaps. On something you've seen or you've heard. Three minutes are plenty, you should not take twenty. Let somebody else have a word.

Go on for three minutes and tell what you think. You might make it less—one or two. Although now and then you may need five or ten. Three minutes will usually do.

NOVEL TOMATO DISHES

By Betty Barclay

Those who have a liking for tomatoes will relish the following novel tomato recipes. The touch of sugar in each accentuates the flavor of the tomatoes and adds full value to the dish.

Tomato Jelly
2 tablespoons gelatin
1/2 cup cold water
3/4 cups canned tomatoes
1 tablespoon sugar
celery salt and paprika
Soak gelatin in cold water. Add sugar, celery salt and paprika to tomatoes. Bring to boiling point. Add gelatin. When gelatin is dissolved strain. Pour into a mold and cool in refrigerator. Unmold on lettuce and serve with mayonnaise.

Tomato Savory
Cook two sliced onions with one-half cup diced celery in bacon until both are well done, but one over brown. Add two cups canned tomatoes, two teaspoons sugar, celery salt and pepper to taste. Cook for half an hour. Serve on buttered toast.

CREAM PIES PLEASE

Place a generous helping of cream pie before a hungry male and you may be sure he will approve. Chocolate cream or coconut cream—it makes little difference to him:

Chocolate Cream Pie
3 squares unsweetened chocolate, cut in pieces
2 1/2 cups cold milk
4 tablespoons special cake flour, sifted
1 cup sugar
1/2 teaspoon salt
4 egg yolks, slightly beaten
2 tablespoons butter
2 teaspoons vanilla
1 baked 9-inch pie shell
8 tablespoons sugar
4 egg whites, stiffly beaten
Add chocolate to milk and heat in double boiler. When chocolate is melted, beat with rotary egg beater 1 minute or until mixture is smooth and blended. Combine flour, sugar, and salt. Add to egg yolks. Pour small amount of chocolate mixture over egg mixture, stirring vigorously. Return to double boiler and cook until thickened, stirring constantly. Add butter and vanilla. Cool. Pour into pie shell and cover with meringue made by folding sugar into egg whites. Bake in slow oven (300 degrees F.) 12 minutes or until delicate brown.

Coconut Cream Pie

1-3 cup special cake flour, sifted
1/2 cup sugar
1/2 teaspoon salt
2 cups milk, scalded
2 egg yolks, well beaten
1 cup coconut, southern style
1 teaspoon vanilla
1 baked 9-inch pie shell
4 tablespoons sugar
2 egg whites, stiffly beaten
1/2 teaspoon vanilla
Combine flour, sugar, and salt; add milk. Cook in double boiler until thickened, stirring constantly. Pour small amount of mixture over egg yolks, stirring vigorously. Return to double boiler and cook 10 minutes longer. Add coconut and vanilla. Cool and pour into pie shell. Fold sugar into egg whites; add vanilla. Fill lightly on coconut filling. Bake in slow oven (300 degrees F.) 12 minutes or until delicate brown.

WHY SOME BOYS GO WRONG

(W. G. Silby, in Chicago Journal of Commerce)

"The duty of one generation toward another is to give it a fair start," is an interesting line in an advertisement of an encyclopedia.

What is a good start for an intelligent youth? To be trained in good behavior, which in itself is education; and in fact education is the very foundation of every good start in life. Money does not compare with it in the long run. To give a youth a Bachelor of Arts degree does not cover his education. It helps that's all. There are other things just as important, among them education in the value of money. By this we do not mean planting the seed of selfishness and advice in his mind. They seem to grow wild without cultivation in men. But it is fine education for a boy to know just how much work and self-denial are necessary to earn and save a dollar.

A perfect education for a young man includes such things as industry, courtesy, truthfulness, honesty, self-reliance, desire to learn, good habits and truth about economics and saving, and their results in the long run of his life. They are all taught in a business experience either as an employee or a proprietor. Not one of them is featured in any college curriculum that we have seen. With most fathers, they are classed as incidentals, to be picked up by experience and observation, yet they are immensely important.

One generation owes it to another to train it in all these qualities in the home, and when a boy gets his home education by the time he is 15 or 16 he starts under most advantageous conditions, no matter whether his family is rich or poor.

Behavior is vital to any generation. If it is good, there need be no fear for the boy's future; if bad, he is under a handicap that usually destroys all hope for his ultimate success as a man. The rich man who thinks that putting his sons through the university is going to help the faults they have picked up through their boyhood years because of neglect, or softness, or the unwillingness of himself to give them the fundamental home education referred to above, is due for a great disappointment. Lack of firmness and loving guidance is a great handicap for in college, indeed, the faults that grow in home life generally become stronger with liberal education such as a university course yields.

Without commenting further on the duty of the parental generation we can sum it up briefly in one paragraph. It is to educate their children in the common virtues, while the home influence is dominant. The tendencies of the children are all on the surface. Then is the time to correct them if wrong, and strengthen and establish them if right. The generation that does not do this is likely, when old, to have many sorrows because of the behavior of those they brought into the world and neglected, when neglect was fatal to their future.

