in my keeping.

HIGHEST GRADE OF GOVERN-TMENT SECURITY WILL AT-TRACT AT THIS TIME

It is confidently felt in high financial circles that all the elements required, for success attend the current flotation of a loan for \$150,000,000 by the Dominion of Canada, through the Department of Pinance. That all the money required by the Government to carry on the affairs of the country. rest will be attended to.

Confidence is returning throughout the country after passing through a trying period of two years, during which prices of both commodities and securities sank to abnormally, low levels. There is serene conviction that the decline has run its course and that the tide already started will be running strongly in the other direc- in order once again, and the male tion before a great while.

Evidences of a turn in the tide of business for the better, with an accompanying return of confidence, are to be found on every hand. There has been an appreciable recovery in the prices of some commodities. That in wheat is of paramount interest to Canada at the present time when there is a heavy outflow to overseas markets. This, and a better distribution of merchandise throughout the country, has been indicated in a substantial recovery in the earnings of the country's two great transportation systems. Earnings for the first two weeks of November indicate that trade and commerce is undergoing improvement, when compared with the gross receipts for the corresponding periods of the two preceding months. The figures show that the enormous decreases which have been shown for many months past are now dwindling to almost nothing, and unless all better in two parts. To one part, add signs fail it will be but a short time before the railways will be running well ahead of the tonnage they carried

Business people everywhere are in better frame of mind and looking forward to the resumption of business on a broader scale. Meantime the Government must do some financing and it is to the interests of all concerned to see the flotation of this new internal loan result in a great success. The extent to which this is the case will be a measure of the public's confidence and a successful outcome will be of incalculable benefit to the maintenance of Canada's credit in the eyes of the world, where it has stood pre-

News and Information For the Busy Farmer

The championship trophy at Royal Winter Fair for the best hall bushel of wheat, held by the prairie Provinces for many years back, came to Ontario this year. The winner was Douglas Hart, whose farm is located in East Zorra, near Woodstock. He makes a specialty of seed grain and has been a successful exhibitor on a humber of occasions, winning the Ea-Pair this year.

Champion Potato Grower Simooe County won a place an the potato map of Canada at the Koyal Winter Fair when the championship for the best bushel of potatoes was won by Edmund Maurice of Tiny Township. The prize of \$15 in cash tively recent convert to the value of growing certified potatoes. Up until two years ago his crop was of the nodescript variety. Through the local branch of the Department of Agriculture he was interested in potatoes of the better kind, and now his Dooleys; have captured the premier prize for

Guelph Winter Fair On December 7 to 10 the 48th nual Ontario Provincial Winter Fair will be held in the city of Guelph. Prospects are that entries will exceed previous years. There has always been a particularly strong showing of horses, beef cattle, sheep, swine and poultry at the Guelph Winter Fair, and this horse show each evening will draw a

Ontario at International Ontario Grain Growers have forwarded to the International Orain and Hay Show at Chicago more than one hundred entries of grain, grass seeds and corn. There were more entries for grain this year than in the record year of 1930 when Ontario growers won a championship, two reserve championships and forty other prizes. The province is particularly well represented in the clower and grass seed classes, there being 16 entries of red clover, nine in soy beans, eight in alsike, and seven in field beans. Due to changes in the corn borer regulations. Ontario corn growers were able to exhibit corn this year. Some 20 entries of corn of exceptionally high quality were forwarded to Chicago this year. The results of judging in the grain classes will be watched with keen interest by Ontario growers

Brown, Norval, and Frank use of legumes freely next spring. Onthat could be depended upon to turn G. Stark, Milton, from whom the bull tarto had a good crop this year of expected that both of these will be reasonable in price next spring. Alsike may be included also as high tariffs discourage export. Mr. Reck says; "As a soil builder, pasture and hay producer, alfalfa stands supreme. At Ridgetown we practise seeding all grain crops to alfalfa or mixture of alfalfa and other legumes. Even for plowing down, alfalfa opens up the soil and adds nitrates and other plant foods to a value worth much more than the price of seed. It also improves the mechanical condition of the soil for the production of beans. corn, fall wheat, and other crops. As a hay crop, alfalfa out-yields all others, both in quantity and quality. It was the only crop to remain green for pasture during recent very dry years in Western Ontario."

> Grades for Turnips Market grades for turnips have been in force for some years and with recent amendments specify the re-quirements for Canada No. 1, small small medium, medium and large. he small grade includes turnips two to four inches in diameter that are shapely and free from damage. The erm "shapely" is taken to mean reasonably regular to outline and with length not more than one and a half times the diameter. Defects that are ruled against are freezing injuries, water core, soft rot, dry rot, worms grubs and growth cracks. If any of these are present in small percentage they must be such as can be removed n the ordinary process of paring.

foremost carriers of cargoes, and since

if infallible punctuality, those ships will each take passengers on 37-day ruises at a cost which amounts to half the usual rate charged for month's cruise aboard regular passenzer ships. The meals served will be bout the same as those served regu-'arly to officers and crew-which means that few better meals are to be found anywhere on land. There is an element of Robinson Crusoe about those new voyages. They should appeal to people who have more time than money to spend on a year will be no exception. At few winter voyage and who put a high fairs is there as been competition in oremium on escape from what might classes for market animals. The light be called the social requirements of a Dissolve the junket tablet in cold capacity house. Coming at a time of visited by each of the Canadian Na-(birthplace of Napoloen's Josephine) St. Lucia, Barbados (called "The Little England of the Tropics). Gernada, Trinidad (whose adjoining - island Tobago, is said to have been Robinson Crusco's scene of shipwreck) and British Guiana, often called Demerara.

