WHAT HAVE WE DONE TO-DAY

We shall do so much in the years to come. But what have we done to-day? We shall give our gold in a princely sum. But what did we give to-day? We shall lift the heart and dry the tear.

The Passing of the Wild Horse

OUT west, in the fastness of the hills and the open of the plains, the wild horse has long been a part of the romance and history of the old west, lending much to its development and color.

PUT THIS IN YOUR PAPER

"Please put this in your paper." This was the message on an envelope which was left at the office. It came from a man who was a few miles out of the city, and it is good enough to put in any paper.

SCIENCE TO THE RESCUE

It is not many years since the Canadian West was considered to be too far north for the profitable production of wheat. This opinion was based on the records of early frosts which caught the grain before maturity.

COFFIN

"While the cuckoo badly bruised Black Forest product," will soon be office continued, "clock-making" region dates back almost a thousand years, into the time of the Thirty Years War.

ERIN

On Sunday morning a small stone floored from the tire of a passing car and broke a large plate glass in the front of R. T. Egan's Grocery.

FREE