CROP REPORT

In every Province in the Dominion conditions have been favorable for spring farming operations and substantial progress in some districts well ahead of average has been made in the preparation of the land and the seeding of the principal crops. In the Prairie Provinces steady progress has been made in agricultural operations and wheat seeding is now 50% to 95% completed with work in Manitoba farthest advanced. The acreage seeded to this cereal is estimated to be about 15% less than last year. Very little coarse grains have as yet been sown. There is sufficient moisture for germination in the Northern areas but more rain is needed in the South. The reserve is very low. Soil drifting has been severe, especially in Saskatchewan. In Quebec Province a large amount of ploughing was done last Autumn and recent much needed rain has resulted in preparatory work being well under way. In Ontario farm land has seldom been in better condition with the result that all spring work is well advanced. In the Maritime Provinces and likewise in British Columbia conditions have also been favorable and seeding in the latter province is about 85% completed. Details follow.

PROVINCE OF ONTARIO

The season in practically all districts of the Province is 10 to 14 days in advance of the average. Very little winter killing of fall wheat is reported and the sowing of spring grains is practically completed in the earlier districts with the blade above ground. A larger acreage of potatoes is being planted and indications are that the production of field corn will also be increased although canning corn will be reduced. Meadows and pastures have wintered well and there is now sufficient moisture in the ground to promote rapid growth under favorable conditions. Prospects for fruit are good at the moment. Tobacco plants have not yet been set out but it is expected a larger acreage will be planted.

Notice of Registration of By-Law

Notice is hereby given that By-law No. 91A was passed by the Municipal Council of the Corporation of Georgetown on the 7th day of April, 1931, authorizing the issue of debentures to the amount of \$22,000.00 for the following purpose: To provide for the consolidation of the floating debt of the Town of Georgetown and that the said By-law was registered in the registry office, for the County of Halton, in Milton on the 22nd day of April, 1931.

Any motion to null or set aside the same or any part thereof must be made within three months after the first publication of this notice and cannot be made thereafter. Dated this 29th day of April, 1931.

F. L. HEATER, Clerk, Corporation of Georgetown.

QUEEN STREET SHOE HOSPITAL

We cater to the fine and dress shoe trade, also to people who are particular about their feet. Our prices have all been regulated and you will find them CORRECT both for best material and workmanship. On Goodyear Welt Shoes, all old styles are picked from the well, and sewn again in the same breaks, as sewing inside of the stitching either damages, loosens or breaks the insole. This is very important. Soles sharpened like new. We also have Golf Stacks. You have a standing invitation to visit this shop any old time.

AN OPPORTUNITY TO HOLDERS OF EARLY MATURING

CANADIAN GOVERNMENT BONDS

TO EXTEND THE TERM OF THEIR INVESTMENT IN

THE PREMIER SECURITY IN CANADA

GOVERNMENT OF THE

DOMINION OF CANADA

1931 CONVERSION LOAN

The Minister of Finance of the Dominion of Canada offers to holders of the undermentioned Dominion issues the privilege of exchanging their bonds into longer dated issues, in the following terms and under the following conditions:

WAR LOAN 5% BONDS MATURING 1st OCTOBER, 1931—Holders of these bonds have the privilege of exchanging into bonds maturing 1st November, 1956, bearing interest from 1st April, 1931. The first coupon will be for six months tax-free interest at the rate of 5% per annum payable 1st October, 1931; the second coupon will be for seven months' interest at the rate of 4 1/2% per annum payable 1st May, 1932; thereafter to maturity interest will be payable half-yearly at 4 1/2% per annum.

RENEWAL LOAN 5 1/2% BONDS MATURING 1st NOVEMBER, 1932—Holders of these bonds have the privilege of exchanging into bonds maturing 1st November, 1957, bearing 4 1/2% interest payable half-yearly from 1st May, 1931. There will also be attached to these bonds three adjustment-coupons payable respectively on 1st November, 1931, and 1st May and November, 1932, for additional interest at the rate of 1% per annum.

VICTORY LOAN 5 1/2% BONDS MATURING 1st NOVEMBER, 1933—Holders of these bonds have the privilege of exchanging into bonds maturing 1st November, 1958, bearing 4 1/2% interest payable half-yearly from 1st May, 1931. The first five interest coupons, being those to and including 1st November, 1933, will be tax-free. There will also be attached to these bonds five tax-free adjustment-coupons payable respectively on 1st November, 1931, and 1st May and November, 1932 and 1933, for additional interest at the rate of 1% per annum.

VICTORY LOAN 5 1/2% BONDS MATURING 1st NOVEMBER, 1934—Holders of these bonds have the privilege of exchanging into bonds maturing 1st November, 1959, bearing 4 1/2% interest payable half-yearly from 1st May, 1931. There will also be attached to these bonds seven adjustment-coupons payable respectively on 1st November, 1931, and 1st May and November, 1932, 1933 and 1934, for additional interest at the rate of 1% per annum.

Conversion applications in the terms of the foregoing are invited to a total of \$250,000,000. The Minister of Finance reserves, however, the right to increase or decrease this amount at his discretion.

Subscriptions will be received and receipts issued by any branch in Canada of any Chartered Bank and by recognized Canadian Bond Dealers and Stock Brokers, from whom may be obtained application forms and copies of the official prospectus containing complete details of the loan. Applications will not be valid on forms other than those printed by the King's Printer.

The subscription lists to the foregoing will open on 11th May, 1931, and will close on or before 23rd May, 1931, at the discretion of the Minister of Finance.

DEPARTMENT OF FINANCE,
Ottawa, 11th May, 1931.