Here and There

Canada has a number crop of Dotatoes this year with an official preliminary estimate putting the total 19"1 yield at 92,558,330 bushels from 576.200 acres as compared with 80,401,660 bushels from 571,300 acres in 1930.

Canada is the pioneer in fish gulture on this continent. The first fry hatched from artificially fertilized eggs in Canada were produced in 1868 and fish culture was established as a Dominion Government service in 1867.

Britishers are seating Canadian eggs this year with their breakfast bacon. Estimates for 1931 place a figure of 20,000 cases, each of 30 dozen eggs, for export to Great Britain. Last year it was only 6,500 cases.

The fur trade is still one of Canada's big assets. In 1667 furs to the value of 550,000 franca were exported to France. Last year their value was placed at \$17, 187,399, mostly to Great Britain and the United States.

Grain traffic handled by the Canadian Pacific for October last shows a considerable increase over that carried for October, 1930. A total o. 17,921 cars was loaded last month from the Prairie Provinces as compared with a total of 13,573 cars in October,

Idle since the first week of October, the mill of the British Empire Steel plant at Sydney, N.S., is again in operation, giving full time employment of six days a week to upwards of 200 men. They are rolling soft steel for a number of orders recently placed with the company.

With a frall mileage of 7.162 miles to his credit and having to date seen 424 moose, 69 cariboo and 494 deer in New Brunswick, E. L. Pope, of Boston, Mass., is back in the New Brunswick forests on his 27th hunting trip in 29 seasons. He will spend several weeks on this trip.

Nat. Cornfoot, colorful golf pro at the Canadian Pacific Langura course, Vancouver, for the past five and a half years, sailed by the Empress of Russia recently for Tokio where he will act as golf instructor at the Fuji Shokai Club course. This organization operates a huge indoor layout in addition to its outdoors links.

Major John W. Sifton, one of the proprietors of the Manitoba Free Press, Winnipeg, seated at his writing desi. in his private residence at Toronto recently. pulled a lever which, through the medium of Canadian Pacific Telegraphs transmission wires, set in motion the new ten unit speed press just erected in the Free Press offices at a cost of \$300,000. The new press has a rated maximum capacity of more than 100,-000 forty-page papers per hour.

Twelve hundred colonies of screened bees and their accompanying quoens from the Province of Alberta to China was the unique feature of the Canadian export trade to the Orient and of the shipments aboard the Empress of Russia recently. The European and American bee produces nearly twice as much honey as its Asiatic brother that has been exploited by the Chinese since the time of Confucius.

Sportsman is Recovering Philip had a pleasant life at college, playing football, tennis, and all the sports, that youth loves. Then his father died—and Philip had to get a job. His work was hard and confining—there was little time for play in the fresh air. A cold and a bad cough resulted in a long spell of illness, which finally sent him to the Muskoka Hospital tor Consumptives. It has been an upbill journey, but the experienced medical attention, kindly nursing, rest and good food are remaking this young Canadian into a sturdy self-supporting man once more. There gained it pounds," Philip seys proudly, and I am just about right again. I will be glad to get back to work and help mother and the kids at home." There is high hope that his wishes will be fulfilled.

For this splendid work, money is urgently needed. Would you not like to make a gift? Mr. A. M. Ames. 213 College St., Toronto, will gladly receive it.

FOR GEORGETOWN MERCHANTS ONLY

There's No Need for a Fence Around Georgetown

You can't put a fence around Georgetown to keep Georgetown people from shopping elsewhere. Neither can you prevent them from buying from mail order houses.

None the less, it isn't by any means the hardest task to get Georgetown's folk to shop and buy in your stores. It's a task, to be sure, but one in which your help will go a long way.

People buy where they are trained to buy. Educate them to buy in Georgetown and they'll always buy there. And buying education is very largely a matter of advertising.

Advertising! That's the solution! Your own advertising and that of the manufacturers whose goods you strive to sell. Both, in your local, home newspaper, should prove effective in keeping Georgetown's business in Georgetown . . . and Georgetown's dollars in Georgetown.

Where the manufacturers' advertising is concerned, your task is easy.

When their salesmen come to sell you goods, talk up Georgetown to them. Talk it up with enthusiasm. Make them realize how important Georgetown is to you in turnover How important it is to their companies in more sales.

Talk up Georgetown so that these salesmen will pass the good word on to their sales managers who decide where advertising appropriations are to be spent.

With the advertising of more national manufacturers in your local newspaper, Georgetown and the surrounding country people will find it easier to shop in your stores. You'll find it easier to keep them coming to your stores. And there won't be any need for a fence around Georgetown.

You need the advertising aid of the manufacturers whose goods you stock-urge their salesmen to recommend your local home newspaper.
