their washing out the other day, and when they were finished, began to talk about house-cleaning

Said Mrs. A., "I don't know what I'm going to do about our attic. It's filled with a lot of things we don't use any more, and they're far too good to throw away." Her two companions agreed that they were faced with the same problem, but no one knew just what to do about it.

These three ladies are just an example of you and me, sometime or other, during the year. .Here and there, about the place, maybe in the attic, maybe in the cellar, some article lies unused. To you, perhaps it represents very little as far as usefulness goes. In your household it has served its time and made way for something new. BUT, the same article may be just what Mrs. So-and-So is looking for. Perhaps Mr. So-and-So could use that old desk, and his wife has been looking all over for that style of flower basket.

Spring housecleaning time is fast approaching. Lets look over the contents of the attic, pick out something that Somebody Else might be glad to buy, and then put an Advertisement in the HERALD. A Small Advt costs but Fifty Cents for once, or 3 times for \$1.00, and may help you dispose of those unused articles.
