SCIENCE HELPS SPORT Millions of hours have been wasted by spectators at cricket matches when the wicket sodden with rain; took perhaps half a day to recover. In future a new type of electric fan will HAPPENED put an end to all these dreary delays. The new invention, according to an article in Answers, is a box-like arrangement at the end of which is a fan driven by electricity. It is run out to the pitch on a small truck, the fan being connected by cable with the pavilion. The strong current of air-produced will dry the pitch in a

matter of minutes.

Georgetown, Ontario. This 5th day of May, 1931

Town of Georgetown

2 Park 3 Cavanagh Survey Ann S. E. 1924-30 \$92.51 \$56.00

To P. B. Harrison, of the Town of Georgetown in the County of Halton, Province of Ontario. Treasurer of the Town of Georgetown.

By virtue of the authority given to me under Chapter 238 of the revised Statutes of Omtario, 1927, and the amending Acts, and Chapter 91, sixty-second Victoria, Onterio Statutes 1899, I. John Boyd Mackenzie of the Town of Georgetown, in the County of Halton, Mayor of the said Town of Georgetown, do herewith authorise and direct you to levy upon the lands described in the return of lands to be sold for arrears of taxes made by you in duplicate to me, bearing even date herewith, attested by official signature and the seal of the said Town, one copy being returned to you with this my warrant attached thereto, and to sell the said lands or so much thereof as may be sufficient to pay the taxes thereon, together with the fees and impenses chargeable under and by virtue of the aforesaid Act. and amending Acts.

As witness my hand and the seal of the Town of Georgetown, this 5th day of May, 1931.

J. B. MACKENZIR,

Mayor

- - And add this to your profits

T O ONE can deny a man the right to spend his dollar where he chooses. It is his privilege to make his dollar produce the utmost in value. The decision as to where that value is to be found is, whether right or wrong, his to make. A tip on how to make a dollar go farther is permissable, however, and we suggest that you think about this:

The lowest price does not always mean the best buy; in fact in most cases it does not. Comparitive quality and many other things enter into the transaction. But let us take two identical articles—one here at home the other out of town. Let us suppose the out of town price is lower delivered to your door, by 5c or 75c, than the purchase you can make at home. But it is not the most economic buy. That money is gone for good; it will never return to ou, whereas if spent at home -well, here's an illustration:

A shoeman owes a baker \$2.00 and gives him \$1.00 ascharging fifty per cent. of the debt, .The baker owes a farmer \$.00 for potatoes, so he pays the farmer half his debt with the down. The farmer purchases a pair of \$2.00 shoes, paying \$1 down. The shoeman uses the dollar to cancel his debt to the baker the baker to the farmer, and the farmer pays for his shoes. The shoeman has paid his debt, made a sale and still has his orginal apital. So have the baker and farmer. That's community busines. Three persons have made a profit on \$1.00 and it's still in the community to make more. The dollar that goes the farthest is the one that stays at home.
