#### PUBLIC MEETING NOT MUCH PROGRESS MADE TO-WARD BUILDING PAVEMENT

There was only a fair attendance at the public meeting on Tuesday evening, called by Mayor Mackensie for the purpose of discussing the laying of pavement on Church and Charles streets.

The Mayor introduced the subject and also spoke regarding the unemployed who were now registering. He then called on Warden Mason of Acton, who explained the conditions under which the County Council (who evidently control the building of these connecting links in towns if the rebate of 50% is to be secured) would construct the pavement. These conditions were the same as accorded other towns in the county. Engineer Smith also spoke at some

as making any progress towards getting a payement put down this year on Church and Charles streets the result as far as we can see was nill. Councillor Gibbons stated he was opposed to building the pavement, under the conditions as laid down the County Council, as he had been ratepayers for the building of this 20 ft. connecting link to the highway.
