Experienced drivers of motor cars have learned that there is one rule of the road which cannot be violated without danger to life , and limb., these seasoned drivers always keep in line when the road ahead is obscured.

Hill tops and curves are blind spots on the highway. You can't see what is coming toward you . . . and there's almost always sure to be another car coming around the curve or over the hill. The one safe rule is to stay on your side of the road . . . the right

Every time you take a chance that the road ahead may be clear, you jeopardize your own safety and the approaching motorist may be made an innocent victim of your carelessness . . . surely a heavy price to pay in conscience and cash.

After all you can observe the "Hill and Curve rule" for a whole season without losing as much as sixty minutes' time all told Why not?
