Some Chicks are Dear at 15 cents, Some Cheap at a Quarter!

Did you ever stop to think-s man can't produce as good as article at half the price? We couldn't sell our good chicks at 15 cents and make a fair profit. We are completely sold out every year. Why? Because people are beginning to realize that they generally get just about what they pay for, no more, no less. Sometimes it pays to pay more. When times are hard and the going tough, keep only the best

because only the best pays in times like these. Chicks from a bloodtested, trapnested, pedigreed strain of Leghorns will pay at all times but you'll notice it more when feed in high and eggs are low. With eggs at 15 cents a dozen last summer, our hirdristill turned in a good profit. We're not in business for our health. If you tre "in the red" with your hens now, get a few Whiting chicks this spring and make money all the year round.

per chick books an order. March and April chicks 25 cents; May and

25% off all orders received before March 1st, 1932. Two cents

June chicks 20 cents. Hatching eggs half the price of chicks. We are an Ontario Breeding Station, a member of The Canadian Beby Chick Association and operate under "Hatchery Approval."
